

Yes, We Can!

Spotlight on Tools to End HIV

Oliver Refugio, MD, MPH, AAHIVS

(he/him/his)

December 3, 2024

World AIDS Day 2024

Treating HIV = Preventing HIV

As evidenced by several trials...

- *HPTN 052*
- *PARTNER/PARTNER2*
- *Opposites Attract*

HIV Prevention in the 1980s – early '90s

- ✓ HIV testing
- ✓ Condoms
- ✓ Limiting sex partners
- ✓ Avoiding needle sharing

HIV Post-exposure Prophylaxis (PEP)

...1st HIV prevention medication strategy

Who? HIV negative persons

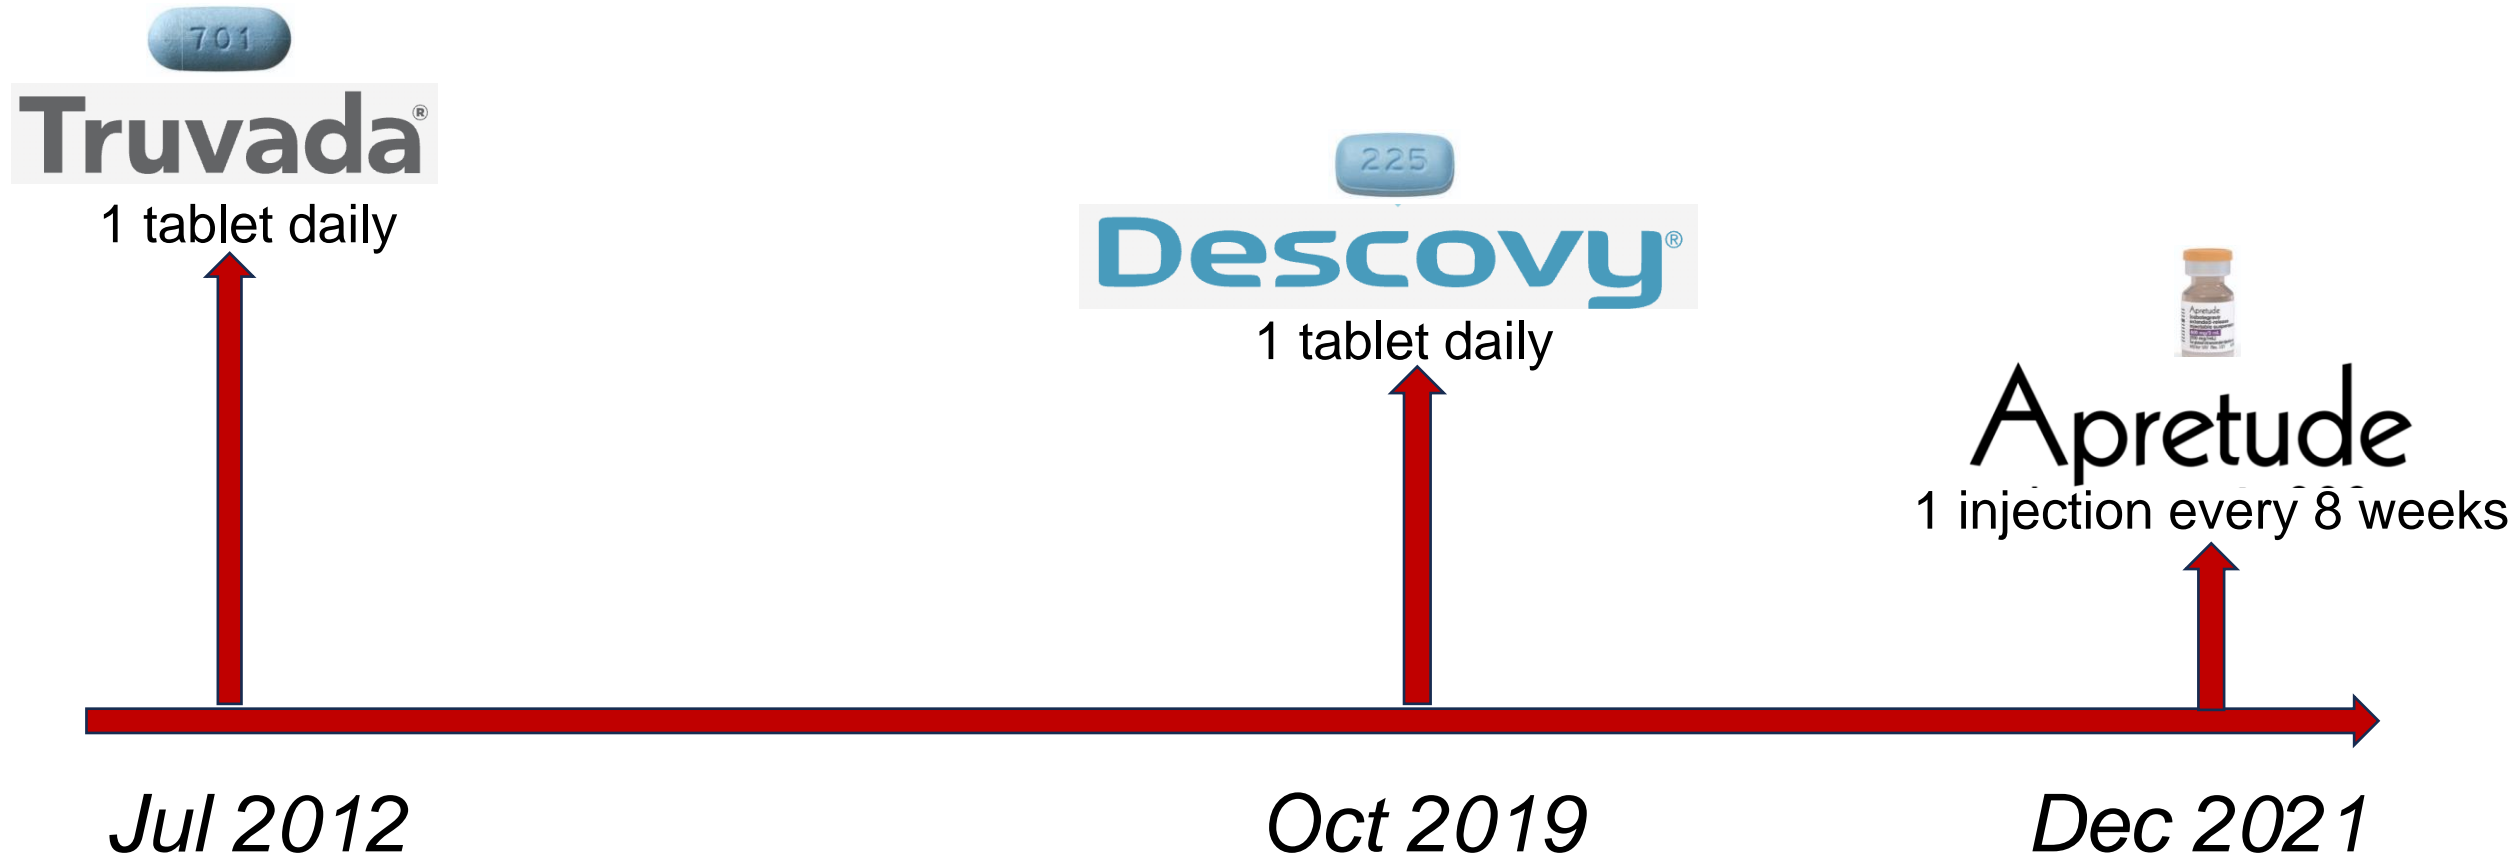

When? within 72h AFTER exposure

How? daily pills for 28 days

HIV Pre-exposure Prophylaxis (PrEP)

...potential turning point in HIV prevention

The Future of HIV PrEP...

Injections only twice a Year?!

Lenacapavir effective in reducing HIV transmission in PURPOSE 1&2 Trials (inclusive of all genders).

STI Prevention = HIV Prevention

...sexually transmitted infections (STIs) facilitate HIV transmission

Vaccine-preventable STIs:

- *HPV*
- *Mpox*
- *Hepatitis A*
- *Hepatitis B*

**Gonorrhea? (MenB vaccine)*

DoxyPEP, the new kid on the block

...reduces risk of syphilis, chlamydia, and gonorrhea

Who?

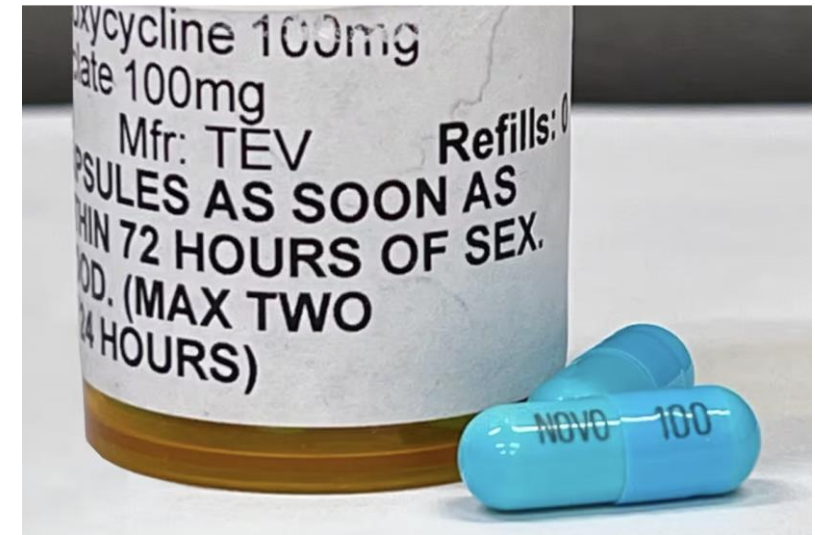

- Cisgender men who have sex with men
- Transgender women

When?

Within 72h AFTER condomless sex

How?

200mg oral doxycycline

HIV Prevention Beyond Medications

...science is evolving, but are we?

Anti-LGBTQ+ policies

Housing Crisis

Systemic Racism

Mental Health

Stigmatization of Substance Use Disorders

HIV Prevention Beyond Medications

...science is evolving, but are we?

Equitable access?

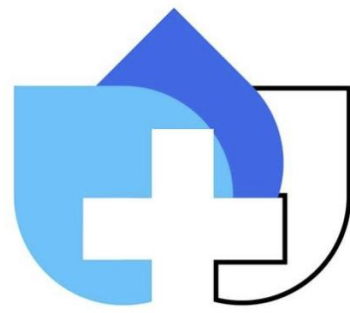

Collaboration?

*Whole-person,
person-centered?*

Innovation?

Resource allocation?
