

Stephanie Todd
Deputy CIO-Community Services Cluster
Chief Executive Office/CIO

Stephanie Todd is a Deputy CIO at LA County's Chief Executive Office/CIO serving as a trusted technology advisor to the Board of Supervisors and the Chief Executive Office. She supports the departments in the Community & Municipal Services cluster providing IT governance and strategic planning, recommendations on technology investments, and providing alignment between enterprise IT goals and department business and technology strategies.

Before going to the CEO/CIO, Stephanie was the Division Manager for the Internet Development Division (IDD) at the Internal Services Department. Her teams worked with all County departments to design and develop websites and applications integrated with GIS tools. Before heading up IDD, Stephanie was the Chief Engagement Officer who managed the Business Relationship Management (BRM) team that worked with all County departments to help improve effectiveness, reduce costs, and meet their strategic goals. Before BRM, Stephanie worked as a Project Manager, Business Analyst, and Systems Analyst.

After 28 years with the County, Stephanie believes it is the relationships you build that will weather you through the storms...good and bad! Stephanie builds trust with her customers by truly caring about and understanding their day-to-day challenges and developing new ideas to address them.

Stephanie is a Certified Business Relationship Manager, and when not working, spends her time traveling to foreign lands and volunteering for dog rescue groups.

Stephanie holds an MBA from National University and a BBA in Information Systems Management from the University of Oklahoma.
