CODE OF CONDUCT

We welcome commissioners, guests, and the public into a space where people of all opinions and backgrounds are able to contribute. We create a safe environment that celebrates differences while striving for consensus and is characterized by consistent, professional, and respectful behavior. Our common enemies are HIV and STDs. We strive to be introspective and understand and clarify our assumptions, while appreciating the complex intersectionality of the lives we live. We challenge ourselves to be self-reflective and committed to an ongoing understanding. As a result, the Commission has adopted and is consistently committed to implementing the following guidelines for Commission, committee, and associated meetings.

All participants and stakeholders should adhere to the following:

- 1) We strive for consensus and compassion in all our interactions.
- 2) We respect others' time by starting and ending meetings on time, being punctual, and staying present.
- 3) We listen, don't repeat what has already been stated, avoid interrupting others, and allow others to be heard.
- 4) We encourage all to bring forth ideas for discussion, community planning, and consensus.
- 5) We focus on the issue, not the person raising the issue.
- 6) We give and accept respectful and constructive feedback.
- 7) We keep all issues on the table (no "hidden agendas"), avoid monopolizing discussions and minimize side conversations.
- 8) We have no place in our deliberations for homophobic, racist, sexist, and other discriminatory statements and "-isms" (including misogyny, transphobia, ableism, and ageism).
- 9) We give ourselves permission to learn from our mistakes.

 - Cheryl Barrit provided a breakdown of the Fiscal Year (FY) 2022-2023/Program Year 32-33 Commission on HIV (COH) Operational Budget. The document can be found in the meeting packet. C. Barrit noted that the current budget is an estimate of anticipated costs and is subject to change.
 - Al Ballesteros asked how many staff positions at the COH are available in the budget. C. Barrit responded that there are a total of seven positions. This includes five current staff members and two vacancies. A detailed description of each staff position and their function within the office was requested for the next meeting.
 - B. Gordon inquired about what happens to the money from the COH budget that is not spent once it is returned to the Division of HIV and STD Programs (DHSP). C. Barrit responded that the COH's primary source of funding is the Ryan White Program (RWP) administrative allocation of the budget, which is 10% of the RWP annual grant. The 10% administration allocation is also shared by DHSP's quality improvement and clinical quality management activities required by the Health Resources and Services Administration (HRSA). Mario J. Peréz, Director, DHSP, provided additional explanation on how the 10%

administrative allocation is used and shared that savings from the COH budget are applied to supplement additional DHSP administrative costs.

(2) Teleconference Meetings Under Assembly Bill 361 and Related Actions

• C. Barrit informed the Executive Committee that on June 14, 2022, the Board of Supervisors (BOS) voted to extend the continuation of virtual meetings for the next 30 days. Hybrid meeting options will be available for all COH meetings once in-person meetings resume.

6. CO-CHAIR'S REPORT

- A. Human Relations Commission (HRC) Training Series | FOLLOW UP & NEXT STEPS
 - Robert Sowell, Assistant Director, Human Relations Commission (HRC), provided a summary of the "Constructive Candid Conversations" Training Series. The summary can be found in the meeting packet.
 - R. Sowell made the following suggestions the COH can take further its efforts to hold constructive candid conversations:
 - Review meeting ground rules and interaction agreements to set the tone for each meeting.
 - The Operations Committee is working on ensuring that commissioner interview questions align with the COH Code of Conduct.
 - Distribute the training series summary to new commissioners and staff members as part of onboarding materials.
 - Incorporate opportunities on meeting agendas to practice constructive candid conversation skills for topics that are non-controversial. Skills include rephrasing and repeating, reflecting emotion, and practicing empathy.
 - Lee Kochems supported the suggestions made by R. Sowell and recommended extra steps to build trust among commissioners. He suggested forming small groups within the COH to work as "trust facilitators."
 - B. Gordon pointed out issues of a culture that is not welcoming to differences, which leads to difficulties getting work done and suggested that commissioners state "why we are here" at the beginning of meetings to remember the purpose of goals of the COH.
 - R. Sowell will work with COH staff and Executive Committee members to discuss plans to address holding constructive candid conversations. L. Kochems, B. Gordon and D. Campbell volunteered to be a part of this discussion.

D. Executive Committee At-Large Member Recruitment

 B. Gordon expressed concerns with the COH bylaws, which limits two people per organization to be members on the COH. L. Kochems will discuss this issue with the Public Policy Committee to see if anyone is interested in filling the Executive Committee at-large member seat. M. Peréz emphasized the importance of participation from unaffiliated consumers.

7. DIVISION OF HIV AND STD PROGRAMS (DHSP) REPORT

- A. Fiscal, Programmatic and Procurement Updates
 - (1) Ryan White Program (RWP) Parts A & MAI
 - M. Peréz reported that the Los Angeles County Department of Health Services (DHS) has undergone a recent audit that resulted in cost allocation planning, suspending all Memorandum of Understanding (MOU)s related to Ryan White Program (RWP) funding that are currently in place.
 - There is an estimated \$12 million in services that DHSP supports in the DHS system; about \$7 million is used for RWP HIV specialty services. The DHS suspension on MOUs will affect the allocation of these funds.
 - Moreover, retroactive to March 1, 2022, DHS will no longer bill DHSP for RWP support services. These services will now be covered under Medicaid and CalAIM instead of RWP. M. Peréz expressed that this decision is a cause for concern because the data is clear that PLWH receiving care from the RWP have far better outcomes, around an 85% viral suppression rate, than those receiving care from publicly funded programs, such as Medicaid.
 - The Executive Committee discussed holding a meeting with DHS leaders to discuss concerns with this change. COH staff will work with the Executive Committee to draft a letter to the Dr. Christina Ghaly, Director, DHS, to express the purpose and desired outcomes of the meeting.

Service Standards: Ryan White HIV/AIDS Programs

INTRODUCTION

Service standards for the Ryan White HIV/AIDS Part A Program outline the elements and expectations a service provider should follow when implementing a specific service category. The standards are written for providers for guidance on what services may be offered when developing their Ryan White Part A programs. The standards set the minimum level of care Ryan White funded agencies offer to clients, however, providers are encouraged to exceed these standards.

The Los Angeles County Commission on HIV developed the Home-Based Case Management Services standards to establish the minimum standards of care necessary to ensure people living with HIV (PLWH) can receive quality Home-Based Case Management services when attending core medical and/or support services appointments and meetings. The development of the standards includes guidance from service providers, people living with HIV, the Los Angeles County Department of Public Health, Division of HIV and STD Program (DHSP), members of the Los Angeles County Commission on HIV, Standards & Best Practices Committee, Women's Caucus, and the public-at-large.
