

## **MRI scanner stops traffic in Gregory Hills**

**SYDNEY 17 August 2018:** There was a very special delivery in Gregory Hills on Friday as a 4.5 tonne MRI scanner was lifted into position at the I-MED Radiology clinic located within the SOMA Health Hub.

Following weeks of planning, the delicate operation included the closing of a road and the removal of an outside wall - to ensure the safe delivery of Gregory Hills' first MRI scanner.

The new I-MED Radiology clinic in Gregory Hills is scheduled to open next month and will offer local residents a full suite of diagnostic imaging services including CT, MRI, ultrasound, general x-ray and interventional procedures. Expert clinical guidance will be provided by a strong doctor group led by Dr Greg Markson, Dr Mark Waterland and Dr Andrew Robinson.

Diana Graham, Regional Manager I-MED Radiology, said the team were excited to see the delivery of the Siemens Magnetom Sempra MRI scanner.

"We can't wait to open the doors on our new clinic and provide Gregory Hills' residents MRI services for the first time. This is a fast growing community and the SOMA Health Hub will offer local residents access to quality and convenient health services," said Ms Graham.

### **About I-MED Radiology Network**

I-MED Radiology Network is Australia's largest medical imaging network, offering diagnostic imaging and radiology services including x-ray, PET, CT, MRI, Nuclear Medicine, Ultrasound, Mammography and interventional procedures.

Our 200 clinics are located in metropolitan as well as many regional and rural communities across Australia.

Our team of more than 300 radiologists, including some of the most respected and experienced medical imaging specialists in Australia, performs more than 4.2 million patient procedures each year. We encourage and facilitate sharing of clinical knowledge and expertise, and can provide second opinions in complex cases without delay. Our commitment to quality means we invest in the most up-to-date equipment to provide the best diagnostic imaging. Patient images can be stored indefinitely and can be accessed from any of our clinics across Australia.

We recognise that many of our patient procedures require sensitive management, and we are dedicated to offering our patients quality care that is respectful, personable and focused on achieving the best health outcomes.

**I-MED Radiology Network**  
**Comprehensive care. Uncompromising quality.**
