

PRACTICE OPERATIONS DATA SET

MGMA DataDive Practice Operations creates fundamental organizational change by focusing on the daily experiences of your customers, patients and employees. This one-of-a-kind data set represents operational data from over 1,000 organizations. It includes data that is not found anywhere else, which delivers fundamental metrics that show how both patients and employees relate to your organization. The MGMA DataDive Practice Operations platform will enable you to:

- **Increase patient satisfaction.**

Evaluate and benchmark the many factors that contribute to patient satisfaction, including average office wait times, scheduling availability and use of patient portals.

- **Reduce staff burnout and turnover.**

Correlate data points to find quick remedies for big problems, like staff turnover.

- **Increase operational efficiency.**

Medical practices face a variety of challenges today, and among the most addressable are practice operations, which tend to separate top-performing practices from the rest. Stand out from your competition and increase your overall operational efficiency by benchmarking key metrics such as number of billing claims per day, percent of claims denied on first submission, call volumes and total operational hours.

BENCHMARKS

VALUE

- Number of Payer Contracts
- Number of Payer Contracts with Value-Based Reimbursement
- Number of Total Covered Lives
- Number of Covered Lives Attributed to Value-Based Contracts
- Hospital Admission and Readmission Rate
