

# RELIABLE, LIQUID-TIGHT PRODUCT CONTAINMENT THAT REMOVES CROSS CONTAMINATION RISK

Eliminate leakage and spillage in your facility with Intralox® ThermoDrive® Sealed Pocket belting. Created so you can isolate and inspect foods for contamination, this hygienic solution includes rectangular pockets with seamless, liquid-tight seals that separate and contain your product.

Compared to other solutions, Intralox's fully sealed belting offers longer belt life, less maintenance, easier cleaning, and better operational efficiency. From powders and liquids to small, fragile items, maximize product containment on your lines with Intralox ThermoDrive Sealed Pocket belts.

## Benefits

**Less belt maintenance than metal chains**

**Better tracking and hygiene than flat belts**

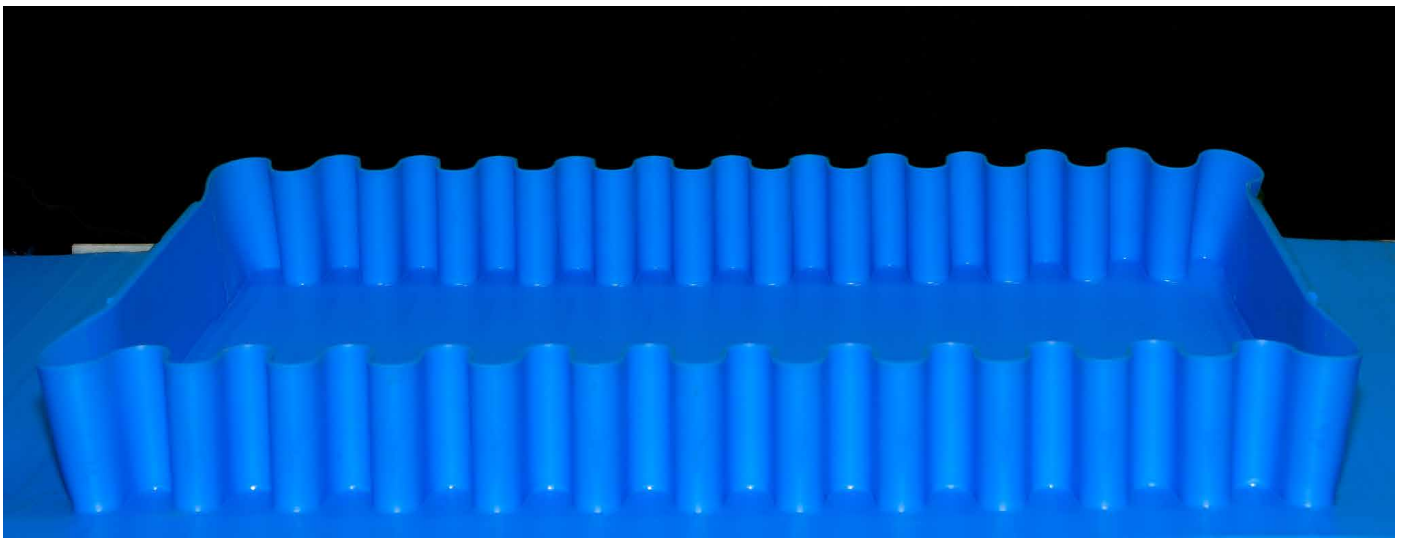

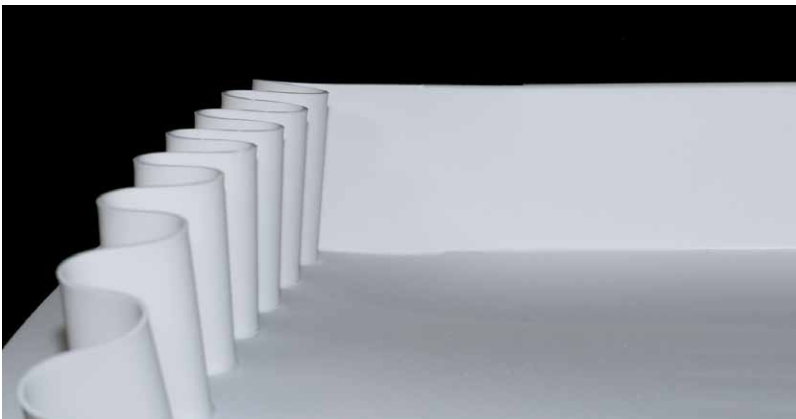

**Safer and quieter than stainless steel table belts**

**Lower total cost of ownership due to longer belt life**

**Backed by proven Intralox services, expertise, and support**

## Features

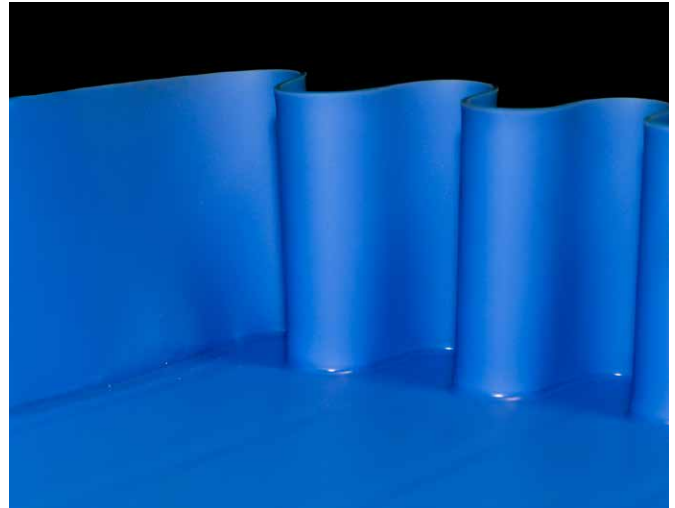

- Individual compartments formed by sealing flight edges to Synchronized Sidewalls
- Polyurethane A23 material is rated to 212°F (100°C)
- Available in widths up to 1,500 mm and heights up to 100 mm

## Applications

- Offal inspection lines (beef, pork, lamb)
- Powders (sugar, starch)
- Seeds
- Cereals
- Detergent pods

**650K+**

**CYCLES RECORDED  
WITHOUT FAILURE**
