

PRODUCT HIGHLIGHT

PREVENT PRODUCT LOSS AND CARRYOVER WITH THE THERMODRIVE NUB TOP PROFILE

ThermoDrive® technology now features a new Nub Top belt surface pattern for improved hygienic product control and conveyance capabilities: ThermoDrive Series 8026E Nub Top. This pattern has been enhanced to meet customer needs for aggressive grip and release characteristics, preventing product loss and carryover in applications that involve slippery or sticky products. ThermoDrive S8026E Nub Top belting will be produced as a fully extruded, finished product.

FEATURES

- Increased nub count for better product grip and release
- New nub pattern simplifies splicing and flight fabrication
- Increased belt pull capabilities for use on many applications
- Now available in widths up to 72 in (1828 mm)
