

PRODUCT HIGHLIGHT

THERMODRIVE EMBEDDED DIAMOND TOP PROFILE

ThermoDrive® technology's proven Embedded Diamond Top belt surface provides excellent release in applications with sticky, wet, or enrobed products. The accurate product release capability of the Embedded Diamond Top belt contact surface reduces carry-over and increases yield. This profile is now available in dual-sided flights and for the product facing side of the Series 8050 E Synchronized Sidewalls.

FEATURES

- Available in S8026 and S8050 E in widths up to 72 in (1829 mm)
- Embedded Diamond Top Synchronized Sidewalls are available for ThermoDrive S8050 belts
- Embedded Diamond Top profile is available on dual sides of flights in straight and scooped styles, up to 0.28 in (7 mm) thickness, and up to 6 in (152 mm) height
