

EPND case study data use conditions

A. Outcome policies

For any outcome (conference abstracts, posters, presentations, publications) using the requested data, please follow the below policies:

Conference Abstract:

- Conference abstracts should be submitted **at least 1 week prior to submission** to co-authors and to the EPND management office (pmo@epnd.org). Failure to respond will be taken as agreement.

Poster / presentations:

- Posters and presentations should be sent **at least 1 week prior to presentation** to co-authors, with the EPND management office (pmo@epnd.org) copied to the email. Failure to respond will be taken as agreement.
- EPND and Innovative Health Initiative (IHI) logos should be included in all posters and presentations (see section C – EPND consortium)

Scientific publication:

- If a scientific publication is planned, a detailed abstract should be shared at the start of the project with all co-authors.
- Final validation of the publication by the co-authors is required, and the EPND management office (pmo@epnd.org) should be informed.

Information on co-authors to be included can be found in sections B, C and D.

B. Co-Author Guidelines

An overview of the co-author guidelines is provided below. Please see section C for names and affiliations. Please see section D for pre-compiled co-author lists depending on used dataset(s).

1. **First author:** Conducted the analysis and wrote the manuscript / corresponding author
2. **Additional authors:** All individuals substantially involved in the data analysis, project conception or design, drafting of manuscript, data interpretation, critical revisions, or intellectual contributions.

3. **Sample analysis contributors**
4. **WP4 Disease area specialists**
5. **WP4 harmonization team**
