

Adding Distress to Your Design

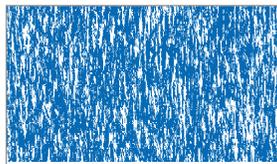

Distress can be added to most layouts in the Idea Book. Choose from one of these different distressed effects to make your design look like it has been weathered and aged. Just mention the clip art number or the layout on this page when ordering to specify which pattern you'd like to add to your design. Distress is a subtraction of ink, so it works best with layouts with large areas of ink. If the design has small detail or small text, it may get lost in the distress.

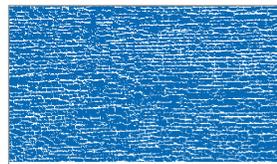

(Medium Distress)
Rain X19A-995

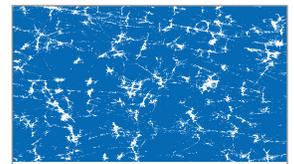

(Medium Distress)
Splatter X19A-996

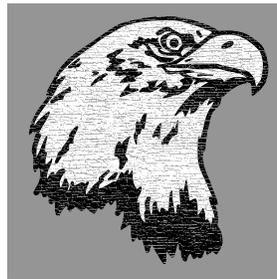

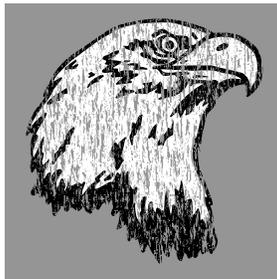

(Heavy Distress)
Grunge X19A-997

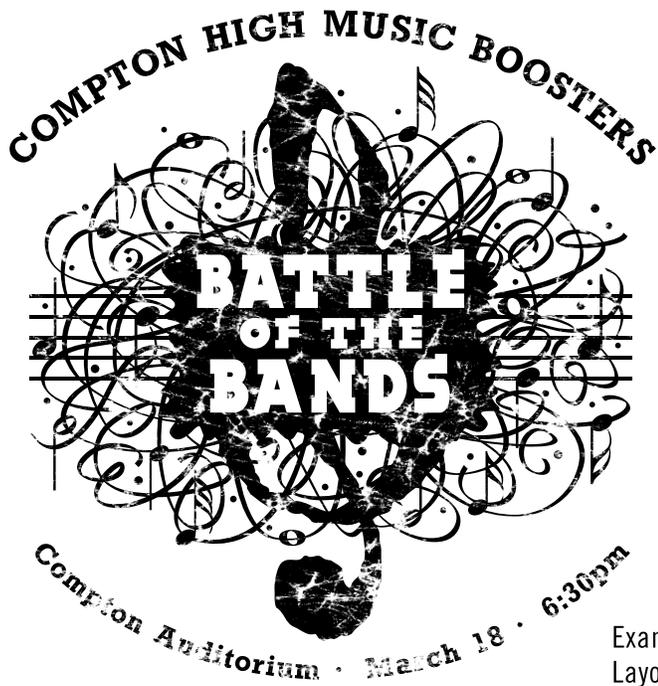

(Light Distress)
Leather X19A-998

(Medium Distress)
Crackle X19A-999

Eagle clip art:
X2B-1

Example:
Layout QMU-74

Tip: For smaller text areas, bring the text to the front for more legibility.
