

***The R2 Digital Library from Rittenhouse Receives Platinum Award in the 2022 Modern Library Awards from LibraryWorks***

February 8, 2022 – Rittenhouse is pleased to announce its health sciences eBook database, the R2 Digital Library, is a multi-year honoree and the recipient of a platinum award in LibraryWorks’ eighth annual Modern Library Awards (MLAs).

The MLAs were created to recognize the top products and services in the library industry in a truly unbiased format. These products were batched into small groups and sent to the LibraryWorks database of more than 80,000 librarians at public, K-12, academic, and special libraries. Customers with experience with these products/services in their facilities were permitted to judge the products/services, resulting in a truly unbiased score.

“We strive to offer our customers a preeminent solution to collecting digital content for the health sciences,” said Nicole Gallo, Executive Vice President, Rittenhouse. “Receiving a platinum award for the R2 Digital Library reinforces how valuable R2 is to librarians and health sciences students and professionals. Our database was built with the health sciences user in mind.”

The R2 Digital Library platform offers thousands of health science eBooks from the leading publishers and associations—including videos and images. These high yield, current resources provide the specialized content demanded by health sciences professionals, faculty and students.

Jenny Newman, Program Producer, Modern Library Awards said, “It’s hardly a surprise that the R2 Digital Library scored so well. They’ve proven the quality and uniqueness of their eBook database to the industry, since its debut to the market in 2005.”

In addition to traditional publisher content, the R2 Digital Library also offers Open Educational Resources (OER). Add link to review/award web site?
