

Available as a  
wrinkle-texture  
coating

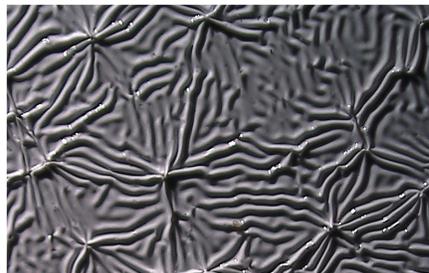

**The latest addition to the DURAFORM® BP family is a textured coating with high abrasion resistance**

Utilizing proprietary, patented technology, *Duraform* BP polyester coatings combine toughness with flexibility for a wide range of exterior end uses, including gutters, downspouts, soffits and fascias.

Our latest formulation offers a special wrinkle texture that significantly increases abrasion resistance versus standard polyester coatings while retaining the durability, stain resistance and flexibility your building products demand. Its unique appearance also gives a sparkle effect that enhances the texture of the surrounding materials.

**Product Benefits**

- Available in a broad range of glosses and solid colors
- Designed for one- and two-coat application on steel and aluminum, depending on end use
- Excellent batch-to-batch consistency
- Cost-effective choice offering quality and durability
