

BoothStrip®

The "Stay-Clean" Solution for Spray Booths

Applied to spray booth walls and ceilings, BoothStrip is a water-based strippable plastic film that collects paint overspray. The thin, bright white film improves spray booth visibility and when soiled peels away easily during regular cleanup.

Safe for the Environment

- No solvents
- No air pollutants

Easy Application and Removal

- Apply with standard spray equipment
- Tack-free and ready for use in one hour after application
- No solvents needed for removal
- Film easily strips off during regular maintenance

Superior Performance

- Dries to form a tough white plastic film
- Excellent tensile strength
- Exceptional solvent resistance
- Adheres to bare metal and painted surfaces without sagging
- Bright white color for clean appearance and better visibility

Economical

- More economical than solvent systems
- Only requires one coat of 3 to 4 mils of dry film
