

AUTOMOTIVE REFINISH

Waterborne Basecoat Modifier Calculator Smart Phone Shortcut Instructions

The following Technical Bulletin is designed to provide convenient directions for adding a shortcut to the PPG Waterborne Basecoat Modifier Calculator on your smartphone home screen.

Directions:

Creating a direct link to the calculator is a multi- step process. Once completed the calculator will be available at the touch of a shortcut button on your screen. Instructions are provided for both iPhone and Android users.

Note: Always review and confirm proper RTS color reduction prior to addition of Modifier. Additional information can be found on the following technical bulletins available at ppgrefinish.com:

- *Envirobase* High Performance Technical Bulletin ETB003 T492 Adjuster & T493 Modifier Recommendations
- *Aquabase* Plus Technical Bulletin ABTB1250 Tech Bulletin P935-1250 Adjuster & P935-1255 Modifier

Step 1: Open your phone's internet browser
Safari on iPhone Chrome on Android

Step 2: Navigate to the website
www.ppgrefinish.com

Step 3: Choose your regional site by clicking on
"UNITED STATES & CANADA"

Step 4: Choose your country "USA" or "CANADA"

This will bring you to the mobile version of the PPG Refinish website.

Directions Continued:

Step 5: Navigate by scrolling to the section titled "MY PPG" and select it in order to open the full menu. **Note: you DO NOT need to log in in order to access the "MY PPG" section.**

Step 6: Scroll to navigate to the item titled "Waterborne Basecoat Modifier Calculator" and select it to access the brand choice screen.

Step 7: Choose either ENVIROBASE® High Performance or AQUABASE® Plus based on the brand used in your shop.

For iPhone: (For Android see following page)

iPhone Step 8

Step 8: Once the calculator has loaded, select the “Save” option menu at the bottom of the screen and open the save menu.

Step 9: Select “Add Bookmark” from the menu choices.

iPhone Steps 9 & 10

Step 10: Choose the menu option “Add to Home Screen” in order to create the shortcut on your home screen. A menu will pop asking you to name the shortcut, we suggest T493 Calculator or P935-1255 Calculator and select “Done” when you have finished.

Step 11: Navigate to your home screen and verify that the Modifier Calculator Link has been created.

Directions Continued:

For Android: (For iPhone see prior page)

Step 8: Once the calculator has loaded, select the 3 dot drop down menu at the top right of the screen choose "Add to Home Screen" in order to create the shortcut on your home screen. A menu will pop up asking you to name the shortcut, we suggest T493 Calculator or P935-1255 Calculator and select "ADD" when you have finished.

Android Step 8

Step 9: Navigate to your home screen and verify that the Modifier Calculator Link has been created.
