

Celebrating a partnership that continues to fuel **STEM exploration!**

The PPG SCIENCE PAVILION® at Carnegie Science Center celebrates its 5th anniversary.

At this important milestone, we reflect on the ways PPG and the PPG Foundation's support has continued to fuel engaging **science, technology, engineering, and mathematics (STEM) educational opportunities** that encourage creativity and innovative learning.

FOR FIVE YEARS
PPG's support has helped Carnegie Science Center make possible the expansion and creation of programs, events, and competitions, including:

400k
average annual visitors from 2018-2022

10 SciTech Days
connecting **9,500+** middle and high school students to real-world STEM professionals, including PPG employee volunteers

151k+
group visitors, **95%** of which include student groups

2 ChemFest events
where **6,600+** participants in grades 3-12 learned about the applications of the chemical field and chemist careers

2 Pittsburgh Regional Science and Engineering Fairs,
which challenged **1,300+ students** in 6-12 grade to design, execute, and present original experiments

3 MessFest events
where **10,400+** participants engaged in hands-on physics and chemistry activities

Launching Science of Play
with Carnegie Science Center, and the Pittsburgh Penguins Foundation, a fun and engaging exploration of the physics, geometry, physiology, and materials science behind hockey

Expanding learning opportunities through the PPG SCIENCE PAVILION®

Launched in 2018 The PPG Science Pavilion has served as a hub for a diversity of educational events, camps, classes, and hands-on exhibits

20k+ students and teachers participated in programming in the FedEx STEM Learning Labs in the Pavilion

6 immersive and educational exhibitions in its Scaife Exhibit Gallery, attended by **530,000+** community members

40 YEARS
PPG and the PPG Foundation have partnered with Carnegie Science Center to support STEM learning

Worldwide Science Center Collaborations

- PPG supports **10+ science centers** globally, providing thousands of community members with opportunities to learn about scientific topics in hands-on, interactive settings
- **PPG employee volunteers** help students with hands-on science projects and share their career stories
