

# Brush / Roller Additives

## Improve Your Brush and Roller Applications!

Designed to be mixed in most Matthews Paint topcoats and clears, these additives improve brush and roller applications by providing maximum leveling and flow characteristics and increasing open time for improved workability.

### Features & Benefits:

- Provide maximum leveling and flow characteristics
- Increase open time for workability
- Can use in topcoats and clears
- Available in both gallon and quart sizes

**Important:** Apply the paint with high quality applicators. Brushes: Use nylon/polyester or china bristle brushes. Rollers: Use woven polyester, mohair or lambswool roller covers.

### Perfect for Field Touchups!

Our brush/roller additives allow you to use the same paint in the field that was used in the spray booth. This ensures matching gloss levels and saves time and money on unneeded paint orders.
