

Kolbe's Newest Smart Glass Solution

Kolbe Windows & Doors has expanded its smart glass offering to include a new privacy option. A selection of windows and doors now features **CLiC™ On-demand Privacy Glass** that can switch between obscured and transparent at the touch of a button. This technology provides users with flexibility and control to easily adapt interior spaces to their changing needs.

CLiC™ utilizes liquid crystal technology applied directly to the glass to quickly transition between diffused lighting and brighter daylight openings. An electrical signal prompts the liquid crystals to either scatter and obscure the view or align to create a traditional glass appearance.

Kolbe® products with CLiC™ On-demand Privacy Glass offer:

- Alternative to fabric, blinds, or other privacy options
- UV ray blocking capabilities during obscure state
- Cooler, more comfortable interiors
- Superior sound dampening for quieter living spaces
- Various control options for single or multiple glass units
- Expanded glass functionality as HD projection surface

The below Kolbe windows & doors are available with CLiC™ technology:

Product Line	Crank-out Casements	Crank-out Awnings	Direct Sets	Corner Direct Sets	Swinging Doors
VistaLuxe WD LINE	—	—	●	●	—
Ultra Series	●	●	●	●	●
Forgent® Series (All Glastra®)	●	●	●	—	—
