1. Questions & Answers related to Request For Proposal 104-24 for Long Term Care Coverage

All other terms and conditions remain the same.

Questions & Answers related to Request For Proposal 104-24 for Long Term Care Coverage

1. **For underwriting purposes, I'm wondering if you can provide any demographic information (number of potential participating schools and employee lives).**

Answer: For this RFP, there is no demographic information, number of school districts or employee lives. You reserve the right to underwrite each group on its on merit once a sale has taken place.

2. **What is the typical strategy for enrollment and communication to member groups of the co-op?**

Answer: Details around enrollment and communication to employees of a district that elect to join the Benefits Cooperative, and be a part of the LTC program, should be included in your proposal.

3. **Given that important clarifications needed to get through compliance will likely be provided on Friday, is a due date extension possible?**

Answer: An extension will be taken into consideration; however, the RFP released on August 13 and due September 12 seems appropriate.

4. **Does each participating district sign their own group application and policies specific to the district (not a TASB policy with participating districts under association policy)?**

Answer: Yes, that is correct.
