

## Online Asbestos 2 Hour Awareness Training

This online course meets the Asbestos Hazard Emergency Response Act (AHERA) regulation for employee Asbestos Awareness Training.

This class is to be administered to all maintenance and custodial staff who may work in a building that contains Asbestos Containing Building Materials (ACBM). This includes part-time and contracted staff, as well as any other employees who may encounter ACBM in the routine course of their work or have cleaning in their job description (electricians, heating/air conditioning engineers, IT staff, plumbers, kitchen staff, etc).

New employees must be trained within 60 days of hire. There are no refresher requirements for this training.

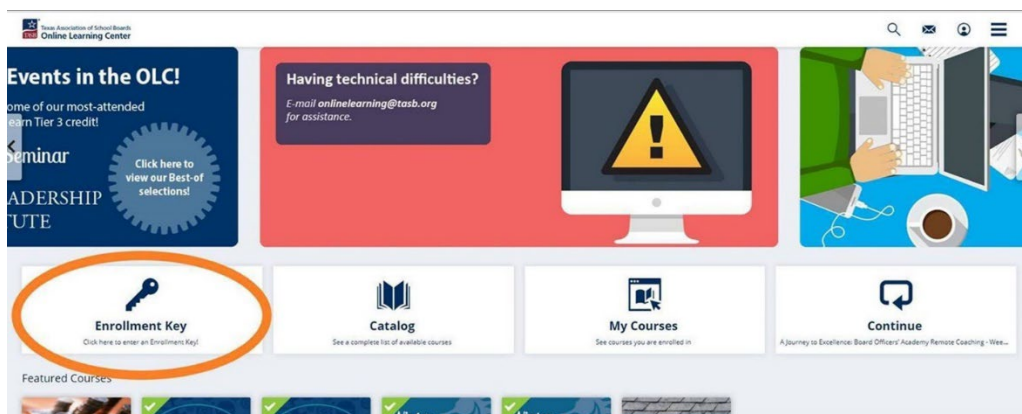

Topics covered in the training video include information regarding asbestos and its uses and forms, health effects associated with asbestos exposure, and recognition of damage, deterioration, and delamination of ACBM. **The following district-specific information will also need to be supplemented by the district's appointed Asbestos Designated Person as part of this training:**

- **Locations of ACBM identified throughout the district**
- **Name and ways to contact the Asbestos Designated Person**
- **The location of the Asbestos Management Plan**

## To access the training:

The online **Asbestos Awareness Training** course may be accessed via TASB's Online Learning Center.

Go to TASB's [Online Learning Center](http://onlinelearning.tasb.org) and log in or click "nonTASB Member Login/Sign Up" to create a free account. Once you're logged in, click the **Enrollment Key** button:

Enter the code **ENV2HOUR** to be immediately enrolled in the training.

You can contact the Online Learning Center's administrator at [onlinelearning@tasb.org](mailto:onlinelearning@tasb.org) or 512.505.2455 if you need any help with the account or getting enrolled. Reach out to [AMPsupport@tasb.org](mailto:AMPsupport@tasb.org) if you have any questions about the training or its content.
