

ARRT Listens: Building a Stronger Profession Through Your Voice

Presenters: Karyn Estrada, MBA, R.T.(N)(CT)(ARRT), CNMT | Michelle Kujawski, UX-Certified

Session Overview

This session explores how ARRT gathers and applies educator feedback to improve communication, tools, and resources. Through channels like surveys, user experience research, conferences, and social media, ARRT identifies patterns that highlight where clarity is needed most. The result is more accessible, consistent, and actionable information to better support educators and their students.

Key Takeaway

Educator feedback plays a vital role in helping ARRT strengthen communication, enhance resources, and better serve educational programs. By sharing their experiences and perspectives, educators help shape tools and information that support both teaching excellence and student success.
