AGES 6+
2 Players

THE ORIGINAL GAME OF CONNECT 4®

ADULT ASSEMBLY REQUIRED

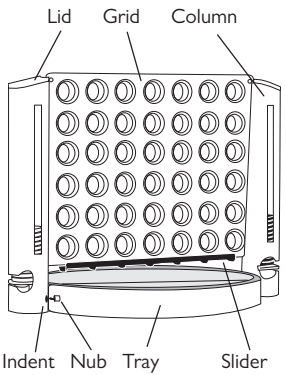

GRAB & GO™

Object
Be the first player to get four of your color checkers in a row – horizontally, vertically or diagonally.

Contents
- Playing grid with trays
- 21 yellow checkers
- 21 red checkers

The First Time You Play, Assemble the Trays
Attach one tray to the grid by inserting the two nubs on the tray edge into the indents near the bottom of each column. Repeat for the other tray. The assembled unit is shown here. →

Setup
Fold out the two trays and make sure the slider tab is in the middle of the grid. Open the lids at the top of each column, and drop the checkers into the columns on the sides of the grid: yellow on one side, red on the other.

Gameplay
Place the grid between players. Decide who plays first; players then alternate turns. On your turn, slide a checker of your color out of the side of the column, and drop it down any slot in the grid.

Winning
The first player to get four of their color checkers in a row – horizontally, vertically or diagonally – wins. If there's a tie, have a rematch.

To Play Again
Push the slider to the side to release the checkers. Then slide it back to the middle of the grid. Place the checkers back into the columns on the sides of the grid.

Storage
Place the checkers back into the columns on the sides of the grid, and snap shut the lids at the top of each column. Fold up the trays.
