CONTENTS

wobble base • tube • plastic net •
cardboard backboard • 3 plastic balls

ASSEMBLY

1. Connect the tube to the base, and the net to the tube.
2. Slide the backboard into the slots on either side of the net.

TOP TIP

The closer to the net you bounce the ball, the easier it is to make the shot!

OBJECT

Bounce all three balls into the wobbling tower to win. Start with the easiest challenge and work your way up to become the ultimate Bounce Master! Play solo or challenge your friends and family.

GAME CHALLENGES

If you're playing solo, test yourself by trying to complete these challenges in as few tries as possible. For multiplayer games, alternate turns and see who can complete the challenge first.

1. Straight Shooter

Bounce all three balls into the net in the fewest shots.

2. The Wobbler

Touch the base to make the tower wobble. Now try to bounce all three balls into the net before it stops.

3. Overboard

Bounce the ball over the backboard and into the other side of the net. (It's okay to readjust the unit if it moves.)

4. Double Bounce

Bounce the ball twice and then into the net in the fewest shots.

5. Swisheroo

Remove the backboard and spin the base, causing it to twirl around as it wobbles. Now try to bounce all three balls into the net before it stops moving.

Don't stop here—get creative and make up your own challenge!
