**Permits, Passes & Codes of Conduct**

When travelling through remote areas of the Kimberley and Pilbara, you may need a permit to visit certain sites or travel through particular areas. *Please see pages 80-81 for more information.*

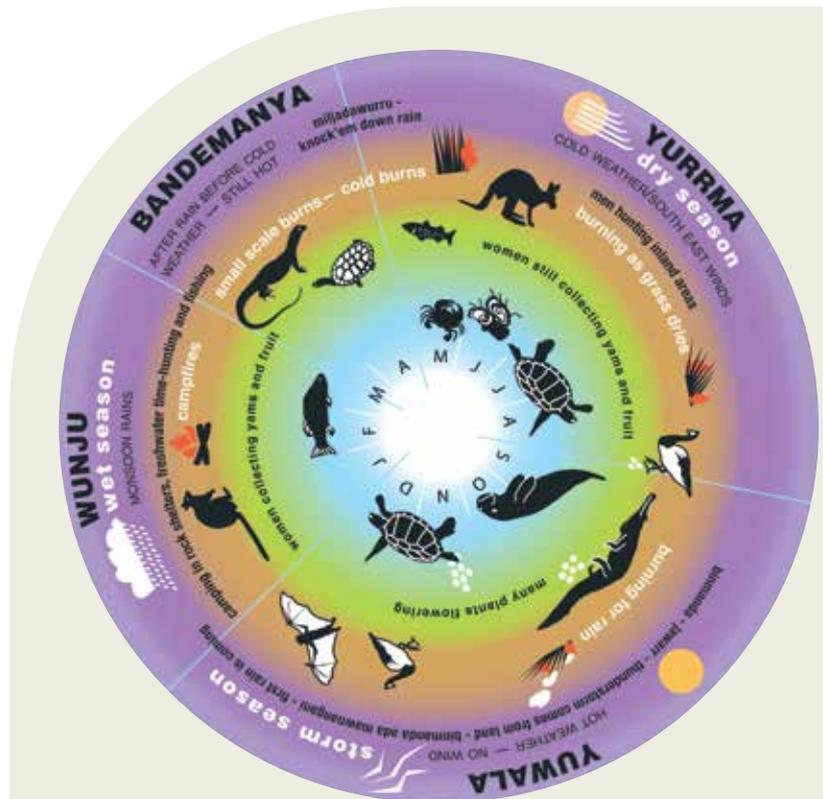

Help to preserve ancient sites by avoiding contact with the area, following any directions on signage or passes, and leaving the site clean and pristine – ensuring that WA's cultural treasures continue to be enjoyed by many future generations.

**Find Cultural Experiences**

The Wunambal Gaambera people of the northern Kimberley recognise four seasons in the annual cycle - Wunambal Gaambera Country; Wunju (wet season), Bandemanya (early dry season), Yurrma (cold season), and Yuwala (build-up). # WELCOME TO THE KIMBERLEY

Journey into the heart of the ancient Kimberley and be awestruck by a landscape of a scale and magnitude barely imagined. Experience natural wonders that defy belief from the domes of the Bungle Bungle Range to the rush of the Horizontal Falls, the craggy red ranges of the interior, the serpentine contours of the waterways that flow into great aquatic expanses, and the thunderous roar as volumes of water tumble over the tiers of coastal waterfalls.

## Your Itinerary

### KUNUNURRA TO BROOME

**THE 3700km Savannah Way** drive route stretches coast to coast across northern Australia, from Broome in WA to Cairns, Queensland, traversing through the Northern Territory along the way. It takes in five World Heritage areas across three states. From tropical rainforests in Queensland to the majestic gorges, waterfalls, ranges, and boab trees of the Kimberley, through to the sandy beaches and aqua waters of Broome.

This itinerary covers the Great Northern Highway from Kununurra to Broome. Allow at least 6 days. Ensure you check with Parks and Wildlife for any updates to accessing National Parks before you set out. See more at [exploreparks.dbca.wa.gov.au](http://exploreparks.dbca.wa.gov.au)

## CRUISE INTO A DREAM KIMBERLEY COAST

**THE** Kimberley Coast is one of the last true wilderness frontiers — a breathtaking sweep of red cliffs, dazzling white beaches, and turquoise seas alive with marine life. Stretching for more than 12,000 kilometres, this coastline is made for adventure: explore remote reefs and islands, dramatic gorges, and ancient rock art sites that few ever see.

Within the Lalang-gaddam Marine Park, one of the world's most important whale nurseries provides a safe haven for mothers and calves, alongside turtles, dolphins, tropical fish, and seabirds. Experience the wonders shaped by the Kimberley's enormous tides — from waterfalls that appear to flow sideways to the unforgettable spectacle of Montgomery Reef emerging from the sea.

### Coastal Lodges and Fishing

- Remote coastal lodges, accessible only by air, let you experience one of the world's last true wilderness areas while enjoying comfort and gourmet meals, with guided adventures including river and coastal cruises, hiking, and rock art tours.

- This stretch of coast is a haven for tropical sports fishing, with opportunities from remote lodges, on river and coastal cruises, or via dedicated fishing charters and adventures.

### Expedition Cruising

- Early in the cruising season, enjoy the region's remote waterfalls, replenished after the wet season. Classic Kimberley cruise itineraries take in all of the coastal icons, and late-season itineraries offer the

chance to focus on whale watching, fishing, snorkelling, or diving.

- There are almost as many expedition cruise styles as there are memorable experiences, from intimate locally owned and laid-back cruises, with tailored charter options available for groups of friends and family, to the ultimate in on-board luxury, expert excursion leaders, and helicopter trips.
- On certain cruises, experience an on-country welcome and cultural tours in remote locations along the coast, led by the area's Traditional Owners.

📍 Berkeley River Lodge

- Witness some of Australia's most ancient and dramatic scenery, from sheer cliffs and narrow canyons to hundreds of islands and waterfalls such as King Cascades, King George Falls, and Punamii-Uunpuu (Mitchell Falls).
- Snorkel and dive in world-class waters at the Rowley Shoals, and marvel at the effects of the Kimberley's enormous tropical tides at Montgomery Reef and the Horizontal Falls.

**Cruises** depart from Broome, Kununurra/ Wyndham, and Darwin. Itineraries can range from 4 to 14 days and are generally run from March to October each year.

 **Cruising**

**Stay** at remote lodges and fishing camps from March to October each year (generally), flying in from Broome and Kununurra. We recommend Berkeley River Lodge, Kimberley Coastal Camp, or Kuri Bay Sportfishing.

# KUNUNURRA & LAKE ARGYLE

**KUNUNURRA** is set amongst some of the Kimberley's most stunning landscapes, on the banks of one of the Kimberley's major waterways, the Ord River. Just 45 km from the Northern Territory border, it's the gateway to outback adventure and a hub for touring the region's outstanding natural attractions. There's also plenty to discover in and around the town.

- Visit during May for the Ord Valley Muster, a nine-day festival packed with music, food, markets and activities for all. Join the locals for a calendar of adventure events throughout the year, from swimming, running and cycling to fishing and dragon boating on the region's pristine waterways. During August and September, enjoy the fun at the Kununurra Races.
- Cruise the Ord River from Kununurra to the Lake Argyle Dam, where the vast lake begins, for a unique perspective on this remarkable waterway. Along the way, spot wildlife on the riverbanks and learn about the region's history and ecology. For a more leisurely pace, explore the river by canoe, pontoon or hire boat and soak up the tranquillity of the surrounding wilderness.
- Fishing, birdwatching and swimming are popular activities on the river and lake.
- Take in the spectacular views of the Ord Valley from Kelly's Knob Lookout, and explore the "mini-Bungles" at Mirima National Park.

Kununurra Waterways

Waringarri Aboriginal Arts

Mirima National Park

- Discover Kununurra's history and heritage. Learn about the rare pink diamonds once mined in the region – many local jewellers still sell them – visit Aboriginal and contemporary art galleries, the Kununurra Museum and the Zebra Rock Gallery.
- Enjoy gourmet dining and local produce. Try the BBQ dinner cruise on Lake Kununurra, savour delicious camp oven meals, or dine riverside at the Pumphouse Restaurant. Don't miss tasting fresh mango smoothies or award-winning rums on a tour of the Ord Valley irrigation area.
- Explore the surrounding landscape by 4WD or guided tour to waterfalls, waterholes, springs, and the famous Ivanhoe Crossing, a concrete causeway over the Ord River. Visit during the waterfall season (February to April) when the cascades are at their most spectacular.
- From Kununurra, take to the skies or explore by land on unforgettable tours to the Kimberley's great landmarks – Purnululu (the Bungle Bungle Range), Punamii Uunpuu (Mitchell Falls), Lake Argyle and El Questro.

- Take a day trip to Wyndham or start a self-drive or guided 4WD adventure along the Gibb River Road.

### Lake Argyle

Lake Argyle is one of the largest man-made lakes in the Southern Hemisphere. When full, it holds around 10.7 billion cubic metres of water – roughly 20 times the volume of Sydney Harbour. Home to more than 70 islands, it's a haven for wildlife and a paradise for water adventures.

- Enjoy swimming in the lake, launch your boat, or hire a boat, paddleboard, canoe, kayak or BBQ pontoon.
- Take a cruise on the lake, including daytime, sunset and birdwatching options.
- Explore bushwalking and mountain bike trails.
- Take to the skies with a helicopter tour for breathtaking aerial views.
- Visit the historic Argyle Homestead Museum to step back in time.
- Accommodation and camping is available at Lake Argyle, perfect for an overnight or multi-day stay.

### Getting there

Drive into Kununurra via the Victoria Highway from the east, or via the Great Northern Highway and Victoria Highway from the west. Fly from Broome or Darwin with Airnorth, or connect through Perth with Virgin Australia or Airnorth. Car, camper and camper trailer hire are available locally.

### Stay

Kununurra offers a wide range of accommodation, from resorts, hotels and motels, self-contained apartments and caravan parks, to homesteads and luxury wilderness retreats outside Kununurra.

# PURNULULU NATIONAL PARK, BUNGLE BUNGLE RANGE

## A WONDER OF THE WORLD

Echidna Chasm

**THE UNESCO** World Heritage listed Purnululu National Park is home to one of the most fascinating geological landmarks in the world, as well as being a place of exceptional beauty. The famous orange and black banded, beehive-shaped domes of the Bungle Bungle Range stand 300m above the spinifex-covered plain.

You can explore hidden gorges large enough to hold a full-scale concert and narrow chasms that run for kilometres, or spot some of the 130 bird species and over 600 plant species, some of which are unique to the park.

- Local Aboriginal people have maintained a strong connection to Purnululu, meaning 'sandstone', for thousands of years. The Gija and Jaru Aboriginal people are the custodians of Purnululu National Park.

- The striped domes of the Bungle Bungle Range are found in the southern end of the park as is Cathedral Gorge, and Echidna Chasm is found in the northern end.
- Walking trails of varying lengths help to guide visitors around the park.
- While in the park, join a guided tour to explore its wildlife, landscapes and hidden spots, gaining expert insights and a deeper understanding of this remarkable environment.
- Purnululu National Park is a highlight on many 4WD tours through the Kimberley region. Itineraries range in length from 2 to 15 days, and from camping to fully accommodated, so there's sure to be a tour or private charter to suit. Choose to depart from Broome or Kununurra.

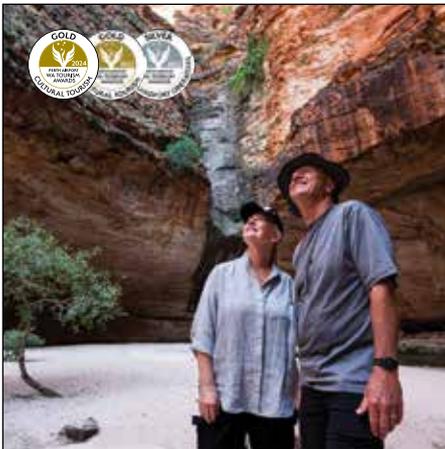

- Experience the Bungle Bungle domes from the air for a breathtaking sense of their scale and beauty. Flights depart from Kununurra, Broome, Halls Creek and the Warmun Roadhouse, or you can take a helicopter flight directly from within the park. You can choose to land at the park for a guided 4WD and walking tour, and to stay overnight.
- Purnululu National Park is generally open from April/May until late October (exact dates may change depending on weather and road conditions), and national park fees apply.
- Stop by the Visitor Centre to pay your fees and find out any more info you need to know.

**Drive** to Purnululu National Park via the Great Northern Highway from Halls Creek (109km), or Kununurra (250km). It's accessible by 4WD vehicles and single axle off-road trailers only, via 53km of rugged track from the highway turnoff.

**Accommodation:** Accommodation in and around Purnululu National Park caters to all travellers. Within the park, choose between national park campsites or wilderness lodges with safari tents and tented cabins offering bed-and-breakfast stays. A caravan park is located at the park entrance, and riverside bush camping is available 36km from the park entrance at Violet Valley.

# THE GIBB RIVER ROAD

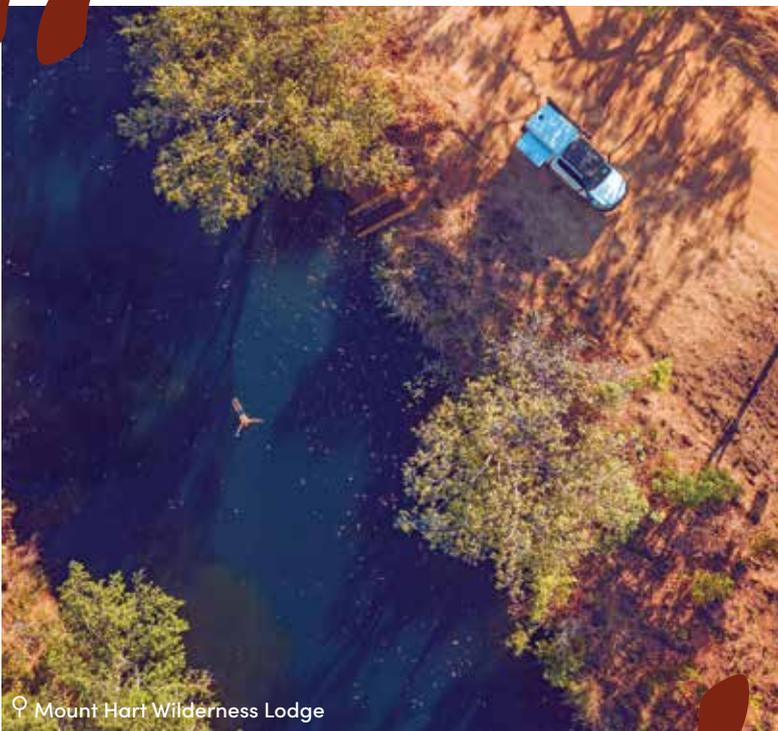

📍 El Questro Wilderness Park

**TURNING** off the bitumen and heading ‘over the range’ on the legendary Gibb River Road is one of Australia’s great outback adventures. Stretching 660 kilometres between Derby and Kununurra, this epic 4WD journey takes you deep into the Kimberley’s wild heartlands – a landscape of vast cattle stations, rugged ranges, and ancient gorges carved by timeless rivers.

Along the way, you’ll find river crossings, cascading waterfalls and countless swimming holes to cool off in. Some, like Galvans Gorge, are an easy stroll from the road, while others such as Dalmanyi (Bell Gorge) and Manning Gorge reward those who take the time to walk the bush tracks to their spectacular pools and falls.

Once a stock route connecting remote stations with the ports of Derby and Wyndham, the Gibb today offers travellers the chance to experience life on some of these vast properties. Stay overnight to explore rivers, waterholes and lookouts, or simply relax and enjoy a taste of Kimberley hospitality – from tea and scones on the lawn to hearty meals and cold drinks at the station bar.

📍 Mount Hart Wilderness Lodge

♀ Brolgas on the Gibb River Road

### Culture and Connection

The Gibb River Road crosses the traditional lands of many Kimberley peoples, and several Aboriginal communities now welcome visitors. Some operate campsites, roadhouses and galleries featuring local artists, while ancient Gwion (Bradshaw) and Wandjina rock art can be seen along walking tracks and at the Munurru site on the Mitchell Plateau. Always check access before visiting Aboriginal lands, as some communities remain closed to travellers.

### Adventure Your Way

Whether you're driving yourself or joining a guided 4WD tour, there's more than one way to experience the Gibb. Choose from small group or private charters, accommodated or camping itineraries. Creative travellers can join art, writing or photography workshops on remote stations, where the ever-changing light inspires every brushstroke and camera click. Birdwatchers can look out for brolgas, jabirus, Gouldian finches and purple-crowned fairy-wrens along the route.

From the Gibb, a side trip north along the Kalumburu Road leads to Punamii

Uunpuu (Mitchell Falls), a spectacular four-tiered waterfall surrounded by rainforest and ancient rock art.

Whether you're travelling for a few days or the full length of the Gibb, you'll find places to camp under the stars or stay in comfort at homesteads, safari tents and wilderness lodges.

At day's end, as the sun drops behind the ranges and the stars fill the Kimberley sky, you'll understand why the Gibb River Road is more than a drive – it's an unforgettable journey into the heart of the Kimberley.

Danggu is home to the Balga (freshwater barramundi), the rare Galwanyi (Leichhardt's sawfish) and Baya Gawiy (Coach Whip stingray). Danggu (Geikie Gorge) is a day use area only and is 2WD accessible. Please note that while works are ongoing following the flooding event of 2023, a walking trail is open for visitors to experience this impressive gorge. 📍 Bandilngan (Windjana Gorge)

**Bandilngan (Windjana Gorge) and Dimalurru (Tunnel Creek) National Parks**

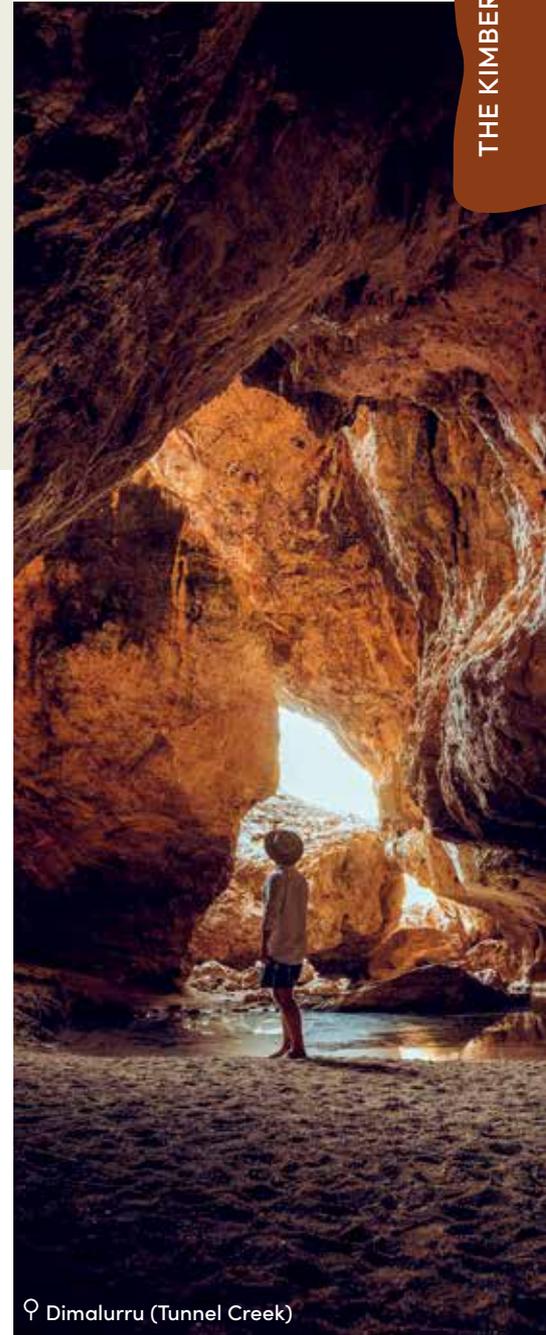

Bandilngan (Windjana Gorge) and Dimalurru (Tunnel Creek) form part of an ancient 375 million-year-old Devonian Reef system. The walls of Bandilngan are over 100m high, carved by the flowing of the Lennard River over millions of years. Walking trails allow you to explore the gorge and the flora and fauna of the surrounding area.

Dimalurru is WA's oldest cave system where the creek flows through a huge water-worn tunnel beneath the limestone of the Napier Range. Walk 750m through the tunnel, wading knee deep through several permanent

pools to see ancient stalactites and stalagmites and rock art. To explore this ancient wonderland, take a torch and wear shoes that can get wet.

Both areas have deep cultural significance for the local Bunuba people who have lived here since their earliest memory. The area is also significant as home to the legend of Jandamarra, a Bunuba warrior.

**Drive** to Bandilngan (Windjana Gorge) and Dimalurru (Tunnel Creek) via the unsealed Fairfield Road. 4WD is recommended, with seasonal road closures possible. **Camping** is permitted at the Bandilngan camp ground.

📍 Dimalurru (Tunnel Creek)

**There is more to Derby!**

Derby, a historic Kimberley town, is rich in culture, heritage, and nature. Founded in 1883, it boasts landmarks like the Wharfinger's House Museum, Old Derby Gaol, and the iconic Boab Prison Tree.

Art lovers can explore the Norval Gallery, Winun Ngari Arts Centre, and Mowanjum Art & Culture Centre, while nature enthusiasts can enjoy the Derby Jetty, Sculpture on the Marsh, and local wetlands.

## AN OASIS IN THE OUTBACK

**MILLSTREAM** Chichester National Park is nestled within the Chichester Range, blanketed in spinifex and snappy gums. Permanent pools fed by the natural underground reserve provide a lush retreat in the Millstream wetlands and Fortescue River pools.

- Once a pastoral station, the homestead built in 1919 is open to the public for viewing.
- From the homestead, take the new Jindawurrunha Jinbi Trail, a scenic walk alongside the park's freshwater pools that celebrates the deep connection of the Yindjibarndi people to this land.
- Deep Reach Pool (Nhanggangunha) in Millstream is sacred to the Yindjibarndi people and is an ideal place for peaceful reflection and tranquil swim or canoe.
- Python Pool rewards visitors with its amphitheatre-like cliffs and permanent freshwater plunge pool.
- Mount Herbert is a highpoint in the Chichester Range with expansive views towards Pyramid Hill; take the 600m return trail from the parking area to the summit.

- Snappy Gum Drive is a scenic route along a gravel road transecting the Millstream area of the park – from rocky ranges, snappy gum and cadjeput woodlands, to wetlands and river.

♀ Mackerel Islands

♀ Dampier Archipelago

## Dampier Archipelago

Take a tour or launch your own boat to explore the beautiful and untamed Dampier Archipelago, 42 islands, islets and rocks just off the coast of Dampier. The islands offer incredible marine-, wild- and bird-life spotting opportunities, and have been zoned to provide a balance between conservation and recreation.

- The Dampier Archipelago supports the largest hawksbill turtle rookery in the Indo-Pacific island region, and is also home to important nesting grounds for flatback, green and loggerhead turtles.
- From June to September, you'll also spot humpback whales on their annual migration, as well as bottlenose and Indo-Pacific humpback dolphins.
- More than 100 bird species have been spotted in the islands, including migratory waders on their journey from Northern Russia
- On some islands, you can see excellent examples of Aboriginal rock art and shell middens, as well as relics of occupation by whalers, pearlers and pastoral workers on Malus, Gidley and West Lewis Islands.
- Some areas are set aside for recreation, while others are sensitive seabird and turtle nesting areas. There are no facilities on the islands, so when planning your trip bring plenty of water, and be sun-safe.
- Enjoy time swimming and exploring the beaches, fishing, snorkelling and diving.

**Launch your boat** from the public boat ramp in Dampier.

**Camping** is permitted on selected islands up to 100m inland of the high-water mark, for up to 5 nights. For more information contact the Karratha Visitor Centre.

## Montebello Islands

Located off the Pilbara Coast 120km west of Dampier and 139km north of Onslow, the Montebello Islands Marine Park covers more than 58,000 hectares of ocean and over 250 low-lying limestone islands and islets.

- Visit the Montebello Islands by fishing charter from Karratha or join a small cruise operator for a guided experience of this pristine archipelago.
- The area is rich in natural marine diversity and human history, and fishers, snorkellers and divers are attracted to its coral reefs, colourful tropical fish, wildlife and maritime heritage.
- Atomic tests were carried out at the Montebellos in 1952 and 1956. Due to slightly elevated radiation levels on Trimouille and Alpha Islands, visitors should restrict their visits to one hour per day.

- Camping is allowed on Primrose, Bluebell, Crocus, Hermite & Renewal Islands (year-round) & Northwest Island (April-Sept); within 100m of high tide mark, up to 5 nights. No pets or open fires.

## Mackerel Islands

The Mackerel Islands are a collection of 10 pristine islands and atolls scattered off the mid-coast of Western Australia, 22km from Onslow on the mainland.

- Bring your own boat across from Onslow, or transfer via light aircraft from Exmouth.
- Accommodation is in beachfront cabins with 2, 3 and 5 bedroom options.
- Join a fishing charter, and enjoy beach fishing with fly, bait and sight casting options.
- Go snorkelling and diving, or simply explore the island and relax.
- Spot an incredible range of marine and birdlife, including whales, dolphins, dugongs, turtles, tropical fish and land and migratory birds.

## TRAVEL TIPS AND ROAD SAFETY

### Healthy Travelling

**Water & First Aid:** Always carry enough water and a comprehensive first aid kit.

**Medication:** Ensure you have enough prescribed medication for the duration of your trip and bring a prescription renewal from your doctor.

**Mosquito Protection:** Use insect repellent and cover your arms and legs with loose clothing, especially at dawn and dusk, to avoid mosquito-borne diseases like Ross River virus and encephalitis.

**Sun Protection:** Wear a hat, use sunscreen, and avoid prolonged sun exposure between 10am and 3pm to protect yourself from the strong West Australian sun.

### On the Road

**Vehicle Preparedness:** Ensure your vehicle is in top condition. Carry a first aid kit, tool kit, food, water, two spare tyres, and spare parts.

**Navigation:** Limited phone reception is common in parts of the North West. Plan your route and pack a hard copy of a map.

**4WD Access:** Some remote areas require a four-wheel drive vehicle;

📍 Over the Range Tyre and Mechanical Repairs, Gibb River Road

♀ Kimberley Coast

♀ Kimberley stargazing

towing caravans, trailers, or boats may not be advisable in some areas.

**Fuel Stops:** Plan refuelling stops ahead of time; some fuel stations may not be open 24/7.

**Road Trains:** Be cautious around road trains (some over 50m long). Only overtake when the road is clear for a long distance. It can take up to 2.5km to pass a road train at 100km/h.

**Dust:** Be aware of dust obscuring visibility, especially on unsealed roads.

**Road Closures:** During summer (Nov–Apr), both sealed and unsealed roads may be closed due to flooding. Check for road closures at [mainroads.wa.gov.au](http://mainroads.wa.gov.au)

**Wildlife & Stock:** Wildlife and wandering stock are common, especially at dawn and dusk. Avoid driving at night to reduce the risk of collisions.

**Itinerary:** Always inform someone about your travel plans, return dates, and itinerary.

**Pets:** Please note that pets are not permitted in national parks.

### On the Water

**Tidal Movements:** The North West has significant tidal movements. Always check local tidal charts to avoid being caught out. Tide charts are available at Visitor Centres and Service Stations.

**Be Crocwise:** Two types of crocodiles inhabit Kimberley waters: the dangerous saltwater crocodile and the less harmful freshwater crocodile. Always follow local warnings and never swim, wade, or use small boats in estuaries, tidal rivers, or deep pools. Do not leave food scraps by

the water's edge, and camp well back from the water.

**Jellyfish Safety:** From Nov–Mar, Box and Irukandji jellyfish are common along the Kimberley and Pilbara coasts. Wear a stinger suit and seek medical advice if stung. Rinse stings with vinegar.

### Bush Fires

**Fire Safety:** Due to Australia's dry conditions, bush fires can spread quickly. Never leave a campfire unattended, and follow all fire warnings to help protect the environment.

**Local Conditions:** Always check with tourism operators or Visitor Centres for up-to-date information on local fire conditions.

### Quarantine

**Declare Items:** Declare all fruit, vegetables, honey, plants, seeds, livestock, and soil at quarantine checkpoints at regional airports and on

the Victoria Highway near Kununurra. Strict quarantine laws are in place to protect Western Australia's ecosystem.

**Penalties:** Heavy penalties apply for failing to declare restricted items. For full details, visit [agric.wa.gov.au](http://agric.wa.gov.au)

### NATIONAL PARK FEES

Many of the North West's incredible natural attractions are located in the spectacular surroundings of our National Parks, including the ancient gorges and waterways of Karijini, the imposing striped domes of the Bungles and the incredible three-tiered Mitchell Falls.
