# Visitor Factsheet - Further Information

The data in this factsheet refers to visitors who have spent at least one night in Geraldton, Kalbarri & Surrounds.

## Important Note

---

All data is sourced from Tourism Research Australia's International Visitor Surveys (IVS) and Domestic Tourism Statistics (DoTS).

Estimates in the 2025 factsheet are not comparable with previous factsheets due to changes in methodology. For further information, see [Change to domestic statistics](#) or [IVS Methodology](#) on Tourism Research Australia's (TRA) website.

To increase the sample size and hence improve the reliability of the data, international estimates are based on an average of two calendar years. Domestic results are available only for 2025 as the first year of DoTS methodology. Data is not published where sample size is deemed to be insufficient.

It is recommended by Tourism WA that the visitation statistics in this factsheet are used in conjunction with other information sources that you have access to. This might include [domestic visitor density](#) from TRA, population statistics from the Australian Bureau of Statistics, feedback from local operators, information from local Visitor Centres, data from local councils etc.
