

Justine Conway, Vice President, Global Head of Business Development & External Innovation

Justine joined Elanco after a career in investment banking, most recently as a Director at Bank of America Merrill Lynch where she focused on the Animal Health industry and served as M&A and strategic advisor for a number of transactions and companies across the sector. Justine is originally from Australia where she studied Finance and Law at the University of New South Wales and began her banking career at Macquarie Group in Sydney. She brings to Elanco a wealth of transaction experience and animal health industry knowledge. Justine is passionate about finding creative solutions, partnering with innovative companies and growing the animal health start-up community and she looks forward to connecting with you.
