XPRIZE Feed the Next Billion is governed by these Competition Guidelines. The Competition Guidelines summarize the high-level requirements and rules of the competition.

XPRIZE may revise these Guidelines at any time during the course of the competition to provide additional information or to improve the quality of the competition. Unanticipated issues that arise may require modifications to these Guidelines. XPRIZE reserves the right to revise these Guidelines as it, in its sole discretion, deems necessary. All registered teams will be notified of revisions in a timely manner.

For further details concerning the operation of the competition, such as exact dates and locations of events, specific technical thresholds for performance testing, and operational information, please refer to the Rules and Regulations, Competitor Agreement, and other documents throughout the course of the competition.

The Rules and Regulations will be developed by XPRIZE in consultation with the competition’s Advisory Board and Judging Panel and will be provided to all registered teams in advance of the events they govern.

Please send any questions about this competition and/or feedback regarding the Competition Guidelines to FeedTheNextBillion@xprize.org.

NOTE: Bolded items are defined in Section 07: Glossary.

01. COMPETITION OVERVIEW

By 2050, Earth’s population is projected to grow to 9.7 billion¹. In tandem with population growth, global wealth is increasing and producing a more robust middle class². Demand for high-protein diets is increasing as nations move into wealth and the global middle-class expands³. Consequently, global meat consumption is expected to increase by 76 percent⁴. According to the Food and Agriculture Organization (FAO) of the United Nations (UN), poultry production increased 28 percent between the mid-1960s and today. Additionally, fish represents 17 percent of global animal protein consumption, and 26 percent in poor or developing countries.⁵

Conventional meat production trends and practices, especially within the chicken and seafood industries, have produced core problems that are forecast to intensify as the world strives to meet growing demand:

- Continued environmental degradation
- Food safety and malnutrition
- Inhumane treatment of animals and biodiversity loss

If conventional meat production and consumption trends continue, the resources consumed to satisfy this global demand have the potential to accelerate deforestation and biodiversity loss, strain global water supply, accelerate climate change, intensify inhumane treatment of animals, and worsen food safety and malnutrition issues.

While there is increasing activity in utilizing plant-based, cultivated or blended approaches to create meat alternatives such as burgers, chicken nuggets, and ground fish, more work is needed to produce structured, nutritious, affordable, and versatile alternative chicken and fish products that are capable of competing with conventional products on the market. Moreover, cultivated approaches face challenges with the high cost and extraction method of Growth Media.

XPRIZE Feed the Next Billion is a four-year, $15M competition that will incentivize teams to produce chicken breast or fish fillet Alternatives that replicate or outperform conventional chicken and fish in: access, environmental sustainability, animal welfare, nutrition and health, as well as taste and texture. For the purposes of this competition, alternatives are defined as

---

chicken or fish products that minimize harm to animals and the environment during their sourcing, production, and processing.

The winning team will develop multiple consistent cuts of raw chicken breast or fish fillet alternatives (115 gram / four ounce) that replicate the sensory properties, structure, versatility, and nutritional profile of conventional chicken or fish, while having a lower environmental footprint.

A bonus prize will be awarded to the team that develops an animal-origin-free growth media at the lowest production cost.

The alternatives developed as a result of this competition will provide a more environmentally sustainable path to meeting emerging markets’ demand for high-protein products, human health, and animal welfare.
O2. COMPETITION STRUCTURE

This competition is structured into three rounds over four years, as displayed in Table 1.

TEAM REGISTRATION

XPRIZE believes that Solutions can come from anyone, anywhere. Scientists, engineers, academics, entrepreneurs, and other innovators from all over the world are invited to form a team and register to compete. To participate, a team is required to first create an account in the Prize Operations Platform (POP). POP is an online platform through which teams will register for the competition, pay the required registration fee, and submit important documents throughout the competition. Teams are expected to maintain their POP profiles throughout the competition, ensuring their profile is up to date with the most recent team information.

Competing in an XPRIZE is an exciting journey that often requires a commitment of time, expertise, and resources. Registration fees are required as a simple qualifier to ensure competitors will be able to obtain the appropriate resources to fully compete in the prize. All fees collected are used to support XPRIZE competition teams. Early Registration opens on December 7, 2020 with a registration fee of $1,000 (USD). The Early Registration deadline is February 17, 2021.

The registration fee for teams who register between February 17, 2021 and the Team Registration deadline of April 28, 2021 is $1,500 (USD).

XPRIZE has sole discretion to register and qualify additional teams between the Team Registration Deadline and Semifinalist Verification (currently scheduled for Q2 2022). Teams that register during this period must meet all applicable registration and submission requirements and pay a late registration fee of $2,500 (USD). XPRIZE reserves the right to restrict team registrations during this limited opportunity and potential teams should contact XPRIZE directly for more details.

Interested Teams and individuals are encouraged to collaborate and share skills. A team may recruit additional experts and can add new members to their team at any time throughout the competition. Teams may also merge with other teams during the competition. Teams must notify XPRIZE of a merger before it takes place. Additional details regarding team mergers are provided in the Competitor Agreement.

Throughout the registration period, XPRIZE will host a series of webinars for all Registered Teams. XPRIZE webinars will allow teams to get to know each other and also to receive important competition updates. Participation in these webinars, while not mandatory, is strongly encouraged.
TECHNICAL SUBMISSION

Each team will be required to submit technical documentation detailing their approach and proposed technologies in the form of a **Technical Submission**. All teams must provide a complete Technical Submission on POP between March 17, 2021 and April 28, 2021 and the Judging Panel will review the Technical Submissions to determine which teams will move forward and compete in subsequent rounds of the competition. The Competitor Agreement must be signed and submitted to XPRIZE prior to Judge review of any Technical Submissions. The Technical Submission is also intended to inform XPRIZE and the Judging Panel about potential operational requirements or risks related to testing for this competition. XPRIZE encourages teams to begin designing their technologies at the earliest opportunity in preparation for the Technical Submission.

The Technical Submission will outline the team’s solution and demonstrate the team’s ability to achieve the competition Testing Requirements (Tables 2 & 3) and/or the Bonus Prize Testing Requirements (Table 4). The Technical Submission may request the following:

- A description of the proposed solution, focusing specifically on whether the team is pursuing development of a structured chicken breast or fish fillet alternative
- A description of company operations, business plan, description of team members and expertise
- The degree of technological or operational innovation with respect to advances on the prize evaluation criteria (detailed in Table 2)
- The team’s ability to meaningfully demonstrate capabilities in the timeline of the prize
- Whether the team intends to participate in the Bonus Prize Testing component of the competition
- Any challenges the team foresees in regard to implementing a demonstration including permitting, capital needs, etc.
- Environmental footprint projections, comparisons to conventional products, and projected environmental requirements for products produced for the Semifinal and Final Rounds of Testing (such as land, water, and energy usage)

The Technical Submission will be reviewed by the Judging Panel and up to 30 teams will be selected as **Semifinalist Teams** to continue forward in the competition. Semifinalist Teams will split a prize purse of $500,000 (USD) to help offset costs associated with early solution development and for upcoming travel to Semifinal Testing locations.
SEMIFINAL TESTING

Semifinalist Teams will have approximately 12 months (Q2 2021 to Q2 2022) to develop their solutions ahead of Semifinal Testing. Prior to participating in Semifinal Testing, teams will be required to submit materials to verify they are prepared to proceed in the competition. The Semifinalist Verification will likely entail both a written technical document and video demonstrations of the team’s progress towards developing a solution ahead of Semifinal Testing. XPRIZE may request routine updates from teams throughout the solution development period and the deadline to verify Semifinalist teams is currently scheduled for Q2 2022.

After Semifinalist Verification, Semifinalist Teams (up to 30) will physically demonstrate their solutions at Semifinal Testing where they will provide a cooked chicken or fish Cutlet which the Judging Panel will evaluate. The Semifinal Submission will likely include both a physical cooked cutlet, as well as a written technical document describing the team’s solution and it will demonstrate the team’s ability to achieve the competition’s Semifinalist Testing requirements. Example Testing requirements may be found in Table 2, however the Judging Panel will evaluate teams’ cooked cutlets focusing on several key criteria:

- Size - cutlets that are 57g (two oz)
- Limited preparation ingredients - salt, pepper, and fat
- Organoleptic (sensory) properties
- Nutritional profile - product must be nutritionally equivalent (90 percent accuracy) to conventional chicken or fish product
- Environmental footprint

Testing is planned to be conducted regionally and will be supervised in a controlled environment. Organoleptic properties are expected to be evaluated by way of a blind taste test and accompanying score card. The product’s nutritional profile will be evaluated using nutritional profile analysis or another test, as deemed appropriate by the Judging Panel.

Exact details and regional locations for the Semifinal Testing will be released in the Rules and Regulations in advance of testing. Following Semifinal Testing, the Judging Panel will select up to ten Finalist Teams to split a prize purse of $2,500,000 (USD) and proceed to Final Testing.
FINAL TESTING

Prior to participating in Final Testing, teams will be required to submit materials to verify they are prepared to proceed to the final round of the competition. The Finalist Verification will likely entail both a written technical document and video demonstration of the team’s solution.

Finalist Teams will have approximately 15 months (Q3 2022 to Q4 2023) to further develop their solutions and, for their Final Submission, will provide 25 raw full-size cuts of alternative chicken breast or fish fillet at standard serving sizes, which the Judging Panel will evaluate. This submission will likely include both physical, raw full-size cuts and a written technical document describing the team’s solution. The Judging Panel will review these submissions to select the Grand Prize Winners and the Bonus Prize Winner.

The Final Submission will demonstrate the team’s ability to achieve the competition Final Testing Requirements (Table 3). The raw product may be prepared by celebrity chefs using local recipes and served to a group of individuals and members of the Judging Panel as part of a blind taste test. Testing will be conducted live and may be televised or streamed for an audience. Judges will evaluate teams on several key criteria:

- Size - whole cuts that are 115g (four oz)
- Organoleptic properties
- Nutritional profile - product must be nutritionally equivalent (90 percent accuracy) to conventional chicken or fish product
- Environmental footprint
- Consistency - teams must produce 25 units of the 115g (four oz) product
- Versatility - chefs must be able to incorporate the raw product into multiple (3-5) recipes that are geographically diverse

The Grand Prize winning team will:

Create 25, raw, 115 gram (g) or four ounce (oz) structured chicken breast or fish fillet alternatives that replicate the sensory properties, structure, versatility, and nutritional profile of conventional chicken or fish, while having a lower environmental footprint.

As detailed in Section 4: Prizes, a Grand Prize Purse of $10,000,000 (USD) will be awarded to the teams whose solutions receive the highest scores following the final round of the competition.

Testing format, the order for teams to test, and further information regarding the locations for Final Testing will be provided in the Rules and Regulations and in advance of each round of testing.
BONUS PRIZE

Teams that choose to compete for the Bonus Prize must meet the Bonus Prize Testing Requirements outlined in Table 4. A Bonus Prize of $2,000,000 (USD) will be given to the team that consistently produces multiple units of animal-origin-free growth media at the lowest production cost. Judges will evaluate teams on several key criteria:

- Cost
- Animal-origin-free
- Incorporation into alternative products
- Lowest environmental footprint

Following Final Testing, the Judging Panel will convene to review team submissions, discuss the results, and determine the winners of the Grand Prize and the Bonus Prize. The winning teams will be announced at an Award Ceremony hosted by XPRIZE.
03. TESTING CRITERIA

In order to be eligible for any Prize Purse during the competition, teams must meet or exceed all Testing Criteria requirements established by XPRIZE and the Judging Panel. Examples of the minimum requirements currently under consideration for Testing Criteria for each round are summarized in Table 2, Table 3, and Table 4. Teams will be scored based on performance above minimum requirements as described in each table.

TABLE 2. Example Semifinalist Testing Requirements

capture subtleties of versatility during preparation)

going geographically relevant recipes to ensure product-market fit in more than one part of the world.

<table>
<thead>
<tr>
<th>CRITERIA</th>
<th>SCREENING</th>
<th>EVALUATION TYPE</th>
<th>NOTES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost</td>
<td>Teams will be incentivized to produce growth media at the lowest production cost per liter. The team with the lowest cost to produce will be ranked highest.</td>
<td>Ranking</td>
<td>Growth media used for stem cell cultures can be in the hundreds of dollars per liter. Unless this competition incentivizes cost reduction, there is limited motivation for existing life science companies to produce growth media for this nascent industry. This will also encourage greater availability of low-cost growth media, rather than create siloed, proprietary formulations within individual companies — the direction in which the industry is currently heading. Teams that lower the cost of growth media</td>
</tr>
<tr>
<td>Animal-origin-free</td>
<td>Teams that produce an animal-origin-free (refers to components not derived from animals) media may receive scores.</td>
<td>Scorecard</td>
<td>Animal-origin growth media drives cost, thus teams that innovate using an animal-origin-free growth media are accomplishing the “animal cruelty free” criteria as well as lowering cost for growth media. This criteria will be a Scorecard requirement at the discretion of the Judging Panel, as appropriate.</td>
</tr>
<tr>
<td>Incorporation into alternative products</td>
<td>To be eligible for the Bonus Prize, teams must be competing in the main competition and must use the animal-origin-free media to develop products produced.</td>
<td>Pass/Fail</td>
<td>N/A</td>
</tr>
<tr>
<td>Environmental Footprint</td>
<td>A Life Cycle Assessment will be commissioned. The team with the lowest environmental footprint requirements to produce the animal-origin-free growth media will receive better scores.</td>
<td>Ranking</td>
<td>N/A</td>
</tr>
</tbody>
</table>
Throughout the competition, except during testing, teams are welcome to continue to develop, iterate, and adapt their solutions.

Each team will be responsible for their own travel and for any costs associated with the transportation of their solution for testing. Teams may be required to attend rehearsal periods in addition to scheduled testing day(s).

XPRIZE will produce detailed testing criteria in later releases of the Rules and Regulations for this competition.
04. PRIZES

XPRIZE Feed the Next Billion will be awarded with a total Prize Purse of $15,000,000 (USD) and is divided as follows.

Semifinalist Prize
A prize purse in the amount of $500,000 (USD) will be shared equally between up to 30 Semifinalist Teams selected by the Judging Panel to advance to Semifinal Testing. These funds are intended to help offset costs associated with early solution development and for travel to Semifinal Testing locations.

Finalist Prize
A Finalist Prize purse in the amount of $2,500,000 (USD) will be shared equally between up to 10 Finalist Teams whose solutions are selected to advance to Final Testing.

Bonus Prize
A Bonus Prize of $2,000,000 (USD) will be awarded to acknowledge the breakthrough achievement of the team that develops an animal-origin-free growth media at the lowest production cost, with a maximum threshold of $5 per liter.

Grand Prize
After Final Testing, XPRIZE will host an awards ceremony to announce the Grand Prize winning teams. A Grand Prize totaling $10,000,000 (USD) will be awarded to the three teams whose solutions receive the highest scores following the final round of the competition.

- The First Place team will be awarded $7,000,000 (USD)
- The Second Place team will be awarded $2,000,000 (USD)
- The Third Place team will be awarded $1,000,000 (USD)
05. ROLES AND RESPONSIBILITIES

ADVISORY BOARD

A. **SELECTION OF ADVISORS.** XPRIZE will appoint a panel of topical experts and big-picture thought leaders to serve as the Advisory Board for the competition. The Advisory Board will remain in place throughout the competition to advise XPRIZE regarding the scientific and other elements of the competition.

B. **INDEPENDENT ADVISORY BOARD.** The Advisory Board will be independent of XPRIZE and all teams and team members. No Advisor, nor any member of the Advisor’s immediate family, shall participate, nor have any financial or other material interest, in XPRIZE, the Sponsor(s), and/or any team or team member. All members of the Advisory Board shall promptly disclose to XPRIZE any such current, former, or expected future conflict of interest with XPRIZE, the Title Sponsor, or any team or team member.

C. **ROLE OF ADVISORY BOARD.** The duties and responsibilities of the Advisory Board may include, but not be limited to: (i) assisting with the establishment of qualifications for prospective Judges; (ii) recommending members of the Judging Panel; (iii) assisting with development of testing protocols and judging criteria; (iv) and providing input toward the development of these Competition Guidelines.

JUDGING PANEL

A. **SELECTION OF JUDGES.** The Judging Panel (as defined in the Competitor Agreement) will be composed of highly qualified and impartial Judges with relevant subject matter and technical expertise.

B. **INDEPENDENT JUDGING PANEL.** The Judging Panel will be independent of XPRIZE, the Title Sponsor, any other prize sponsors, and all teams and team members. No Judge, nor any member of Judge’s immediate family, shall participate, nor have any financial or other material interest, in XPRIZE, the sponsor(s), and/or any team or team member. All members of the Judging Panel shall promptly disclose to XPRIZE any such current, former, or expected future conflict of interest with XPRIZE, the sponsor, and/or any team or team member.

C. **ROLE OF JUDGING PANEL.** The duties and responsibilities of the Judging Panel will include, but not be limited to: (i) evaluating teams’ compliance with the Competitor Agreement as they relate to prize operations, these Competition Guidelines, and the Rules and Regulations for the purposes of the competition; and (ii) the awarding of
points and selection of teams that will proceed to each subsequent round of the competition.

D. GROUNDS FOR JUDGING PANEL DECISIONS. Official decisions made by the Judging Panel will be approved by a majority of the Judges that vote on each such decision after careful consideration of the testing protocols, procedures, guidelines, rules, regulations, criteria, results, and scores set forth in the Competitor Agreement, these Competition Guidelines, Rules and Regulations, and all other applicable exhibits to the Competitor Agreement. If any vote of the Judges results in a tie, then the Judging Panel shall determine, in its sole and absolute discretion, the mechanism to settle the tie. Similarly, if one or more teams are tied at any stage during the competition, the Judging Panel shall have the sole and absolute discretion to settle the tie.

E. DECISIONS OF JUDGING PANEL ARE FINAL. The Judging Panel shall have sole and absolute discretion: (i) to allocate duties among the Judges; (ii) to determine the degree of accuracy and error rate that is acceptable to the Judging Panel for all competition calculations, measurements, and results, where not specified in the Rules and Regulations; (iii) to determine the methodology used by the Judging Panel to render its decisions; (iv) to declare the winners of the competition; and (v) to award the prize purses and other awards. Decisions of the Judging Panel shall be binding on XPRIZE, teams, and each team member. XPRIZE and teams agree not to dispute any decision or ruling of the Judging Panel, including decisions regarding the degree of accuracy or error rate of any competition calculations, measurements, and results. Teams shall have no right to observe other teams’ testing or evaluation, or to be informed of other teams’ calculations, measurements, and results, unless such information is made publicly available by XPRIZE.
06. ENVIRONMENT AND SAFETY

Safety is a top priority for all XPRIZE competitions. Solutions must minimize environmental harm and ensure safety of participants, blind testers, and surrounding communities. Teams must comply with the following requirements:

- Compliance with all existing environmental, health, and safety regulations.
- Compliance with food health and safety standards during product testing at different stages of the competition.
- Ensure transparency about product ingredients to minimize risks related to food allergies and intolerances.
- As mandated by the Competitor Agreement, teams will acquire and hold all necessary licenses and insurance to demonstrate safety compliance and liability coverage required for participation in this competition.

Additional details regarding Environment and Safety for teams’ solution development and testing will be provided in the Rules and Regulations for this competition. XPRIZE reserves the right to adjust the Competition Guidelines or Rules and Regulations based on the latest scientific and legal information available at the time to ensure personal and environmental safety. XPRIZE will make all final determinations on safe and acceptable practices for competition operations.
07. GLOSSARY

**Advisory Board:** A select group of prominent advisors who contribute their wisdom, knowledge and guidance to various aspects of the prize.

**Alternative:** For the purposes of this competition, alternatives are defined as chicken or fish products that minimize harm to animals and the environment during their sourcing, production, and processing.

**Competition Guidelines:** Document for the public and for teams that describes the requirements and parameters of the competition.

**Competitor Agreement:** A legal and binding document that details the responsibilities of competitors for the prize.

**Cutlet:** For the purposes of this competition, cutlets are defined as small portions of fish fillet or chicken breast that are 57g (two oz) in size.

**Final Testing:** The last phase of testing events for the prize that will determine the Grand Prize and Bonus Prize winning teams.

**Final Submission:** Likely to include both physical cooked cutlets (25) and a written technical document of the team’s solution, the Final Submission will be evaluated by the Judging Panel during Final Testing to select the Grand Prize Winners and the Bonus Prize Winner.

**Finalist Verification:** This is a mandatory update to ensure teams are prepared to proceed to Final Testing. This will most likely consist of written and filmed components provided by teams to XPRIZE.

**Judging Panel:** The subject matter and technical experts who serve as an impartial and independent evaluation team for all aspects of this prize. Judges score the team submissions and make the final award determinations in both Semifinal Testing and the Final Testing.

**Growth Media:** Growth media or culture media (most commonly Fetal Bovine Serum or FBS) is a solid, liquid or semi-solid designed to support the growth of a population of microorganisms or cells via the process of cell proliferation.

**Prize Operations Platform (POP):** The standard internal XPRIZE portal for teams to input data, documents, and other information for use in this Competition.

**Prize Purse:** This refers to money offered, won, or received as a prize. It also refers to the overall amount of funds allocated to all prizes in this competition.

**Technical Submission:** The Judging Panel will review Technical Submissions to verify each team’s ability to participate in Semifinal testing. This is a form in POP that must be completed by all Registered Teams. It consists of a series of questions to be answered that outline the expertise, capabilities and plans for the functional solution that each team will be creating.
may also include an Executive Summary of up to two pages of text, and any supporting images, diagrams, or charts.

**Rules and Regulations:** Document detailing the testing protocols, specific rules, dates/times, and other details that will govern the competition and will be binding on teams.

**Semifinal Submission:** Likely to include both a physical cooked cutlet as well as a written technical document describing the team’s solution, the Semifinal Submission will demonstrate the team’s ability to achieve the competition’s Semifinalist Testing requirements.

**Semifinal Testing:** The set of testing events for the prize that will help determine which teams progress to Final Testing.

**Semifinalist Verification:** This is a team-provided update to ensure teams are prepared to proceed to Semifinal Testing and consists of written and filmed components which will be reviewed by the Judging Panel.

**Solution:** This refers to a team’s specific submission (including all technical documentation and physical prototypes) that the Judging Panel will evaluate for this competition.

**Team Definitions:**

- **Interested Team(s):** A team or individual that is interested in participating in the competition and has created a profile in the XPRIZE POP system.

- **Registered Team(s):** A team that has paid the required registration fee, signed the Competitor Agreement, and is eligible to submit a Technical Submission for the Judging Panel’s review.

- **Semifinalist Team(s) (up to 30 teams):** A team that has been selected by the Judging Panel to proceed in the competition based on the strength of their Technical Submission and who has passed the Semifinalist Verification prior to testing.

- **Finalist Team(s) (up to 10 teams):** A team that has successfully completed Semifinal Testing and is approved by the Judging Panel to attend Finals Testing. Finalist Teams must also pass the Finalist Verification prior to testing.
