

BAPTIST Babies!

2023 PROGRAM
& REGISTRATION
INFORMATION

At Baptist Health Care, you'll find our team feels childbirth care is a special calling. Baptist Women's Center offers you choices to tailor your experience from early pregnancy to your baby's birth. Our experienced team of nurses and educators are specially trained to make your birthing experience **truly one of a kind**. Baptist strives to provide a one to one nurse to patient ratio with active labor patients. Our nurses will be by your side to give you the clinical and emotional support you need during your birthing experience.

REGISTRATION PROCESS

To register for the following programs, monthly series or a-la-carte classes, please register on-line at EasySchedule.com. **We encourage you to sign up for classes early in your pregnancy to ensure availability. A payment invoice will be mailed after completion of the registration process.**

TAILORED EXPERIENCE BEFORE AND AFTER BABY'S ARRIVAL

As a mom-to-be, you want to have a customized labor, delivery and postpartum experience that is right for you. The Baptist Women's Center team is committed to creating a tailored birthing experience that aligns with your needs and wishes. We do this by pairing your indicated birth preferences with the latest safety standards to create an environment that helps you relax and enjoy the journey of childbirth. Discuss the birth preference list with your physician and then bring the completed birth preference list form when you arrive at Labor and Delivery. Mobile devices and other comforts of home are permitted. Free Wi-Fi is conveniently provided through Baptist Hospital.

Your friends and family may attend your birth if you choose. For the best birth experience, however, it's best to limit visitors to those who understand how to support you during labor. The arrival of your baby is an amazing event! Each birth is attended by a registered nurse who will examine your baby at your bedside. If your newborn is doing well, you will have unlimited time to become acquainted with your baby, skin-to-skin is highly encouraged.

Baptist Women's Center has tailored services available for after the arrival of your baby. We offer breastfeeding services from a specialized registered nurse (R.N.) who is an International Board Certified Lactation Consultant. Our team is here to help make feeding your baby a fulfilling and positive experience.

Baptist Hospital promotes the benefits of breastfeeding for both mother and baby. We have your family's best interest in mind. Regardless of whether a baby is fed by breast or bottle, Baptist provides an environment that is supportive to your preferences. We offer various prenatal classes to help educate mother and baby on a healthy start. Thank you for choosing Baptist Health Care to serve you during this special time.
