Physician Billing Codes

Clinicians use Current Procedural Terminology (CPT)¹ codes to bill for procedures and services. Each CPT code is assigned unique Relative Value Units (RVUs), which are used to determine payment by the Centers for Medicare & Medicaid Services (CMS) and other payers. Some commonly billed CPT codes used to describe procedures related to Edwards Lifesciences' Heart Valve technologies are listed below.² This list may not be comprehensive or complete. These procedures may be subject to the CMS multiple procedure reduction rule. When applicable, a payment reduction of 50% is applied to all payment amounts except the procedure with the greatest RVUs, which is paid at 100% unless exempt by CPT instructions or payer policy. CPT payments have not been adjusted for sequestration.

Inpatient Hospital Billing DRGs

Medicare reimburses inpatient hospital services under the Inpatient Prospective Payment System (IPPS), which bases payment on Medicare Severity-Diagnosis Related Groups (MS-DRGs). All services and supplies provided during the inpatient admission are bundled into a single MS-DRG payment rate for each patient regardless of the length of stay, intensity of treatments, or number of procedures performed. MS-DRG assignment is usually determined based on the patient's primary diagnosis or procedure performed, as indicated by the ICD-10-PCS codes on the billing form. DRG payments have not been adjusted for sequestration.

MS-DRG ³	Description	FY2026 Medicare National Average Payment
212	Concomitant Aortic and Mitral Valve Procedures	\$79,128
216	Cardiac valve procedures and other major cardiothoracic procedures with cardiac catheterization with MCC	\$71,187
217	Cardiac valve procedures and other major cardiothoracic procedures with cardiac catheterization with CC	\$47,847
218	Cardiac valve procedures and other major cardiothoracic procedures with cardiac catheterization without MCC or CC	\$47,847
219	Cardiac valve procedures and other major cardiothoracic procedures without cardiac catheterization with MCC	\$55,873
220	Cardiac valve procedures and other major cardiothoracic procedures without cardiac catheterization with CC	\$38,806
221	Cardiac valve procedures and other major cardiothoracic procedures without cardiac catheterization without MCC or CC	\$36,676
