

Technical Bulletin

Designed in collaboration with and validated by clinicians, the EV1000 clinical platform offers you scalability and adaptability for both the OR and ICU.

The EV1000 clinical platform enables you to choose the parameters needed to monitor your patients and may be used with a variety of Edwards Lifesciences advanced hemodynamic monitoring solutions.

EV1000 ClearSight Clinical Platform Technical Bulletin - 001

This technical bulletin summarizes the preventative maintenance needed for the EV1000 clinical platform NI (Model number: EVPMP and PC2K), outlined in the operator's manual.

Preventative maintenance:

- Preventative maintenance service is recommended every two years
- Testing includes a visual inspection, software inspection, safety testing and functional testing
- Units are required to be serviced at authorized Edwards service center
- Preventative maintenance is available as a one-time service event or through a Total Protection Service contract

If your system is ready for preventative maintenance or to determine if maintenance is necessary, please contact your Edwards Sales representative or call Edwards Technical Support: 1-800-822-9837

For more than 50 years, Edwards Lifesciences has been helping you make proactive clinical decisions and advance the care of surgical and acutely ill patients across the continuum of care. We are committed to evolving our solutions to expand the benefits of advanced hemodynamic monitoring to more patients, with a goal of improving care for 20 million patients per year by 2025.

CAUTION: Federal (United States) law restricts this device to sale by or on the order of a physician. See instructions for use for full prescribing information, including indications, contraindications, warnings, precautions, and adverse events.
