

PATIENT RELATED TYPING

BENEFIT

- **Pre- and confirmatory typings on demand and available within 2-5 business days**
 - **experienced and knowledgeable in finding the best matched donors**
-

FEATURES

The DKMS Life Science Lab clinical team performs all patient, family, and unrelated donor typings on demand. The connected search unit carries out donor searches for individual patients both among relatives and unrelated potential donors.

FUNCTIONS

Clinical profile:

- high resolution HLA typing with NGS, Sanger or SSP-PCR
- pre-typing and confirmatory typing
- results available within 2-5 days
- antibody screening and specification (CDC and Luminex)*
- crossmatch testing (CDC) *
- Additional typings *

*upon request

Search for stem cell donors:

Our ASHI/EFI accredited lab and ZKRD accredited search unit conduct patient, family, and unrelated donor searches. Thanks to our close partnership with the ZKRD, many years of experience, and access to a global network, our search unit can find reliable donors quickly.
