

# PATIENT FOLLOW-UP

## BENEFIT

It is important that we provide quality services to our donors after donation. If available, we offer information about the health and condition of patients post transplant. We hope that this helps donors to view their donation experience as positive and increases their willingness to donate again. Information published or shared on social media about donors and patients also promotes awareness of stem cell donation and motivates many to join the registry. In addition, engraftment data provided by Transplant Centers helps Collection Centers ensure high quality products.

---

## FEATURES

DKMS Germany, Poland, and UK inquire about the patient's health 3 months post transplant. DKMS provides this information to the donors if they are interested.

Engraftment data (ANC >500/ $\mu$ l, WBC >1000 & Platelets >20/ $\mu$ l) is also requested.

---

## FUNCTIONS

Please complete our request form and follow up questionnaire and return to the corresponding address:

Germany:

Email: [donor2patient@dkms.de](mailto:donor2patient@dkms.de)

Fax : 0049 7071-943-1399

Poland:

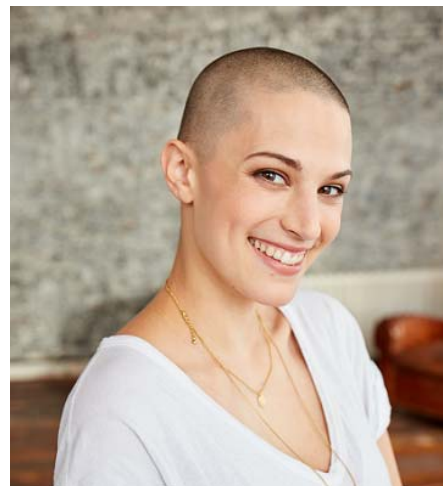

Email: [popobranie@dkms.pl](mailto:popobranie@dkms.pl)

Fax : 0048 22-882-96-82

UK:

Email: [followup@dkms.org.uk](mailto:followup@dkms.org.uk)

Fax: 0044 2087475667

A reminder will be sent after 6 weeks if the completed questionnaire has not been received.
