

## LPDL CCT SELECT

### LOW PROFILE DOWNLIGHT

#### 5 color temperature selection

LPDL (Low Profile Downlight) gives you all the flexibility you need during installation, especially in confined area or when facing constraints such as wood beams, ceiling joist or air ducts. The driver is mounted separately from the light source which allows the luminaire profile to be less than 1" thick! It is the perfect all in one solution with integrated 5 color temperature selection.
