# MX FUEL™ EQUIPMENT SYSTEM

We are committed to protecting our user's investments by providing high performing, trade-focused solutions that are fully compatible with MX FUEL™ REDLITHIUM™ Batteries.

ALL MX FUEL™ BATTERIES FIT  
ALL MX FUEL™ EQUIPMENT

### Users & Applications

#### Gen. Const.

- Early Phase Const.
- Night Concrete Pours
- Remote Applications
- Interior Concrete Finish Lighting

#### Power Utility

- Downed Power Poles
- Flagger Operations
- Power Outages
- Troubleshooting Area Lighting

#### M.E.P.

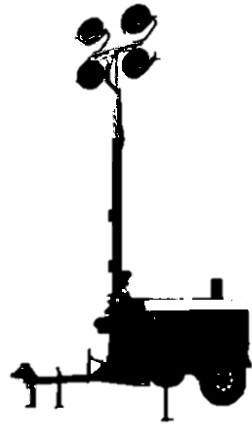

- Early Const. Lighting
- Electrical Shutdowns
- Overnight Rooftop Chiller Replacements
- Emergency Municipality Work

#### Civil & GC

- Early Phase Const
- Temporary Lighting
- Supplemental Roadway Task Lighting

Gas Powered Lighting

AC Powered Lighting

### USER FRUSTRATIONS

**LARGE SIZE OF TOW BEHIND LIGHTING EQUIPMENT**  
Difficult to transport to and around jobsites

**REOCCURRING RENTAL COST**  
Monthly expense to cost of job

**FUEL MANAGEMENT**  
Cords, Side Handles & Brushes

### USER FRUSTRATIONS

**LACK OF DURABILITY**  
Old lighting technology not designed for long-term use

**AC POWER USED IN WET ENVIRONMENTS**  
Forced to make electrical connections in wet construction environments

**EXTENSION CORD MANAGEMENT**  
Cord gets cut and split on site forcing repairs and replacement

**HIGH POWER CONSUMPTION**  
Significant drain on temporary power

**USE ANYWHERE**

## RUGGED 8" WHEELS

For improved mobility across all jobsite terrain

## OUTRIGGERS

Allow for use in uneven terrain where other lights can't be used

## MOTORIZED LIGHT MAST

Reduced setup time by eliminating manual process

## INTEGRATED MX FUEL™ CHARGER

Charges ALL MX FUEL™ packs when powered by extension cord

## MX FUEL™ Advantage:

- 8" Wheels Designed for Jobsite Terrain
- Capable of being hoisted with crane
- Integrated MX Fuel Charger
- Designed for Use Indoors and Outdoors

## PERFORMANCE DATA

	HIGH	MED	LOW
AC Powered Lumens	27,000	14,000	7,000
MX FUEL™ Lumens	20,000	10,000	5,000
MX FUEL™ Runtime	3 hrs	6 hrs	12 hrs

\*Specifications subject to change prior to launch.

## FOUR ADJUSTABLE LIGHT HEADS

Capable of providing task or area lighting

## MX FUEL™ Advantage:

- Brightest Cordless Light in Industry
- Four Adjustable Light Heads for Task or Area Lighting
- Ability to Optimize Runtime and Lumens Through ONE-KEY™

**27,000  
LUMENS OF  
TASK OR AREA  
LIGHTING**

# MX FUEL™ TOWER LIGHT CHARGER

Outdoor Use

**MOST  
PORTABLE**  
10' LIGHT  
INSIDE / OUTSIDE

**27,000  
LUMENS OF  
TASK OR AREA  
LIGHTING**

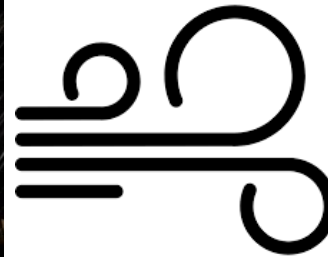

**WITHSTANDS  
THE  
STORM**

**WITHSTANDS  
THE  
STORM**

**RATED FOR  
OUTDOOR USE**

**WITHSTANDS  
UP TO 35MPH WINDS  
WHEN USING  
OUTRIGGERS**

## **MX FUEL™ Advantage:**

- Designed to be used in outdoor jobsite environments.
- Protected from UV exposure, water, and dust
- Maintains same wind rating as many Gas Powered units.

# MX FUEL™ TOWER LIGHT CHARGER

ONE-KEY™

## THE SMARTEST APPROACH TO EQUIPMENT MANAGEMENT

### TRACK

**Greater Visibility  
with Community  
Tracking &  
Alerts**

### MANAGE

**Complete  
Inventory  
Management via  
App or Desktop**

### SECURE

**Industry Leading  
Smart-Equipment  
Technology**

### CUSTOMIZE

**Customize Light  
Settings based on  
application**

- Program automatic scheduling when operated on AC power
- Optimize brightness & runtime
- Set light remotely from 100ft

**\$240**

**\$2,600**

### ISSUES & FRUSTRATIONS

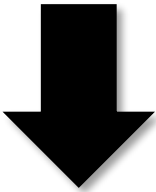

- Forced to use AC powered product in wet environments
- Difficult to place lights in uneven terrain
- Need for multiple lights
- Cord damage very common in this application

**\$4,800+ Setup**

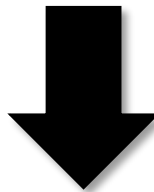

## Complete Replacement

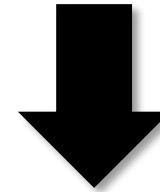

HALOGEN

WOBBLE

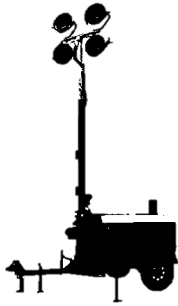

METAL HALIDE

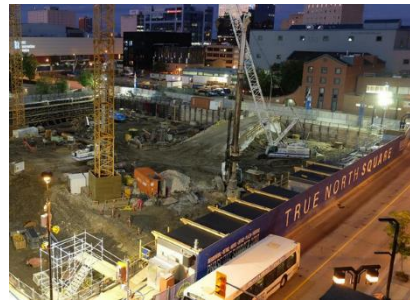

### APPLICATIONS

GAS POWERED

Road Construction

Jobsite Perimeter  
Lighting

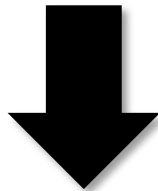

Early Phase Const  
Task Lighting

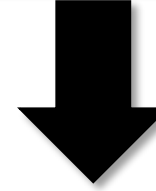

Power Utility Down Power  
Pole/Trouble Shooting

### Supplemental

- Due to size of application Gas Tower Lights are primary option.
- As construction evolves dark spaced are created, and gas units are difficult to move. MX FUEL is the supplemental solution in these applications due to performance and portability.

### Replacement

- Limited options available in the market force users to use large/cumbersome gas powered tower lights.
- The performance and portability of the MX FUEL™ Tower Light provide a replacement option for these applications.

# MX FUEL™ TOWER LIGHT CHARGER

## EQUIPMENT WALK-AROUND

### Carry Handles

For one-person transportation and certified hoist points to move with crane

### Four Adjustable Light Heads

Capable of Task or Area Lighting

### Outrigger Deployment Button

Individually deploy each outrigger

### Outrigger Retraction Button

Individually retract each outrigger

### User Interface

1. Arming button to engage power to product
2. Turn on light and change light Intensity
3. Battery Capacity and Charging Indicators
4. Mast Deployment Switch

### Encased and Lockable Battery Bay

Battery Protected from environmental conditions and lockable to PREVENT theft

### Integrated MX Fuel™ Charging

Charges MX Fuel™ packs when being powered with Extension Cord

### Mast Deployment Switch

At the push of a button, extend to 10'

### Protected AC Port

Conceals AC port from Water/Dust when using Extension Cord

### 8" All-Terrain Wheels

Designed to move light across construction surfaces

### Hand Holds for 2-Person Carry

Assist in loading or transporting up stairs

## FREQUENTLY ASKED QUESTIONS

- **Is the MX FUEL Tower Light Charger Intrinsically Safe?**
  - No, the MX FUEL Tower Light/Charger does not meet the standards to be used in hazardous environments.
  
- **How fast do packs charge on the MX FUEL Tower Light Charger?**
  - The MX FUEL Tower Light Charger will charge at the same rate as the MX FUEL™ Charger.
    - MX FUEL™ CP203 Battery – 45 min
    - MX FUEL™ XC406 Battery – 90 min
  
- **Does the MX FUEL™ CP Battery work on the MX Tower Light Charger?**
  - Yes, the compact battery works on the Tower Light. The user will get the same performance of the XC Pack, but will get half the runtime.
  
- **Is the light capable of being daisy-chained together?**
  - No, only an AC input is integrated into the product.
