Qualification overview

Who is the qualification designed for?

Anyone involved in managing workplace health and safety risks including those who undertake risk assessments.

The content will be particularly useful to employers, managers, supervisors, SHE champions and union and health and safety representatives.

Benefits for learners

The NEBOSH HSE Award in Managing Risk and Risk Assessment at Work is an introductory-level qualification. It is structured around the health and safety regulator for Great Britain, the Health and Safety Executive's approach to controlling the risks caused by workplace hazards.

On completion of the course, you will:

- Understand the reasons for managing health and safety risks, the need for competence of those involved and the importance of consultation with relevant workers
- Understand how to effectively manage risk, which will involve identification and understanding of risk potential and its control
- Understand how to evaluate risks in a proportionate and sensible manner
- Understand where to find sources of information to help identify and manage risk, and the application of the HSE risk assessment tools.

Benefits for employers

The NEBOSH HSE Award in Managing Risk and Risk Assessment at Work will help you to:

- Have confidence as your team will be trained in HSE's current approach to health and safety risk management
- Ensure your organisation has valuable in-house risk management expertise
- Upskill your teams so they can carry out risk assessments in the right way and to the right standard
- Create a safe and healthy work environment.

Individual learner feedback

For more information on the assessment feedback provided for this qualification, please visit the NEBOSH website: https://www.nebosh.org.uk/faqs/how-can-i-gain-feedback-on-my-performance-to-assist-with-future/.

Notional learning hours

It is expected that this qualification will be delivered over the equivalent of one day (depending on the mode of study).
