

Are you eligible for a microgeneration plan?

Start here

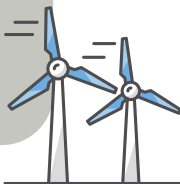

Have you notified **ESB Networks** of your microgeneration using the **NC6 form**?

Do you have a **24-hour meter (MCC01)** or a **day/night meter (MCC02)**** installed?

Not yet! To be eligible for microgen payments, you'll need to update your maximum export capacity (MEC)* with ESB Networks by submitting an NC6 form.

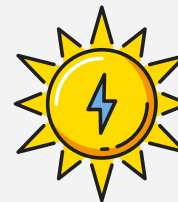

You're eligible for a **smart meter** installation; do you have one installed?

eligible!

You're eligible for **metered microgen payments.**

MCC01

MCC02

Is your meter **MCC01** or **MCC02**?

Since you have an **MCC02**, you may qualify for a payment; **when was your microgenerator installed?**

before 9.11.23

after 9.11.23

eligible!

Until your smart meter is installed, you'll be **eligible for a deemed payment.**

eligible!

If you don't have a 24 hour or a Day/Night meter, **you'll be eligible for a deemed payment*****, an estimation sent to us by ESB Networks when metered export data is not available.

You'll need to have a smart meter installed to receive your payments.
