- (j) The Customer will also allow us a right of entry to the Premises for all reasonable purposes at all reasonable times and at any time in the case of an emergency.

The parties acknowledge and agree that the Early Exit Fee is a genuine pre-estimate of the loss that the Supplier would suffer if the Agreement was terminated in the circumstances outlined in this Condition.
 

The **Early Exit Fee** is calculated depending on the Customer's aggregated consumption:

  - (i) if the Customer's aggregated annual consumption is less than 8 GWh per annum\*, the Early Exit Fee will be calculated by taking the customer's Actual Usage Factor (AUF) (if the AUF is not available, the Estimated Usage Factor (EUF) will be used in substitution of the AUF) divided by 12 and then multiplied by the number of months or parts of a month between the date you terminated the Agreement and/or registered with a new Supplier and the remaining period up to the Commitment Period End Date (up to a maximum of 4 months) multiplied by 10 cents/kWh. This amount will be calculated by us and billed to you.
  - (ii) if the Customer's aggregated annual consumption **is equal to or greater than 8 GWh per annum\***, the Customer shall be liable to the Supplier for the following, howsoever arising under or in connection with such termination:
    - all losses, costs and expenses incurred by the Supplier whether arising directly or indirectly including but not limited to any losses incurred as a result of any hedging or market to market activity undertaken by the Supplier; and
    - without prejudice to the generality of the foregoing:
  - (iii) any loss of profits;

- i. any loss of opportunity; and
- ii. any losses whether direct or indirect and whether or not arising naturally in the ordinary course from such termination or being in the reasonable contemplation of the parties at the date of the Agreement as a probable result of termination.

\*The Customer's aggregated consumption will be calculated across all of the premises supplied by the Supplier. In circumstances where the Supplier holds less than 12 months consumption data for the Customer's Premises, the Supplier shall calculate the Early Exit Fee based on the average monthly AUF/EUF multiplied by 12.

- (d) Subject to Condition 12(c), you may change from a Variable Price Plan to a Fixed Energy Price Plan or Fully Fixed Price Plan at any time and no Early Exit Fee will apply.
- (e) On termination of this Agreement, the Supplier may choose not to procure the de-energising of the Premises if satisfactory arrangements are in place to transfer liability to a person who is acceptable to the Supplier.
- (f) The Supplier may procure the de-energising of the supply of electricity and/or terminate this Agreement without notice, in the following circumstances:
  - (i) if the Customer becomes bankrupt, insolvent, makes any voluntary arrangement with any of its creditors, if a receiver or an administrative receiver is appointed over any part of the Customer's business or property, or the Customer goes into liquidation or an examiner is appointed to the Customer;
  - (ii) if the continuation of the supply of electricity to the Premises is no longer economically viable;
  - (iii) if the Customer has not paid any monies due by it under this Agreement for 14 days or more following the expiry of the due date for payment;
  - (iv) if the Customer is in material breach of these Conditions for one month or more, having received notice of such breach from the Supplier and having failed to remedy same;
  - (v) if the Supplier considers, or ESB Networks informs the Supplier, that there is any risk of fire or explosion or injury to persons or property as a result of any defects or suspected defects in the supply main, meter installation or the electrical appliances or as a result of the supply of electricity to the Premises generally; or
  - (vi) if the Supplier no longer has an electricity supply licence to supply the Premises.
- (g) If requested by the Customer at any time, or if necessary for legal, technical or operational reasons, the Supplier may procure the disconnection of the supply of electricity to the Premises.
- (h) Where the supply of electricity is de-energised due to the Customer's default, the Customer will pay the Supplier all expenses incurred by it and also the cost of re-energisation, if any.
- (i) The termination of this Agreement, howsoever arising will not affect the rights and duties of either party accrued prior to termination.
- (j) Further information in relation to our policy and procedures for causing premises to be disconnected from the electricity network is set out in our Code of Practice on Bill Payment which may be obtained by contacting us in accordance with Condition 17.
