

Helping Ireland move to a low carbon future

At Bord Gáis Energy we're focused on helping our customers make better energy choices, helping the environment and supporting the Government's green agenda.

How will we do this?

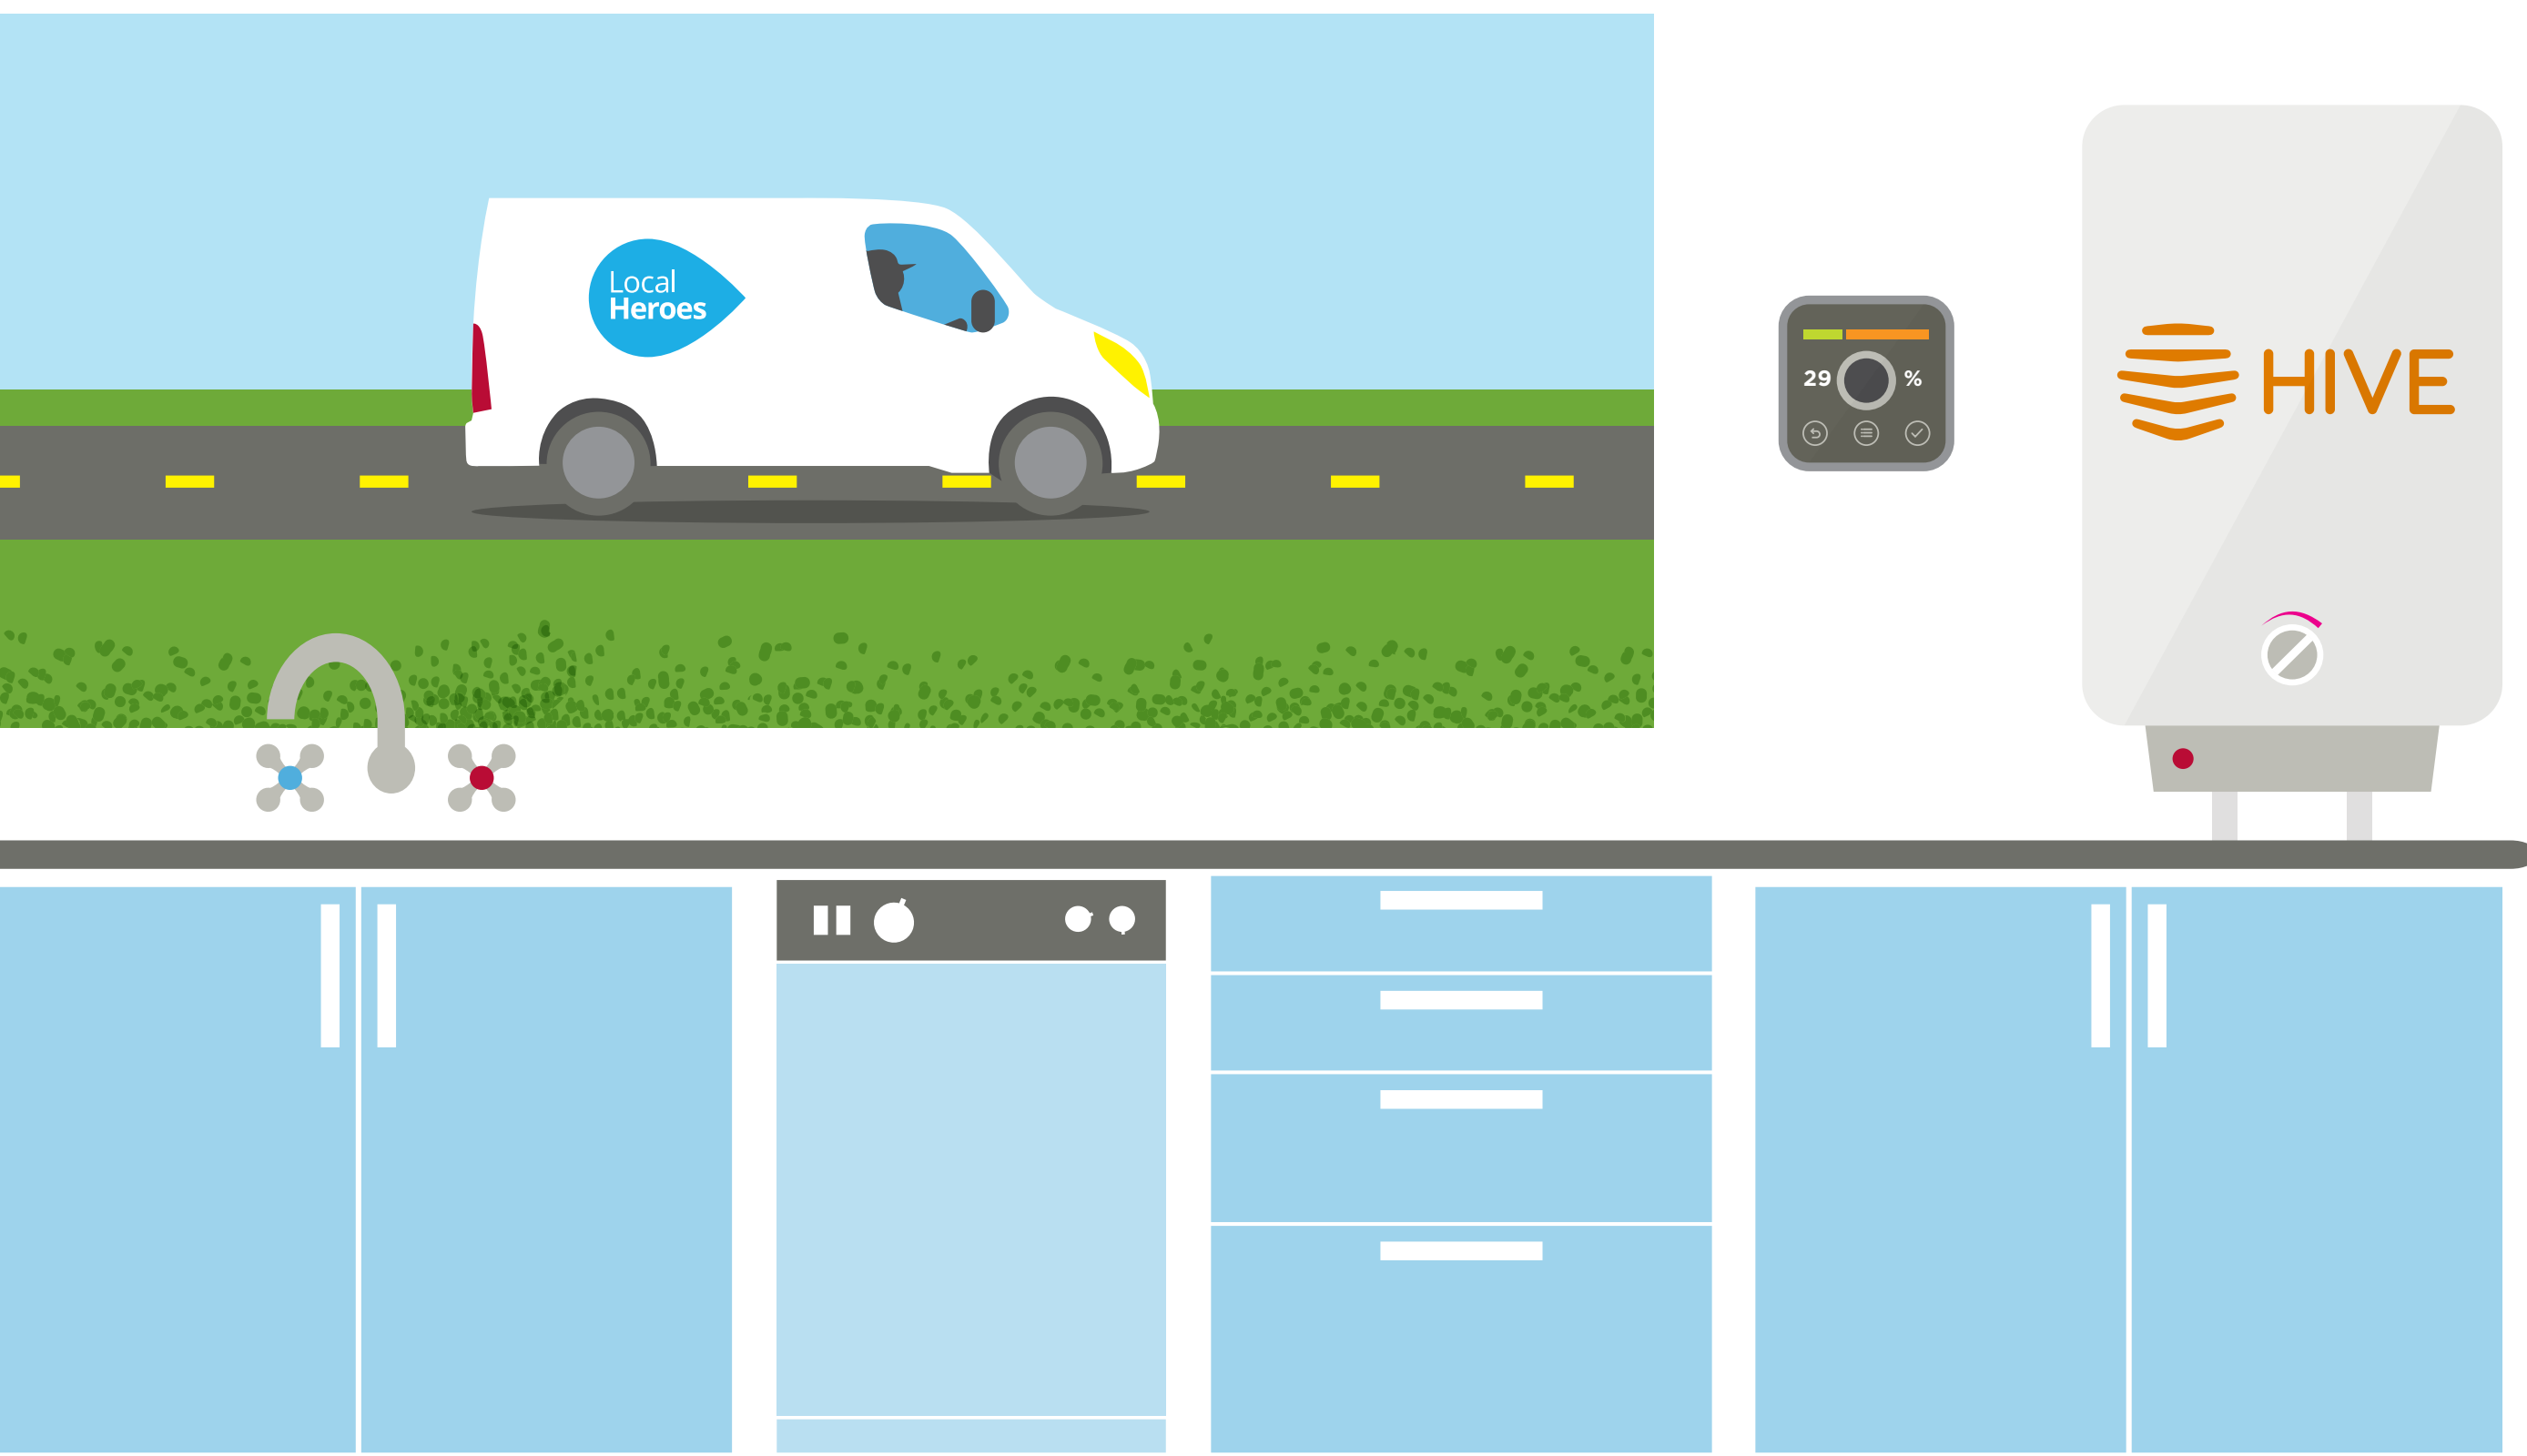

- 1

By helping our **customers** reduce emissions
- 2

By reducing the emissions of the **energy system** as a whole
- 3

By reducing **our own** emissions

We've joined forces with leading car manufacturers to help install EV chargers nationwide

Energy efficiency for homeowners

- **Boiler** service and installation
- **Smart homes** via Hive Active Heating
- An innovative **green energy tariff**
- **BER** certification through Local Heroes
- House **retrofit** services

For business

- **Centrica Business Solutions** an unrivalled suite of end-to-end energy management solutions including Combined Heat and Power (CHP) that help keep businesses in control of their energy
- **Demand Side Management** an innovative energy management model that helps businesses control their energy supply

Closer to home

Our Dublin office is a Certified Green building and we're committed to reducing our internal carbon footprint by **35%** by 2025.

We will train and up-skill our engineers in **heat pump** and **EV charger** repair.

It helps if it's Bord Gáis Energy
