3.1 STAGE ONE: SELECTION OF FINALISTS

PRODUCTION AWARDS

Finalists are determined by a diverse cohort from the wider screen industry (non-members) who select their preferences in each category of the Production Awards. Selection is an overall mark based on concept (is the story unique/coherent/engaging); execution (how well has it been implemented in its medium); creativity; and overall excellence. These preferences are then quantified based on the number of votes per nominated title to make up the finalist titles for each category.

3.2 STAGE TWO: SELECTION OF WINNERS

PRODUCTION AWARDS

- Winners are determined by the Screen Producers Australia full producer level membership who select their preferences from the finalist pool in each category of the Production Awards.
- Each current financial membership is entitled to one single vote in each category.
- Only the Primary Contact of the Member business as recorded by SPA may vote in the Awards.
- Voting members are encouraged to view the submission materials made available.

- Selection is based on concept (is the story unique/coherent/engaging); execution (how well has it been implemented in its medium); creativity; and overall excellence.
- The production receiving the highest number of votes in its category is declared the Award recipient. In the event of a tie, a single winner may be selected by Screen Producers Australia’s Council representatives.

BUSINESS AND INDIVIDUAL CONTRIBUTION AWARDS

- Members of Screen Producers Australia’s Council judge nominations independently and determine Award recipients of the Business and Individual Contribution Award.
