

MI Downing UK Micro-Cap Growth Fund

July
2018

About the Fund

MI Downing UK Micro-Cap Growth Fund ("the Fund") aims to invest in a concentrated portfolio of between 25-30 UK companies within the Numis Smaller Companies Indices - typically those with market capitalisations between £20 million and £150 million.

The Fund seeks to generate capital growth, whilst retaining a strong focus on capital preservation. The Fund aims to outperform returns from other UK small-cap equity funds by selecting investments that the Manager believes are undervalued by the market.

Why Downing Micro-Cap?

- ▶ Experienced and qualified team headed by Judith MacKenzie.
- ▶ Private equity approach to micro-cap companies, drawing on Downing's private equity and venture capital heritage.
- ▶ Investment Committee oversight provides access to 100+ years of investment experience.
- ▶ Value strategy with rigorous bottom up approach.
- ▶ Exhaustive diligence process that can take up to 18 months.
- ▶ Concentrated portfolio of typically 25 to 30 investments which we believe provides diversification.
- ▶ Access to strategic investments.
- ▶ Only invests in profitable businesses with strong management teams and a sustainable competitive advantage.

Market commentary

In the month, the Fund was down 1.55%, underperforming the benchmark which was down by 0.35%. Positive contributors to performance included Pennant plc (up 10.19%), and Tracsis plc (up 5.36%). Detractors included Redhall plc (down 12.68%), and Gama Aviation plc (down 7.90%).

Pennant shares climbed following the announcement that the re-scoping of a contract with a major UK prime contractor for electro-mechanical trainers and courseware had been completed, and its value increased by £3.5 million to £12 million. The company also received a statement of intent from another major customer to supply training aids in the Middle East, with the opportunity anticipated to be worth approximately £10 million. Tracsis has had no new news to report for this period.

Redhall reported that for the six months ended March, pre-tax loss deepened and revenue dropped from the year before. However, management reported that its order book and pipeline provide confidence in the group's future as a leading player in its core nuclear defence, decommissioning and new build markets. Redhall remains focussed on winning work in these sectors, and in other key infrastructure markets, with the objective of returning the company to meaningful levels of profitability.

Gama's recent performance has been affected by challenging trading conditions in Europe. However, there have been some very encouraging contract wins which support our view on the strength and visibility of the model over the longer term.

Cumulative performance under Downing management

Risk warning: your capital is at risk. Investments & the income derived from them can fall as well as rise and investors may not get back the full amount invested. Investments in smaller companies will normally involve greater risk or volatility than investments in larger, more established companies. Performance figures above are taken from daily valuations provided by Maitland Institutional Services. Downing is responsible for Fund performance from 4 February 2011, the effective date of the investment mandate. Return is the total return (value of the investments plus cash including income after all expenses and charges), ignoring taxation. Please note that past performance is not a guide to future performance.
