Subject to Shareholder approval at the AGM scheduled to take place on 15 September 2020, the Company will pay a dividend of 2.0p per Share, totalling £3.1 million, on 18 September 2020.

Other than as noted above, there has been no significant change in the financial position or financial performance of the Company since the end of the last financial period for which financial information has been published to the date of this Prospectus (being the audited financial information to 31 March 2020).

What are the key risks that are specific to the Issuer?

- There can be no assurances that the Company will meet its objectives, identify suitable investment opportunities or be able to diversify its portfolio. The past performance of Downing and other funds managed or advised by Downing is no guide to future performance and the value of an investment. The Shares may fall as well as rise and an investor may not receive back the full amount invested.
- There can be no guarantee that the Company will retain its status as a VCT, the loss of which could lead to adverse tax consequences for investors, including a requirement to repay the 30% income tax relief.
- The tax rules, or their interpretation, in relation to an investment in the Company and/or the rates of tax may change during the life of the Company and may apply retrospectively which could affect tax reliefs obtained by Shareholders and the VCT status of the Company.
- Investments made by the Company will be in companies which have a higher risk profile than larger “blue chip” companies and whose securities are not readily marketable and therefore may be difficult to realise.
- Although the Company may receive customary venture capital rights in connection with its investments, as a minority investor it may not be in a position to protect its interests fully.

SECTION 3: KEY INFORMATION ON THE SECURITIES

What are the main features of the securities?

The securities being offered pursuant to the Offer are Ordinary Shares of 1 penny each (ISIN: GB00BFRSVQ41). The Offer Shares will be created pursuant to resolutions to be proposed at the annual general meeting of the Company held on 15 September 2020.

The Offer Shares will rank equally in all respects with each other and with the existing Ordinary Shares. Shareholders will be entitled to receive certificates in respect of their Offer Shares and will also be eligible for electronic settlement.

The Offer Shares will be listed on the premium segment of the Official List and, as a result, will be freely transferable.

Where will the securities be traded?

Applications will be made to the FCA for the Ordinary Shares offered for subscription pursuant to the Prospectus to be admitted to the premium segment of the Official List of the FCA. Application will also be made to the London Stock Exchange for the Offer Shares to be admitted to trading on its main market for listed securities. It is expected that Admission will become effective and that trading in the Offer Shares will commence three business days following allotment.

Is there a guarantee attached to the securities?

There is no guarantee attached to the Offer Shares.

What are the key risks that are specific to the securities?

- If a qualifying investor disposes of his or her shares within five years of issue, he or she will be subject to clawback by HMRC of any income tax reliefs originally claimed.
- Although the Company's existing Ordinary Shares have been (and it is anticipated that the Offer Shares will be) admitted to the Official List of the FCA and to trading on the London Stock exchange's market for listed securities, there may not be a liquid market and investors may find it difficult to realise their investments or do so at a price which fully reflects the net asset value per share of the Company.

SECTION 4: KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC

Under which conditions and timetable can I invest in this security?

The Offer opens on the date of the Prospectus and will close on 30 April 2021 (or earlier at the discretion of the directors or if full subscription is reached or later if extended). Investors must be over 18 years old.

Application has been made to the FCA for the Offer Shares to be admitted to the Official List of the FCA. Application will also be made to the London Stock Exchange for such Offer Shares to be admitted to trading on its market for listed securities. It is expected that Admission will become effective and that trading in the Offer Shares will commence three Business Days following allotment.

The number of Shares to be issued to each Applicant will be calculated based on the following Pricing Formula (rounded down to the nearest whole Share):

$$\text{Number of Offer Shares} = \left[\begin{array}{l} \text{Amount subscribed, less:} \\ \text{(i) initial Promoter's Fee and} \\ \text{(ii) Initial Adviser Charge (if any)} \end{array} \right] \div \left[\begin{array}{l} \text{Latest published} \\ \text{NAV} \\ \text{per Offer Share} \end{array} \right]$$

The estimated expenses of the Offer will be 4.5% of the funds raised (assuming investment solely by investors who are not advised). If the Offer is fully subscribed (ignoring the over-allotment facility) the net proceeds of the Offer would be approximately £14.3million.

An existing holder of Ordinary Shares who does not subscribe for Offer Shares pursuant to the Offer would experience no dilution in terms of NAV per share (as the assets of the Company will be increase by the proceeds of the Offer and the upfront costs of the Offer are borne by subscribers) but will experience dilution in terms of voting. The Company will pay an annual fee of 0.25% of the net asset value of the New Shares (“Trail Fee”) to the Promoter who will be responsible for paying trail commission to eligible intermediaries. This is not borne by subscribers through the application of the above Pricing Formula. All others incidental costs of the Offer will be borne by the Promoter from its fee.

The Offer is not underwritten.

Why is this prospectus being produced?

The Offer is being made, and its proceeds will be used, to raise additional funds raised under the Offer to be invested in accordance with the Company’s investment policy. The Company is a generalist VCT. It is intended that the funds raised under the Offer will, no later than three years following the end of the accounting period in which those shares are issued, be invested as to at least 80% in VCT qualifying companies with 30% of such funds so invested within the first 12 months. It is intended that the remainder of such funds raised will be held in cash or other permitted non-qualifying investments.

Risk Factors

The Company's business, financial condition or results could be materially and adversely affected by any of the risks described below. The market price of the Offer Shares may decline as a result of any of these risks and Investors may lose all or part of their investment. Additional risks and uncertainties not presently known to the Directors, or that the Directors currently deem immaterial, may also have an adverse effect on the Company. The Directors consider the following to be all the material risks for potential Investors in the Company:

Risks relating to the Company

- In order to comply with VCT legislation, the Qualifying Companies, in which the Company holds over 80% of its funds, are generally small companies that have a higher risk profile than larger companies and may not produce the hoped for returns. Accordingly, Investors could get back less than the amount they invested. Most of the Company's investments are in companies whose securities are not publicly traded or freely marketable and may, therefore, be difficult to realise.
- Changes to the VCT Rules in respect of investments made on or after 15 March 2018 have meant that VCTs may only invest in companies which pass a "risk to capital" gateway test requiring the investee company to have long term growth and development objectives and for the investment to carry a significant risk that invested capital will be lost over and above the net return to the Company irrespective of whether the return takes the form of income, capital growth, fees, other payments or anything else. This new test inherently increases the risk profile of companies in which the Company can now invest in, many of which are earlier stage, and stands in contrast to those in which the Company has historically invested, many of which may not have passed this gateway test due to their ownership of significant assets or their enjoyment of secured income streams.
- The value of Offer Shares is dependent on the performance of the Company's underlying investments. The value of the investments may go down as well as up and the dividend stream cannot be guaranteed. In particular, the Board's objective of paying an annual dividend equal to at least 4% of the Company's Net Assets may not be achieved and any dividend payments will reduce the Net Assets attributable to the Offer Shares.
- The coronavirus pandemic has had a substantial impact on many businesses and is expected to have a significant and long-lasting impact on the UK and global economies. The impact that this has on existing portfolio companies and those in which the company may invest in the medium and long term, is difficult to predict. Existing and future portfolio companies may lose value or fail as a result of the ongoing effects or aftermath of the pandemic, resulting in a reduction in the value of Investors' shares.
- Although it is intended that the Company will be managed so as to continue qualifying as a VCT, there is no guarantee that such status will be maintained. Failure to do so could result in adverse tax consequences for Investors, including being required to repay the 30% VCT income tax relief.
- The levels and bases of reliefs from taxation may change and changes could apply retrospectively. The tax reliefs referred to in this document are those currently available and their value depends on the individual circumstances of Investors. The Company's objectives have been set on the basis that all Investors obtain 30% VCT income tax relief on their subscriptions. Therefore, this investment may not be suitable for Investors who do not qualify for the full 30% VCT income tax relief.
- As is to be expected from a diverse portfolio, some investments are not performing to plan and it may ultimately be difficult to realise full, or any, value from such investments. All investments are however valued at regular intervals. The valuation of AIM-quoted investments may be influenced by the general performance of the AIM market, in addition to the performance of the underlying companies.
- The Company's ability to obtain maximum value from its investments (for example, through their sale) may be limited by the requirements of the relevant VCT legislation in order to maintain the VCT status of the Company (such as the obligation to have at least 80% by value of its investments in Qualifying Investments).
- The past performance of the Investment Adviser or other funds managed or advised by Downing, is not necessarily an indication of the future performance of the Company. The return received by Shareholders will be dependent on the performance of the underlying investments of the Company.

- The Finance (No.2) Act 2015 introduced changes to the VCT Rules which have placed greater restrictions on the range of investments into which the Company can deploy funds. As a result, the Company is required to invest in businesses which are less than seven years old (less than 10 years for 'knowledge intensive' companies) and VCT funds cannot be used to finance acquisitions by investee companies. The penalty for breaching these new rules is the loss of VCT status, so the Company and its investors may face a higher risk of the loss of tax benefits than under the previous rules. Qualifying investee companies are also now subject to a lifetime risk finance investment limit of £12 million (£20 million for 'knowledge intensive' companies), which may restrict the Company's ability to make follow on investments. Further recent changes to the VCT Rules have prohibited the making of secured loans by VCTs. Future loan capital held by the Company will therefore be unsecured and will rank behind secured creditors of the investee company in question. As loan capital investments by a VCT are separately restricted by the requirement that at least 70% of any new investments must be in eligible shares, and Investee Companies which meet the above noted "risk to capital" test tend not to be able to provide significant assets against which to secure loans in any case, the Board do not consider that this restriction further materially increases the risk profile of new investments made by the Company.
- Some of the Company's existing portfolio of investments, to which Investors will receive exposure, is mature in nature and consequently may have a less rapid growth profile than successful earlier stage investments.
- At the date of this document, there is uncertainty over the form of the UK's final trade and regulatory position relative to the European Union ("EU") following the decision by the UK to leave the EU. The future regulatory environment is as a result subject to uncertainty as the Company is impacted by European-led legislation while the UK remains a part of the EU. In the short term and until the conditions of the UK's withdrawal from the EU has been agreed, the Company will continue to be subject to European-led legislation, as enacted into UK legislation.

Risks relating to the Offer Shares

- Although the Offer Shares will be Listed, it is highly unlikely that a liquid market in the Offer Shares will develop as the initial VCT income tax relief is only available to those subscribing for new Shares and there may never be two competitive market makers. It may, therefore, prove difficult for Shareholders to sell their Offer Shares. In addition, there is no guarantee that the market price of the Offer Shares will fully reflect their underlying Net Asset Value or the ability to buy and sell at that price and there can be no guarantee that the Company will continue with its buyback policy in order to support the market price and provide such liquidity. It should also be noted that shares held in VCTs usually trade at a discount to the VCT's net asset value.
- Shareholders should be aware that the sale of Offer Shares within five years of their subscription will require the repayment of some or all of the 30% income tax relief obtained upon investment. Accordingly, an investment in the Company is not suitable as a short or medium term investment.
- Shareholders should note that if they have sold, or if they sell, any shares in the Company within six months either side of the subscription for the Offer Shares, then for the purposes of calculating tax relief on the Offer Shares the subscribed amount must be reduced by the amount received from the sale.
- The Finance Act 2014 amended the VCT rules, such that VCT status will be withdrawn if, in respect of shares issued on or after 6 April 2014, a dividend is paid (or other forms of distribution or payments are made to investors) from the capital received by the VCT from that issue within three years of the end of the accounting period in which shares were issued to investors. This may reduce the amount of distributable reserves available to the Company to fund dividends and share buybacks.

Downing ONE VCT plc
St. Magnus House, 3 Lower Thames Street
London EC3R 6HD

11 September 2020

Dear Investor

Downing ONE was created by a merger of six VCTs managed by Downing LLP in November 2013. The Company currently has net assets of approximately £90 million. The most recent unaudited net asset value per share (“NAV”) was 59.1p as at 30 June 2020.

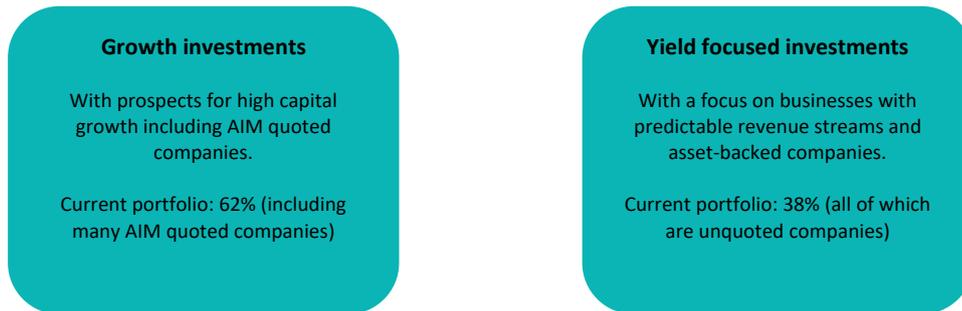

The Company has suffered some setbacks recently, resulting in a period of disappointing performance and a fall in NAV of approximately 21% over the year to 31 March 2020 (after adding back dividends). Some of the setbacks have been because of investee companies’ exposure to the effects of the coronavirus pandemic where the Board believes there are some prospects for recovery. The Board also believes it is too early to expect to see positive results from the newer investments in the growth portfolio, where typically the weaker businesses tend to struggle before the stronger businesses start to prove their worth. For these reasons, the Board believes that the Company has the potential to offer attractive returns especially with the tax reliefs available on new VCT investments.

In line with VCT regulations, the Company’s portfolio is increasingly focused on early stage companies, many of which will typically undertake further fundraising rounds as part of a planned approach to funding the growth and development of these businesses. The Board has decided to launch a new offer for subscription (“Offer”) both to provide new funds to allow the Company to take advantage of new investment opportunities and also provide further capital to existing portfolio companies in further fundraising rounds where there is a strong investment case.

The key points of the Offer (under current legislation) are set out below:

- **30% income tax relief:** will be available on the value of the Offer Shares subscribed for by qualifying investors, providing they are held for at least five years and the investor does not sell any shares in the Company six months either side of the issue of the new Shares. Capital gains on VCT shares are tax-free.
- **Tax-free dividends:** The Company’s target minimum dividend equates to a tax-free yield of 5.7% p.a. on the current Offer Price net of 30% income tax relief. Dividends paid by the Company in respect of the last three years have exceeded the target dividend level. It should be noted that there is no guarantee of dividend levels.
- **Dividend Reinvestment Scheme:** dividends can be paid directly to investors’ bank accounts or can be automatically reinvested into the Company through the purchase of additional shares. By reinvesting dividends, investors are able to accelerate the capital growth of their investment and receive an additional 30% income tax relief on their reinvestment amount (provided that amount has been paid in tax), on total VCT investments of up to £200,000 per tax year.
- **Running costs capped:** the Company’s annual running costs are capped by the Investment Adviser at 2.6% of net assets per annum. This is one of the lowest running costs caps in place in the VCT market.
- **Diversified portfolio:** the Company currently holds investments in approximately 90 businesses which are in various stages of maturity and across a broad range of sectors. Investors will acquire immediate exposure to these holdings, which should diversify risk and provide the potential for earlier realisations than some newly launched VCTs or share pools.
- **Experienced Investment Adviser:** Downing is an experienced VCT manager whose business dates back to 1986. It is responsible for the management of four VCTs with aggregate net assets of more than £150 million and approximately £1 billion of assets under management across its entire operations.

- **Investment strategy:** The Company's portfolio contains a mixture of growth investments and older, yield focused investments (some backed by tangible assets). The current portfolio can be summarised as follows:

Currently investors benefit from the Company holding a significant number of investments in the yield focussed category that can no longer be made as new investments by VCTs. Over time the proportion of investments is expected to shift towards higher risk/reward growth investments.

New funds will be invested under the current VCT rules and will focus on younger growth companies. Although there is less opportunity for quoted investments and some restrictions to follow-on investments in existing portfolio companies that was the case under earlier VCT rules, the Board considers that focusing on growth investments for new investments activity has the potential to deliver attractive returns to Investors over the medium and long term.

- **Share buyback policy:** the Company's policy is to buy back its own Shares in the market at a **discount of 5%** to its latest published Net Asset Value, subject to liquidity, market conditions and applicable rules and regulations, so investors may be able to realise their shareholding if required.

If you wish to invest, please read this Prospectus and complete the Application Form. If Investors have any questions regarding this investment, they should contact their financial intermediary. These reduced offer costs will be met by Downing through an equivalent reduction in its Promoter's Fee.

The Investment Opportunity

Downing ONE was created by the merger of six VCTs managed by Downing in November 2013 and now has net assets of approximately £90 million and an existing portfolio of approximately 90 investments. The Company has a Board comprising three Directors who between them have substantial number of years' experience in the VCT, private equity and venture capital sectors.

The Directors believe that the availability of further funds will allow the Company to take advantage of new investment opportunities and provide support for existing portfolio companies.

The Company has a number of features which differentiate it from some VCTs:

- 1. Low running costs**

The annual running costs for the shareholders of a larger VCT are usually lower as the VCT's fixed costs are spread over a larger asset base. Additionally, the Company's annual running costs are capped at 2.6% of Net Assets, above which Downing LLP bears any further costs. This is one of the lowest caps in the VCT sector.
- 2. Significant diversification**

As a result of its history with six VCTs merging together in 2013 and its past strategy, the Company's portfolio includes a wide range of sectors and around 90 companies. Currently, no single investment accounts for more than 6% of the portfolio (by value). Individual investments or sectors which underperform will therefore have a less detrimental effect on the net asset position of the Company than would be the case in a smaller and less diversified VCT.
- 3. Clear buyback policy**

Shareholders may, from time to time, wish to sell some of their shares to assist with personal financial and estate planning. It is the Company's intention to offer regular share buybacks at a discount of 5% to the most recently announced net asset value.

Reasons for the Offer and Use of Proceeds

The Offer has been designed for Investors seeking to invest in a diversified existing portfolio of unquoted and quoted investments, whilst taking advantage of the VCT tax reliefs. The Offer will also allow the Company to take advantage of new investment opportunities and have funds available to support existing portfolio companies. The Company is seeking to raise additional gross proceeds of £15 million under the Offer, together with an over-allotment facility of a further £25 million. The additional funds raised under the Offer will be invested in accordance with the Company's investment policy. Downing is continuing to generate a steady pipeline of suitable investment opportunities and expects to continue to do so despite the disruption caused by the coronavirus pandemic.

Dividend Policy and Dividend Reinvestment Scheme

The Board has a stated objective of paying an annual dividend of at least 4.0% per annum based on its NAV, subject to the availability of sufficient distributable profits, capital resources and compliance with the VCT regulations. There is no guarantee that this objective will be met. This return equates to a tax-free yield of 5.7% p. a. on the current offer price net of 30% income tax relief. In respect of the last financial year, the Company has declared dividends of 4.0p per share (equal to 5.1% based on the opening net asset value). In the previous two financial years, dividends of 5.0p per share and 6.0p per share were paid (equal to 5.7% and 6.6% based on the opening net asset value).

Dividends are usually paid twice each year in February/March and August/September. The next dividend is expected to be paid in February/March 2021. Any dividends declared which are ex-dividend since the last NAV date but remain unpaid will be factored into the Offer Price.

The Company operates a Dividend Reinvestment Scheme under which Shareholders are given the opportunity to reinvest future dividend payments by way of subscription for new shares.

Subject to a Shareholder's personal circumstances, Shares subscribed for under the Dividend Reinvestment Scheme should obtain the usual VCT tax advantages as set out below.

Investors under the Offer may elect to participate in the Dividend Reinvestment Scheme by completing the dividend reinvestment section of the Application Form and should be aware that it will apply to their entire holding of new Shares and any Existing Shares. Participation in the Dividend Reinvestment Scheme by a Shareholder can be cancelled at any time with written authority from the Shareholder.

Taxation Benefits to Investors (see Part V for further details)

The principal VCT tax reliefs, which are available on a maximum investment of £200,000 per individual in each of the 2020/21 and 2021/22 tax years, are set out below:

- **Income tax relief at 30%** of the amount subscribed provided the VCT shares are held for at least five years and provided the Investor has not sold any shares in the Company six months either side of the issue of the new Shares. Relief is restricted to the amount which reduces the Investor's income tax liability to nil.
- **Tax-free dividends and capital distributions** from a VCT.
- **Capital gains tax exemption** on any gains arising on the disposal of VCT shares.

The table below shows the effect of the initial 30% income tax relief (based on a notional investment of £10,000):

Effect of initial 30% VCT income tax relief	
Cost of investment	£
Gross subscription by Investor	10,000
30% VCT income tax relief	(3,000)
Net of tax cost of investment	7,000
Initial value of investment	
Gross subscription by Investor	10,000
Assumed issue costs of 2.5%	(250)
Initial Net Asset Value	9,750
Initial "uplift" (pounds)	+2,750
Initial "uplift" (%)	+39.3%

The above table shows that, based on an illustrative investment of £10,000 and income tax relief at 30%, an Investor's net of tax cost of investment is £7,000 and the net assets initially attributable to the investment are £9,750, an "uplift" of £2,750 or +39.3%. The table ignores the effect of Adviser Charges paid or early application discounts received. **Investors should note that they are required to hold the Shares for at least five years in order to retain the full amount of income tax relief and, as such, this initial uplift cannot be immediately realised.**

This is only a very brief summary of the UK tax position of investors in VCTs, based on the Company's understanding of current law and practice. Further details are set out in Part V of this document. Potential Investors are recommended to consult their own appropriate professional advisers as to the taxation consequences of their investing in a VCT. In addition, the availability of tax reliefs depends on the Company maintaining its VCT qualifying status.

Investment Objective and Policy

The current investment objective and policy are shown below.

Investment Objective

The investment objective of the Company is to provide private investors with attractive returns from a portfolio of investments unquoted companies including existing AIM and AQSE Growth Market quoted companies in the United Kingdom. It is the intention to maximise tax-free income available to investors from a combination of dividends and interest received on investments and the distribution of capital gains arising from trade sales or flotation.

Investment Policy

Asset allocation

The Company will seek to maintain a minimum of 80% of its funds invested in VCT qualifying investments, with the balance held in non-qualifying investments. New funds raised will initially be held in non-qualifying investments and cash and will gradually be invested in VCT qualifying investments over a two to three year period.

VCT qualifying investments

The Company seeks to hold a portfolio of VCT qualifying investments as follows:

Investment type	Target	Maximum	Target IRR
Growth	40%-100%	100%	15% and above
Yield focused	0%-60%	100%	10%

Growth investments will be in companies with prospects for high capital growth-reflecting higher risk, predominantly focusing on:

- investments in unquoted companies where there are reasonable prospects of a trade sale or clear exit strategy over a five to seven year time horizon and the prospects of a reasonable level of capital growth. Start-ups will not generally be considered although the fund may consider investments in early stage companies offering higher risk and higher potential returns; and
- companies already quoted on AIM, the AQSE Growth Market or the Main Market of the London Stock Exchange, or being admitted to AIM, the AQSE Growth Market or the Main Market of the London Stock Exchange.

Yield focused investments are generally in unquoted businesses (although this may include some quoted businesses), with a preference for companies which, subject to prevailing VCT rules, own substantial assets or have predictable revenue streams. These investments may be structured such that they comprise of loan stock and/or preference shares. Under the current VCT regulations, it is unlikely that any new Yield focused investments will be added to the portfolio or further funds invested into such existing portfolio companies.

Some investments may exhibit features of both of the above categories.

Non Qualifying Investments

Non-qualifying investments invested after 5 April 2016 will only be made in the following categories:

- Shares or units in an AIF (alternative investment fund) e.g. an investment trust or in a UCITS (undertakings for the collective investment in transferable securities) e.g. an OEIC (open ended investment company) which may be repurchased or redeemed by the investor on no more than 7 days' notice; and
- Ordinary shares or securities in a company which are acquired on a European regulated market e.g. in companies with shares listed on the main market of the London Stock Exchange.

The existing non-qualifying portfolio includes investments made before 5 April 2016 within the following categories:

- Non-qualifying listed investments which are in quoted companies where the holdings can be traded and in companies in which the Investment Adviser has detailed knowledge as a result of VCT qualifying investments made previously;
- Secured loans which are secured on assets held by the borrower; and
- Non-qualifying unquoted investments which will generally not exceed 5% of the overall fund.

In addition to the above, the Company may hold non-qualifying funds in cash or bank deposits, which fall within the VCT rules.

The allocation between asset types in the non-qualifying portfolio will vary depending upon opportunities that arise, with any one asset class having a maximum exposure of 100% of the non-qualifying portfolio.

Risk diversification

The Directors will control the overall risk of the Company. The Investment Adviser will ensure the Company has exposure to a diversified range of VCT qualifying investments from different sectors and generally no more than 15% of the Company's funds in any one company or any one issue of fixed income securities (except UK Government gilts or deposit accounts with UK clearing banks).

Venture Capital Trust Regulations

In continuing to maintain its VCT status, the Company complies with a number of regulations as set out in Part 6 of the Income Tax Act 2007 VCT Rules.

Borrowing policy

It is not the Company's intention to have any borrowings. The Company does, however, have the ability to borrow a sum equal to no more than 10% of the aggregate amount paid up on the issued share capital of the Company plus the amounts standing to the credit of the consolidated reserves of the Company. There are no plans to utilise this ability at the current time.

Variation of Investment Policy

Any material change to the investment policy of the Company will require the approval of Shareholders pursuant to the Listing Rules. Any material change to the investment policy is also subject to the FCA's approval.

Listing Rules

In accordance with the Listing Rules: (i) the Company may not invest more than 10%, in aggregate, of the value of its total assets at the time an investment is made in other listed closed-ended investment funds except listed closed-ended investment funds that have published investment policies which permit them to invest no more than 15% of their total assets in other listed closed-ended investment funds; (ii) the Company must not conduct any trading activity which is significant in the context of its group as a whole; and (iii) the Company must, at all times, invest and manage its assets in a way which is consistent with its objective of spreading investment risk and in accordance with its published investment policy as set out in this document. This investment policy is in line with Chapter 15 of the Listing Rules and Part 6 of the ITA.

Responsible Investing

The Investment Adviser is a signatory to the United Nations Principles of Responsible Investment and is actively integrating environmental, social and governance matters into its approach to both selection and ongoing management of investments. The Board believes that ESG integration will contribute to protecting and enhancing returns for investors in the long term.

Share Buyback Policy

The Company's policy is to ensure that there is liquidity in its Shares and, accordingly, it intends to pursue an active Share buyback policy. The Company will seek to buy back in the market those Shares which Shareholders wish to sell, at a discount of 5% to the latest published Net Asset Value, subject to applicable regulations, market conditions at the time and the Company having both the necessary funds and distributable reserves available for the purpose. This buyback policy aims to provide some liquidity and limit the discount to Net Asset Value at which Shares trade. The making and timing of any share buybacks will remain at the absolute discretion of the Board.

Under the current Listing Rules, the price paid for the Shares cannot be more than the higher of: (i) the amount equal to 105% of the average of the middle market quotations for the five Business Days immediately preceding the date on which the Shares are purchased; (ii) the price of the last independent trade; and (iii) the highest then current independent bid on the London Stock Exchange.

The Investment Adviser

The Company's investment adviser is Downing LLP, which is authorised and regulated by the Financial Conduct Authority and specialises in structuring, promoting, managing and administering tax efficient products. Downing LLP took over the business and employees of Downing Corporate Finance Limited on 1 June 2011. Downing Corporate Finance was incorporated in 1986 and, since 1991, carried out the business taken over by Downing LLP. Downing LLP advises VCTs with in excess of £150 million of net assets.

AIFM

The Company is registered with the FCA as a Small Registered Alternative Investment Fund Manager.

Chris Kay (Chairman) has over 30 years' experience in the venture capital industry. He spent nine years with 3i Group plc, where he was an investment director, and a further eight years at Elderstreet Investments Limited, where he headed the VCT team. He is the chief executive of Chrysalis VCT Management Limited. He is a Cambridge University graduate and gained an MBA at Manchester Business School.

He is currently a non-executive director of ProVen VCT plc and Draper Esprit VCT plc. He was formerly a non-executive director of Downing Absolute Income VCT 2 plc.

Stuart Goldsmith is chairman of Ketton Securities Limited, a firm that advises a range of companies on corporate strategy, mergers and acquisitions, which he founded in 1989. Previously, he was chairman or chief executive of two groups of financial services companies – Fredericks Place Group and the Britannia Group of Investment Companies, which managed £4 billion of funds in London and the USA for institutions and private clients. He has been a non-executive director of a number of companies, including Savoy Asset Management and the Hallwood Group.

Charges

Initial costs

The initial costs to Investors are made up of the Promoter's Fee plus Initial Adviser Charges (where applicable). Downing will charge a Promoter's Fee of 4.5% of the monies subscribed or 2.5% on applications where an investor has been advised by a financial adviser. Out of its Promoter's Fee, Downing will be responsible for paying all of the costs of the Offer (excluding trail commission). Adviser Charges are the fees agreed between Intermediaries and Investors for advice and related services. Downing will also receive an annual trail fee of 0.25% of the net asset value of the New Shares. Downing will be responsible for paying trail commission to intermediaries, where applicable, out of this fee. Further information is set out in Part IX. The total initial expenses of the Offer (assuming full subscription by Investors in respect of whom intermediary commission is payable) will be a maximum of 4.5% of the gross proceeds and the maximum total net proceeds are therefore estimated to be £14.3 million (assuming no use of the over-allotment facility).

Running costs – Annual running costs are capped by the Investment Adviser at 2.6% of net assets. Any excess costs above the cap will be paid by Downing LLP, or refunded by way of a reduction in its fees. Annual Running Costs include, *inter alia*, Directors' fees, fees for audit and taxation advice, registrar's fees, costs of communicating with Shareholders and investment advisory fees but exclude performance incentive fees.

Annual fees

Downing charges certain fees under the Investment Services Agreement, which are set out below.

Investment advisory fee – Downing LLP's annual management charge is 2.0% per annum.

Arrangement and monitoring fee – Within the existing Investment Services Agreement, Downing LLP is entitled to receive arrangement and monitoring fees which are paid by the investee companies as set out in the table below.

Administration fees

Downing also provides company secretarial and administration services to the Company for an annual fee made up of (i) a basic fee of £40,000 (plus RPI adjustment) plus (ii) a fee of 0.125% of Net Assets in excess of £10 million (iii) an additional fee of £10,000 per additional share pool (if applicable).

Where the Company invests in other Downing managed funds, the Adviser will arrange for one of the fees to be rebated to the Company to ensure that there is no "double charging".

Performance Incentive

Downing is entitled to receive a performance incentive fee equal to 20% of the realised gains on any exit from new investments made since 1 April 2019 ("**New Investments**"). The fee will be payable to the Investment Adviser if the following conditions are met:

- (a) The Internal Rate of Return ("**IRR**") of the group of all New Investments at the year-end exceeds the hurdle rate of 5% p.a. (based on audited valuations and including realised and unrealised gains and losses and all investment income, measured from 1 April 2019) ("**IRR Hurdle**"); and

- (b) Total Return per share at the year end exceeds the Base Value per share (“**Base Value Hurdle**”). The Base Value per Share is set at the Total Return per share (NAV plus dividends paid since the date of the merger) as at 31 March 2019, being 109.8p per Share.

If any amount is not paid in a year when an investment is realised because the IRR Hurdle and/or Base Value Hurdle are not met, such amounts are deferred and can be paid in a future year if and when the IRR Hurdle and Base Value are both met again. Additionally, the amounts payable under this proposed scheme are only paid to the extent that the IRR Hurdle and Base Level are exceeded.

The Total Return per share stood at 93.1p per share at 31 March 2020.

Costs payable by investee companies

Downing is entitled to charge arrangement and monitoring fees to investee companies, expressed as a percentage of the investment cost, on the following basis:

Arrangement Fee Between 0% and 3.0% per company (subject to an overall annual cap of 2.0%)

Basic Monitoring Fee 0.5%

Additional Monitoring Fee Up to 0.5%

To the extent an arrangement fee of less than 2.0% is charged to a particular investee company, Downing will be entitled to an additional monitoring fee equal to 50% of the shortfall

Costs incurred on abortive investment proposals will be the responsibility of Downing.

Co-Investment Policy

The Company's only formal co-investment relationships are with the other Downing VCTs, Downing's IHT, EIS and funds (together the “Funds”). It has been agreed that allocations will be offered to each party in proportion to their respective funds available for investment, subject to: (i) a priority being given to any of the Funds in order to maintain their tax status; (ii) the time horizon of the investment opportunity being compatible with the exit strategy of each Fund; and (iii) the risk/reward profile of the investment opportunity being compatible with the target return for each Fund. In the event of any conflicts between the parties, the issues will be resolved at the discretion of the independent directors, designated members and committees of the relevant Funds.

Other Information

Taxation and HMRC approval

The Directors intend to conduct the affairs of the Company so it continues to satisfy the conditions for approval as a VCT and that such approval will be maintained. HMRC has granted the Company provisional approval under the ITA. The Company intends to continue complying with the ITA and has retained Philip Hare & Associates LLP to advise it on VCT taxation matters.

The Offer and minimum and maximum subscription

Assuming the Offer is fully subscribed, ignoring the over-allotment facility, maximum net proceeds of approximately £14,325,000 will be raised under the Offer. If the Offer is over-subscribed, it may be increased at the discretion of the Board to no more than £40 million. This facility may be utilised whilst the Offer remains open. In the event that applications are received in excess of the prescribed maximum of £40 million, the Directors and the Sponsor reserve the right to use their absolute discretion in the allocation of successful applications. Applicants are encouraged to submit their Application Form early in order to be confident that their applications will be successful.

The minimum investment per Applicant is £5,000 for one-off applications (or such lower amount at the Board's discretion) and the Board may in its discretion permit monthly subscriptions by standing order or direct debit. The maximum investment, on which tax reliefs in VCTs are available, is £200,000 per Applicant in each of the 2020/21 and 2021/22 tax years. Spouses can each invest up to £200,000 in each tax year. The subscription list for the Offer will open at 9.00 a.m. on 11 September 2020 and may close at any time thereafter, but in any event, not later than 3.00 p.m. on 1 April 2021 in respect of the tax year 2020/21 and 3.00 p.m. on 30 April 2021 in respect of the tax year 2021/22, unless fully subscribed earlier or previously extended by the Directors (but to no later than 31 August 2021). The Offer is not underwritten.

Shares are expected to be allotted and issued in respect of valid applications on 1 April 2021, 30 April 2021 and on any other dates on which the Directors decide.

Application will be made to the FCA on behalf of the Company for the Admission of all of the Offer Shares. The Offer Shares will be issued in registered form and be transferable in both certificated and uncertificated form and will rank for all dividends and other distributions declared, paid or made by the Company in respect of the Offer Shares thereafter. It is anticipated that dealings in the Offer Shares will commence within 20 Business Days of allotment. Dealings may not begin before notification of allotments is made.

Settlement of transactions in the Offer Shares may take place within the CREST system if Shareholders wish. CREST is a voluntary system and Shareholders who wish to receive and retain share certificates will be able to do so. Share certificates (where applicable) and certificates to enable a claim for income tax relief to be made in respect of Offer Shares will be posted to Shareholders within 30 days of each allotment. No notification will be made to successful applicants prior to dispatch of definitive share certificates.

Prior to dispatch of definitive share certificates (where applicable), transfers (if any) will be certified against the register. No temporary documents of title will be issued.

The result of the Offer will be announced through a regulatory information service provider authorised by the FCA.

No convertible securities, exchangeable securities or securities with warrants will be issued with the Offer.

Operation of the Company and Board Practices

(a) Board of Directors

The Company complies with the provisions of the AIC Code of Corporate Governance, with the exception of the following, for the reasons set out below:

- a) The Company has no major Shareholders, so Shareholders are not given the opportunity to meet any new non-executive Directors at a specific meeting other than the Annual General Meeting. (5.2.3)
- b) Due to the size of the Board and nature of the VCT's business, the Board considers it appropriate for the entire Board, including the chair, to fulfil the role of the nomination, audit and the remuneration committee. (7.2.22, 9.2.37, 8.2.29)
- c) Due to the size of the Board, a Senior Independent Director has not been appointed. (6.2.14)

The Board comprises three members, all of whom are non-executive directors and considered to be independent of the Investment Adviser.

The Board meets regularly throughout the year (normally at least quarterly) and all necessary information is supplied to the Directors on a timely basis to enable them to discharge their duties effectively. Additionally, special meetings take place or other arrangements are made when Board decisions are required in advance of regular meetings. The Board is responsible for controlling the Company. The Board is responsible for the determination and calculation of the Company's Net Asset Value, which will be undertaken in accordance with the Company's accounting policies (the Company's current accounting policies are set out on pages 50 to 52 of its report and accounts for the year ended 31 March 2020) and published on an appropriate regulatory information service (including in the announcement of annual and half yearly results of the Company). The Board does not envisage any circumstances in which such calculations would be suspended but, were this to occur, such suspension would be communicated to shareholders in a similar manner.

The Board delegates specific responsibilities to the committees described below.

(b) Audit Committee

All Directors sit on the audit committee which is chaired by Stuart Goldsmith. The audit committee meets not less than once a year. The Company's auditors and the senior executives of the Investment Adviser may attend and speak at audit committee meetings.

A summary of the terms of reference of the audit committee is as follows: the committee has responsibility for, among other things, the planning and reviewing of the Company's annual and half yearly reports and the supervision of its auditors in the review of such financial statements. The audit committee focuses particularly on the Company's compliance with legal requirements, accounting standards, financial and regulatory reporting requirements, the listing rules and the Prospectus Regulation and ensuring that effective systems for internal financial control and for reporting non-financial operating data are maintained. The ultimate responsibility for reviewing and approving the annual report and accounts and half yearly financial reports remain with the Board.

(c) Remuneration Committee

The remuneration committee, which meets as and when required, is chaired by Barry Dean. All Directors sit on the Remuneration Committee.

A summary of the terms of reference of the remuneration committee is as follows: this committee has responsibility for determining the Company's policy on the remuneration of the Directors, and the committee refers to standard industry practice as well as comparative remuneration levels and structures prevalent in companies of a similar profile and size, and in similar industry sectors, to the Company, taking account of any special circumstances that may be relevant in terms of the Directors' responsibilities and duties. The maximum Directors' remuneration will also be determined by reference to the Company's Articles and/or ordinary resolutions of shareholders from time to time.

(d) Nomination Committee

All directors sit on the nomination committee, which meets as and when required, and is chaired by Barry Dean. The committee has responsibility for considering the size, structure and composition of the Board, the retirement and appointment of Directors, and will make appropriate recommendations to the Board in relation to these matters.

5. Memorandum of Association and Articles

The Company's principal object is to carry on the business of an investment company and a VCT. The Memorandum of Association and the Articles of Association are available for inspection at the address specified in paragraph 11 below.

A. *Share capital*

The share capital of the Company is comprised of Ordinary Shares and Deferred Shares.

(a) Rights attaching to shares

The Deferred Shares:

- (i) confer no right to any dividend or any other distribution (other than on a winding up);
- (ii) confer no right to receive notice of, or to attend or vote at general meetings;
- (iii) on a winding up confer the rights to be paid out of the assets of the Company available for distribution an amount equal to 1p for all the Deferred Shares prior to the surplus being distributed to the holders of Ordinary Shares, but do not confer any right to participate in any surplus assets of the Company; and
- (iv) may be purchased by the Company at any time for an aggregate consideration of 1p and each Deferred Share so purchased shall thereafter be cancelled

No shares that confer rights that are subordinated to those of the Ordinary Shares as to dividends or on a winding up of the Company shall be issued or created at any time.

(b) Variation of rights

Whenever the share capital of the Company is divided into different classes of shares, the special rights attached to any class may, subject to CA 2006, be varied either:

- (a) in such a manner as may be provided by such rights; or
- (b) in the absence of any such provision, by the passing of a special resolution at a general meeting of such holders or, the written consent of holders of three quarters in nominal value of the issued shares of the affected class. At such a meeting the necessary quorum shall be at least two members of the class holding (or representing by proxy) not less than one third in nominal value of the capital paid up on the issued shares of that class and at an adjourned meeting one person (whether present in person or by proxy) holding shares of that class in question.

(c) Alteration of share capital

The Company may by ordinary resolution:

- (i) consolidate and divide all or any of its share capital into shares of larger amount than its existing shares;
- (ii) cancel any shares which, at the date of the passing of the resolution, have not been taken, or been agreed to be taken by any person, and diminish the amount of its share capital to reflect this cancellation; and
- (iii) sub-divide its shares into shares of smaller amount. Such a resolution may determine that one or more of the shares resulting from such sub-division may have any such preferred or other special rights, or may have such deferred rights, or be subject to any restrictions as compared with the others, as the Company has power to attach to unissued or new Shares.

The Company may by special resolution reduce its share capital and any capital redemption reserve or share premium or other undistributable reserve in any manner which is in accordance with and subject to any method and/or consent authorised or required by law.

(d) Issue of shares

Subject to the provisions of the CA 2006 relating to authority, pre-emption rights and otherwise, and to any resolution of the Company in general meeting passed pursuant thereto, all unissued shares shall be at the disposal of the Directors, and they may allot or otherwise dispose of them to such persons, at such times and on such terms as they think fit.

(e) Transfer of shares

A member may transfer any or all of his shares by instrument of transfer in writing in any usual or common form or in any other form acceptable to the Directors. The Directors may in their absolute discretion and without assigning any reason therefore refuse to register any transfer of shares where the shares in question are not fully paid up (in respect of which the Company has a lien) where such refusal does not restrict dealings on an open and proper basis. The Directors may refuse to recognise an instrument of transfer unless the instrument of transfer is (a) in respect of only one class of share; (b) is in favour of not more than four transferees; and (c) is lodged at the transfer office accompanied by the relevant share certificates and any other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer. The Board may also refuse to register a transfer if in their opinion (and with the concurrence of the London Stock Exchange) exceptional circumstances so warrant.

The period of notice must in each case be exclusive of the day in which the notice is served or deemed to be served and of the day in which the meeting is to be held provided that a general meeting shall, notwithstanding that it may have been called by a shorter notice than that specified above, be deemed to have been duly called if it is so agreed in accordance with CA 2006; provided also that the accidental omission to give notice to, or the non-receipt of notice by, any person entitled thereto shall not invalidate the proceedings at any general meeting.
- (b) Every notice calling a general meeting shall specify the place and the day and hour of the meeting and the general nature of the business to be transacted. There shall appear with reasonable prominence in every such notice a statement that a member entitled to attend and vote is entitled to appoint a proxy or proxies to attend and vote instead of him and that a proxy need not be a member. In the case of an annual general meeting, the notice shall also specify the meeting as such.
- (c) Each member is entitled to attend and vote and to appoint one or more proxies to attend and vote on a poll vote. A proxy need not be a member.

- (e) No business shall be transacted at any general meeting unless a quorum is present. Two members present in person (or by representative) or by proxy and entitled to vote shall be a quorum.
- (f) If a quorum is not present or if during a meeting a quorum ceases to be present, the meeting, if convened on the requisition of members, shall be dissolved and in any other case shall stand adjourned to such day and to such time and place as may be determined by the chairman (which, in the case of the Company must be not less than 10 clear days thereafter). At such adjourned meeting a quorum shall be those persons present. It shall not be necessary to give notice of an adjournment or of the business to be transacted at an adjourned meeting.

- (b) Where shares are held jointly, the vote of the senior who has tendered a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders and for this purpose seniority shall be determined by the order in which the names stand in the register of members of each company in respect of the holding.
- (c) A member will lose his right to vote at a general meeting or at any separate meeting of the holders of any class of share, whether in person or by proxy, unless all calls presently payable by him in respect of those shares, together with interest and expenses (if any) have been paid in full to the Company, even where those shares are jointly held. The right to vote, together with all other rights and benefits of membership, will also be lost where the member (or any other person claiming to have an interest in such shares) has been issued with a notice pursuant to section 793 of the CA 2006 (which requires the member or such other person to declare his interest in the shares) and has failed to give the required information to the Company within the prescribed period of 14 days.

In respect of unquoted instruments, fair value is established by using the IPEV Guidelines. The valuation methodologies used by the Company to ascertain the fair value of an investment in an unquoted entity are as follows: Price of recent investment; Earnings multiple; Net assets; Discounted cash flows or earnings (of underlying business); Discounted cash flows (from the investment); and Industry valuation benchmarks.

Gains and losses arising from changes in fair value are included in the Income Statement for the year as a capital item and transaction costs on acquisition or disposal of the investment expensed.

In the event of any suspension of listing valuations are held at the suspended price and the view is taken with consideration to best market practice and information from advisers. 9. Stamp Duty, Stamp Duty Reserve Tax and Close Company Status

The Company has been advised that no stamp duty or stamp duty reserve tax (“SDRT”) will be payable on the issue of the Shares issued under the Offer.

The transfer on sale of any Shares will be liable to ad valorem stamp duty normally at the rate of 0.5% of the amount or value of the consideration (rounded up to the nearest £5). An unconditional agreement to transfer Shares also gives rise to an obligation to account for SDRT, which is payable within seven days of the start of the month following that in which the agreement was entered into. The payment of stamp duty gives rise to a right to repayment of any SDRT paid. There will be no stamp duty or SDRT on the transfer of the Shares into CREST unless such a transfer is made for consideration in money or money’s worth, in which case a liability to SDRT will arise usually at a rate of 0.5%. A transfer of Shares effected on a paperless basis through CREST will generally be subject to SDRT at a rate of 0.5% of the value of the consideration. Following the issue of the Shares pursuant to the Offer, the Company is not likely to be a close company for tax purposes.

Part V – Taxation

VCTs: Summary of the applicable legislation in respect of Investors

1. Taxation of a VCT

VCTs are exempt from corporation tax on chargeable gains. There is no restriction on the distribution of realised capital gains by a VCT, subject to the requirements of company law. The Company will be subject to corporation tax on its income (excluding dividends received from UK companies) after deduction of attributable expenses.

2. Tax reliefs for individual investors

Individuals who subscribe for Offer Shares must be aged 18 or over to qualify for the tax reliefs outlined below.

Relief from income tax

An Investor subscribing up to £200,000 in either or both of the 2020/21 and 2021/22 tax years for eligible shares in a VCT will be entitled to claim income tax relief, at the rate of 30%, although this relief will be withdrawn if either the shares are sold within five years or the Investor takes out a loan which would not have been made, or would not have been made on the same terms, save for the acquisition of such shares. If an Investor has sold, or if they sell, any shares in Downing ONE VCT (or any VCT that merges with Downing ONE VCT if that merger was known about at that time) within six months either side of the subscription for the Offer Shares, then for the purposes of calculating income tax relief on the Offer Shares the subscribed amount must be reduced by the amount received from the sale. Relief is also restricted to the amount which reduces the investor's income tax liability to nil.

Dividend relief

An investor who subscribes for or acquires eligible shares in a VCT (up to a maximum of £200,000 in either or both of the 2020/21 and 2021/22 tax years) will not be liable for UK income tax on dividends paid by the VCT. The income received by the VCT will usually constitute either interest (on which the VCT may be subject to tax) or a dividend from a UK company (on which the VCT would not be subject to tax). The VCT's income, reduced by the payment of tax (if applicable), can then be distributed tax-free to investors who benefit from this dividend relief. There is no withholding tax on dividends paid by a UK company and, consequently, the Company does not assume responsibility for the withholding of tax at source.

Capital gains tax relief

A disposal by an individual Investor of his/her shares in a VCT will neither give rise to a chargeable gain nor an allowable loss for the purposes of UK capital gains tax. This relief is also limited to disposals of shares acquired within the £200,000 limit described above.

Loss of tax reliefs

- (a) If a company which has been granted approval or provisional approval as a VCT subsequently fails to comply with the conditions for approval, VCT status may be withdrawn or treated as never having been given. The exemptions from corporation tax on capital gains will not apply to any gain realised after the start of the accounting period in which VCT status is lost (and on any gain realised by the VCT if approval is deemed never to have been given).
- (b) For investors, the withdrawal of VCT status may (depending upon the timing of such withdrawal) result in:
- repayment of the 30% income tax relief on subscription for new VCT shares;
 - income tax becoming payable on subsequent payments of dividends by the company; and
 - a liability to tax on capital gains being suffered in the normal way on the disposal of shares in the company, except that any part of the gain attributable to the period for which the VCT was approved would be exempt.
- (c) The consequences for investors in a company which never obtains full unconditional approval as a VCT are as follows:
- repayment of the 30% income tax relief on subscriptions for new VCT shares and interest on overdue tax may arise;
 - income tax becoming payable on all payments of dividends by the company; and
 - any gain arising on a disposal of the shares would be liable to capital gains tax and losses on the shares would be allowable losses for capital gains tax purposes.

The Offer Shares are eligible VCT shares for the purposes of this section.

3. Consequences of an Investor dying or a transfer of shares between spouses

Initial income tax

If an Investor dies at any time after making an investment in a VCT, the transfer of shares on death is not treated as a disposal and, therefore, the initial income tax relief is not withdrawn. However, the shares will become part of the deceased's estate for inheritance tax purposes.

Tax implications for the beneficiary

Provided a number of conditions are met, the beneficiary of any VCT shares will be entitled to tax-free dividends and will not pay capital gains tax on any disposal, but will not be entitled to any initial income tax relief.

Transfer of shares between spouses

Transfers of shares in a VCT between spouses is not deemed to be a disposal and, therefore, there is no loss of income tax relief on a transfer. Relief from tax on dividends and on disposals of shares are subject to the investor's annual £200,000 allowance.

4. General

Investors who are not resident in the UK

Non-resident Investors, or Investors who may become non-resident, should seek their own professional advice as to the consequences of making an investment in a VCT, because they may be subject to tax in other jurisdictions.

Stamp duty and stamp duty reserve tax

No stamp duty or (unless shares in a VCT are issued to a nominee for a clearing system or a provider of depository receipts) stamp duty reserve tax will be payable on the issue of VCT shares. The transfer on the sale of shares would normally be subject to ad valorem stamp duty or (if an unconditional agreement to transfer such shares is not completed by a duly stamped transfer within two months) stamp duty reserve tax generally, in each case at the rate of 50p for every £100 or part of £100 of the consideration paid where the total consideration exceeds £1,000 or if it forms part of a series of transactions where the total consideration exceeds £1,000. Such duties would be payable by a person who purchases such shares from the original subscriber.

Purchases in the market after listing

Any subsequent purchaser of existing VCT shares, as opposed to a subscriber for new VCT shares, will not qualify for income tax relief on investment but may benefit from dividend relief and from capital gains tax relief on the disposal of his/her VCT shares.

The VCT Regulations 2004

Under the VCT Regulations, monies raised by any further issue of shares by an existing VCT are subject to a grace period of three years before they must be applied in making investments which meet the VCT qualifying thresholds. However, to the extent any of the money raised (save for an insignificant amount in the context of the whole issued ordinary share capital of the VCT) is used by the VCT to purchase its own shares then this grace period shall not apply.

5. Tax Position of the Company

To obtain VCT status a company must be approved by HMRC as a VCT. HMRC has granted the Company approval under Section 274 ITA as a VCT and the Company intends to continue complying with the requirements of such section.

For a VCT to obtain full unconditional approval, the conditions summarised below must be satisfied in relation to the accounting period of the company which is current when the application for approval is made, or in any event must be satisfied by no later than the beginning of the VCT's next accounting period and must continue to be satisfied throughout the life of the VCT:

- (i) the VCT's income must have been derived wholly or mainly from shares and securities (in the case of securities issued by a company, meaning unsecured loans with a five-year or greater maturity period);
- (ii) no holding in a company (other than a VCT or a company which would, if its shares were listed, qualify as a VCT) by the VCT may represent more than 15% by value of the VCT's total investments at the time of investment;
- (iii) the VCT must not have retained more than 15% of the income derived from shares or securities in any accounting period;
- (iv) the VCT must not make an investment into a company which causes that company to have received more than £5 million of state aided risk finance in a rolling 12 month period (£10 million for a 'knowledge intensive' company), or more than £12 million in total (£20 million for a 'knowledge intensive' company);
- (v) no investment can be made by the VCT in a company whose first commercial sale was more than 7 years prior to date of investment, except where previous State aid Risk Finance was received by the company within that 7

- years (10 years for a 'knowledge intensive' company) or where a turnover test is satisfied and the investment is used to enter a new product or geographical market;
- (vi) no funds received from an investment by the VCT into a company can be used to acquire another existing business or trade; and
 - (vii) the VCT must not make any investments other than qualifying investments or certain non-qualifying investments specified in section 274 ITA 2007.

The VCT must not be a close company. Its ordinary share capital must be quoted on any regulated market in the EU or European Economic Area.

The VCT must not, in respect of any share capital created on or after 6 April 2014 and any reserves created from the cancellation thereof, make any payment or distribution out of such share capital and reserves to shareholders within three years from the end of the accounting period in which that share capital was created.

Under current legislation, the following conditions also have to be satisfied by no later than the beginning of the VCT's accounting period which commences no later than three years after provisional approval takes effect and must continue to be satisfied throughout the life of the VCT:

- (i) at least 80% by value of its investments is represented by shares or securities comprising qualifying investments; and
- (ii) at least 70% by value of its qualifying investments are represented by "eligible shares" which are ordinary shares which carry no present or future preferential rights to a return or capital on a winding up or any redemption rights but may have certain preferential rights to dividends.

Furthermore, VCTs are required to invest 30% of funds raised in any accounting period in qualifying investments within 12 months from the end of that accounting period.

Disposals of Qualifying Companies, which have been a qualifying holding throughout the six months prior to disposal, are disregarded for the purposes of the 80% test for a period of twelve months.

"Qualifying investments" comprise shares or securities issued by unquoted trading companies which exist wholly or mainly for the purpose of carrying on one or more qualifying trades (or are the holding company of a trading group which does not carry on non-qualifying activities to a substantial extent) and which meet a principles based 'risk to capital' gateway test. 'Securities' for these purposes include unsecured loans with a five year or greater maturity period but excludes loans or other debt securities which are secured, or which generate a return in excess of 10% per annum or 50% of the amount of the loan over five years). This test requires the company to have genuine plans to grow and develop in the long term and that there be a significant risk that the capital invested could be lost as to an amount greater than the net investment return. The trade must be carried on by, or be intended to be carried on by, the investee company or a 90% held qualifying subsidiary (directly held or in the third tier within the group) at the time of the issue of the shares or securities to the VCT and at all times thereafter. The Qualifying Company must have a permanent establishment in the UK. The Qualifying Company must not be 'in difficulty' within the meaning of Community Guidelines on State Aid for Rescuing and Restructuring Firms in Difficulty.

A company intending to carry on a qualifying trade must begin to trade within two years of the issue of shares or securities to the VCT and continue it thereafter. The definition of a qualifying trade excludes certain activities, including dealing in property, shares, securities, commodities or futures. It also excludes banking, insurance, receiving royalties or licence fees in certain circumstances, leasing, the provision of legal and accounting services, farming and market gardening, forestry and timber production, property development and operating or managing hotels, guest houses, nursing and residential care homes, coal production, steel production, ship building or the generation of electricity. The funds raised by the investment must be used for the purposes of the qualifying trade within certain time limits.

A qualifying investment can be made in a company which is a parent company of a trading group where the activities of the group, taken as a whole, consist of carrying on one or more qualifying trades. The subsidiary carrying on the qualifying trade in question must be at least 90% owned by the parent company. The investee company's gross assets, or those of the group if it is a parent company, must not exceed £15 million immediately prior to the investment and £16 million thereafter. Neither the VCT nor any other company may control the investee company. At least 10% of the VCT's total investment in the investee company must be in "eligible shares" as defined above. Qualifying Companies or groups must have fewer than 250 employees (500 for a "knowledge intensive company"). Companies are permitted to receive a maximum of £5 million from investments made under the European Commission's Risk Finance Guidelines in the 12 months ending on the date of the VCT's investment, and a total maximum of £12 million of such investment (£10 million and £20 million respectively for a "knowledge intensive company"). The company's first commercial sale must be no more than seven years before the date of the VCT's investment (10 years for a "knowledge intensive company"), except where previous State Aided risk finance investment was received by the company in that seven or 10 year period, or where a turnover test is satisfied and the money is used to enter a new product or geographic market. There is also a disqualifying purpose test designed to exclude companies set up for the purpose of accessing the tax reliefs. There is an exclusion on the use of VCT funds for the acquisition of a trade, business or of shares in another company.

Companies whose shares are traded on AIM or NEX Growth Market-are treated as unquoted companies for the purposes of calculating qualifying investments. Shares in an unquoted company which subsequently become listed may still be regarded as a qualifying investment for a further five years following listing, provided all other conditions are met.

VCTs may only use the non-qualifying portion of their portfolio to make a limited range of investments for the purposes of liquidity management, specifically in listed shares, shares or units in alternative investment funds and UCITS (each of which must be redeemable on seven days' notice by the investor) and short term cash deposits.

The Company will notify an RIS as to any action that the Investment Adviser takes in the event of a breach of any of the conditions to remaining a VCT.

The above is only a summary of the tax position of individual investors in VCTs based on the Company's understanding of current law and practice. Investors are recommended to consult a professional adviser as to the taxation consequences of investing in a VCT. Tax reliefs referred to in this document are UK tax reliefs and are dependent on the Company maintaining its VCT qualifying status.

Part VII – Additional Information

The Company

1.1 Borrowing policy

The Directors may exercise all the powers of the Company to borrow money and to mortgage or charge its undertakings, property and uncalled capital. The Directors shall restrict the borrowings of the Company and exercise all voting and other rights or powers of control exercisable by the Company in relation to its subsidiaries (if any) so as to secure (so far, as regards the subsidiaries, as by such exercise they can secure) that the aggregate amount at any one time owing or deemed to be owing by the Company and/or any subsidiaries, determined as hereinafter mentioned, in respect of moneys borrowed by it or them or any of them shall not at any time, without the previous sanction of an ordinary resolution of the Company, exceed an amount equal to 10% of the aggregate amount paid up on the issued share capital of the Company and the amounts standing to the credit of the consolidated reserves of the Company as shown in the latest audited balance sheet, adjusted where appropriate to take account of movements since that date.

1.2 Cancellation of the share premium account

The Directors are aware of the possibility that the Company's Shares may trade at a discount to their net asset value at some point. The Directors consider that the Company should have the ability to purchase its Shares in the market (such Shares to be automatically cancelled) with the aim of reducing any discount and increasing the NAV of the remaining Shares. In the view of the Directors, the awareness of Investors that the Company has such a capability may tend to moderate the scale of any discount which may emerge and the action of buying in shares should enable any such discount to be narrowed.

The CA 2006 provides that a public company may only purchase its own shares out of distributable profits or out of the proceeds of a fresh issue of Shares made for the purpose of the purchase. Subject to confirmation from HMRC that such proposals will not adversely affect the Company's VCT status and Court approval, the Company may decide to reduce and/or cancel the share premium account (created on the issue of the Offer Shares) and to transfer the balance of the special reserve, which is established by the cancellation of a previous share premium account, which may be treated as a distributable profit, out of which purchases of Shares can be made, subject to regulations, VCT Rules and company legislation. Distributions will not be made from such a reserve to the extent it is attributable to shares capital raised after 5 April 2014 for a minimum of three years following the end of the accounting period in which the relevant shares are issued. In order for the Company to make a Court application to gain Court approval, the Company will need shareholder approval. The Company intends to put such a proposal to Shareholders in due course.

1.3 Material interests

Downing will be paid an annual investment adviser fee of 2.0% of the Net Asset Value of the Company. Downing will also be entitled to receive the Performance Incentive. Further details of these arrangements are set out in Part I of this document.

1.4 Results of the Offer

The results of the Offer, together with the relevant information regarding the offer price will be announced through a Regulatory Information Service provider.

1.5 Major Shareholders

As far as the Company is aware, there are no, and as a result of the Offer will be no, major Shareholders holding more than 3% of the Company's Share capital or who intend to subscribe for more than 5% of the available Offer Shares. No shareholders have different voting rights.

1.6 The Offer Shares

Shareholders' authority to create, allot and issue Offer Shares up to an aggregate maximum nominal value of £1,000,000 will be sought at the annual general meeting of the Company to be held on 15 September 2020. All Shareholders will have the same voting rights in respect of the existing share capital of the Company. An existing holder of Ordinary Shares who does not subscribe for Offer Shares pursuant to the Offer would experience no material dilution in terms of NAV per share (as the assets of the Company will be increase by the proceeds of the Offer and the upfront costs of the Offer are borne by subscribers) but will experience dilution in terms of voting. The Offer Shares are ordinary shares of one penny each (ISIN: GB00BFRSVQ41) created under the CA 2006 and are freely transferable. The number of shares to be issued in each allotment of shares depends on the NAV at the time of allotment. However, the maximum number of Ordinary Shares to be issued pursuant to the Prospectus is 64,620,355.

1.7 Consent to use Prospectus

The Company and the Directors consent to the use of the Prospectus by financial intermediaries and accept responsibility for the information contained in the Prospectus in respect of any subsequent resale or final placement of Offer Shares by any financial intermediary which was given consent to use this document. There are no conditions attaching to this consent. The offer period within which subsequent resale or final placement of securities by financial intermediaries can be made and for which consent to use this prospectus is given commences on 11 September 2020 and closes on 30 April 2021 (subject to the extension of the Offer at the discretion of the Directors). Part VIII - Terms and Conditions of Application

1. In these Terms and Conditions of Application, the expression “Prospectus” means this document. The expression “Application Form” means the application form for use in accordance with these Terms and Conditions of Application. Save where the content otherwise requires, the terms used in the Application Form bear the same meaning as in the Prospectus.
2. The right is reserved to reject any application or to accept any application in part only. Multiple applications are permitted. If any application is not accepted, or if any contract created by acceptance does not become unconditional, or if any application is accepted for fewer Offer Shares than the number applied for, or if in any other circumstances there is an excess payment in relation to an application, the application monies or the balance of the amount paid or the excess paid on application will be returned without interest by post at the risk of the Applicant. In the meantime, application monies will be retained in the Company's bank account.
3. You may pay for your application for Offer Shares by cheque or banker's draft submitted with the Application Form or direct bank transfer (CHAPS/BACS/Faster Payment) and the Directors reserve the right to permit other means of payment such as standing order or direct debit.
4. The contract created by the acceptance of applications in respect of the first allotment of Offer Shares will be conditional on the admission of the Offer Shares (in respect of such first allotment of Shares) being granted not later than 3.00 p.m. on 30 April 2021. If the conditions are not met, the Offer will be withdrawn and subscription monies will be returned to Investors within seven days of 30 April 2021, at their own risk, without interest. The Offer is not underwritten.
5. By completing and delivering an Application Form, you:
 - (a) offer to subscribe for the amount specified on your Application Form plus any commission waived for extra shares or any smaller sum for which such application is accepted at the Offer Price;
 - (b) acknowledge that, if your subscription is accepted and subject to clause 14 below, you will be allocated such number of Offer Shares as determined by the Pricing Formula;
 - (c) authorise your financial adviser, or whoever he or she may direct, the Registrar or the Company to send a document of title for, or credit your CREST account in respect of, the number of Offer Shares for which your application is accepted, and/or a crossed cheque for any monies returnable, by post at your risk to your address as set out on your Application Form;
 - (d) in consideration of the Company agreeing that it will not, prior to the closing date of the Offer, offer any Offer Shares to any persons other than by means of the procedures set out or referred to in this document, agree that your application may not be revoked once made and that this paragraph constitutes a collateral contract between you and the Company which will become binding upon despatch by post or delivery of your duly completed Application Form to the Company or to your financial adviser;
 - (e) warrant that your remittance will be honoured on first presentation and agree that, if such remittance is not so honoured, you will not be entitled to receive share certificates for the Offer Shares applied for or to enjoy or receive any rights or distributions in respect of such Offer Shares unless and until you make payment in cleared funds for such Offer Shares and such payment is accepted by the Company (such acceptance shall be in its absolute discretion and may be on the basis that you indemnify it against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of your remittance to be honoured on first presentation) and that at any time prior to unconditional acceptance by the Company of such late payment in respect of such Offer Shares, the Company may (without prejudice to its other rights) treat the agreement to allot such Offer Shares as void and may allot such Offer Shares to some other person, in which case you will not be entitled to any refund or payment in respect of such Offer Shares (other than return of such late payment at your risk and without interest);
 - (f) agree that all cheques and banker's drafts may be presented for payment on the due dates and any definitive document of title and any monies returnable to you may be retained pending clearance of your remittance and the verification of identity required by the ML Regulations and that such monies will not bear interest;
 - (g) undertake to provide satisfactory evidence of identity within such reasonable time (in each case to be determined in the absolute discretion of the Company and the Receiving Agent) to ensure compliance with the ML Regulations;
 - (h) agree that, in respect of those Offer Shares for which your application has been received and processed and not rejected, acceptance of your application shall be constituted by the Company instructing Downing or the Registrar to enter your name on the share register;
 - (i) agree that all documents in connection with the Offer and any returned monies will be sent at your risk and may be sent to you at your address as set out in the Application Form;
 - (j) agree that, having had the opportunity to read the Prospectus, you shall be deemed to have had notice of all information and representations including the risk factors contained therein;
 - (k) confirm that (save for advice received from your financial adviser) in making such application you are not relying on any information and representation other than those contained in the Prospectus and you accordingly agree that no person responsible solely or jointly for the Prospectus or any part thereof or involved in the preparation thereof will have any liability for any such other information or representation;

- (l) agree that all applications, acceptances of applications and contracts resulting therefrom under the Offer shall be governed by and construed in accordance with English Law and that you submit to the jurisdiction of the English Courts and agree that nothing shall limit the right of the Company to bring any action, suit or proceedings arising out of or in connection with any such applications, acceptances of applications and contracts in any other manner permitted by law or in any court of competent jurisdiction;
 - (m) irrevocably authorise the Company, the Registrar or Downing or any other person authorised by any of them, as your agent, to do all things necessary to effect registration of any Offer Shares subscribed by or issued to you into your name and authorise any representatives of the Company, the Registrar or Downing to execute any documents required therefore and to enter your name on the register of members of the Company;
 - (n) agree to provide the Company with any information which it may request in connection with your application or to comply with the VCT Regulations or other relevant legislation (as the same may be amended from time to time) including without limitation satisfactory evidence of identity to ensure compliance with the ML Regulations;
 - (o) warrant that, in connection with your application, you have observed the laws of all requisite territories, obtained any requisite governmental or other consents, complied with all requisite formalities and paid any issue, transfer or other taxes due in connection with your application in any territory and that you have not taken any action which will or may result in the Company, Downing or the Sponsor acting in breach of the regulatory or legal requirements of any territory in connection with the Offer or your application;
 - (p) confirm that you have read and complied with paragraph 6 below;
 - (q) confirm that you have reviewed the restrictions contained in paragraph 7 below;
 - (r) warrant that you are not under the age of 18 years;
 - (s) warrant that, if the laws of any territory or jurisdiction outside the United Kingdom are applicable to your application, you have complied with all such laws and none of the Company, Downing or the Sponsor or any of their respective agents will infringe any laws of any such territory or jurisdiction directly or indirectly as a result or in consequence of any acceptance of your application;
 - (t) agree that Downing and the Sponsor are acting for the Company in connection with the Offer and for no-one else and that they will not treat you as their customer by virtue of such application being accepted or owe you any duties or responsibilities concerning the price of Offer Shares or concerning the suitability of Offer Shares for you or be responsible to you for the protections afforded to their customers;
 - (u) warrant that if you sign the Application Form on behalf of somebody else or yourself and another or others jointly or a corporation you have the requisite power to make such investments as well as the authority to do so and such person will also be bound accordingly and will be deemed also to have given the confirmations, warranties and undertakings contained in these terms and conditions of application and undertake (save in the case of signature by an authorised financial adviser on behalf of the Investor) to enclose a power of attorney or a copy thereof duly certified by a solicitor with the Application Form;
 - (v) warrant that you are not subscribing for the Offer Shares using a loan which would not have been given to you or any associate, or not given to you on such favourable terms, if you had not been proposing to subscribe for the Offer Shares;
 - (w) warrant that the Offer Shares are being acquired by you for *bona fide* investment purposes and not as part of a scheme or arrangement the main purpose of which, or one of the main purposes of which, is the avoidance of tax. Obtaining tax reliefs given under the applicable VCT legislation is not of itself tax avoidance;
 - (x) warrant that you are not a "US person" as defined in the United States Securities Act of 1933 (as amended) nor a resident of Canada and that you are not applying for any Offer Shares on behalf of or with a view to their offer, sale or delivery, directly or indirectly, to or for the benefit of any US person or resident of Canada; and
 - (y) warrant that the information contained in the Application Form is accurate.
6. No person receiving a copy of the Prospectus, or an Application Form, in any territory other than the United Kingdom may treat the same as constituting an invitation or offer to him or her, nor should he or she in any event use such Application Form unless, in the relevant territory, such an invitation or offer could lawfully be made to him or her or such Application Form could lawfully be used without contravention of any registration or other legal requirements. It is the responsibility of any person outside the United Kingdom wishing to make an application hereunder to satisfy himself or herself as to the full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any of the formalities requiring to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.
7. The Offer Shares have not been and will not be registered under the United States Securities Act 1933, as amended, or under the securities laws of any state or other political subdivision of the United States, and may not be offered or sold in the United States of America, its territories or possessions or other areas subject to its jurisdiction (the "USA"). In addition, the Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. Downing will not be registered under the United States Investment Adviser Act of 1940 (as amended). No application will be accepted if it bears an address in the USA.
8. This application is addressed to the Company, the Receiving Agent and the Sponsor. The rights and remedies of the Company and the Sponsor under these Terms and Conditions of Application are in addition to any rights and remedies which would otherwise be available to either of them, and the exercise or partial exercise of one will not prevent the exercise of others.

9. The dates and times referred to in these Terms and Conditions of Application may be altered by the Company with the agreement of the Sponsor.
10. The Company has taken advantage of the provisions of the CA 2006 to allow annual reports and other statutory shareholder communications to be made available in electronic form on its website as the default means of publication. This will have a positive environmental impact and save the Company some costs compared to providing all communications in hard copy form by post. By default, applicants who provide an email address on the Application Form and do not complete select any alternative notification methods, will receive notification of shareholder communications by email. Investors can elect to receive notifications by post and to receive all shareholder communications in paper form by ticking the appropriate box on the Application Form. Should you subsequently wish to change your election, you can do so at any time by contacting the Registrar, Link Asset Services, 34 Beckenham Road, Beckenham, Kent BR3 4TU. Notwithstanding any election, the Company may in its sole discretion send any notification or information to Shareholders in paper form.
11. Intermediaries who have not provided personal recommendations or advice to UK clients in respect of the Offer Shares and who, acting on behalf of their clients, return valid Application Forms bearing their stamp and FCA number may be entitled to commission on the amount payable in respect of the Offer Shares allocated for each such Application Form at the rates specified in the paragraph headed "Commission" in Part IX of this document. Intermediaries may agree to waive part or all of their initial commission in respect of an application for Offer Shares. If this is the case, then the offer charges will be adjusted, in accordance with the Pricing Formula. Intermediaries should keep a record of Application Forms submitted bearing their stamp to substantiate any claim for their commission.
12. The notes included on the Application Form form part of these Terms and Conditions of Application.
13. It is a condition of the Offer to ensure compliance with the ML Regulations. Downing is therefore entitled to require, at its absolute discretion, verification of identity from any Applicant including, without limitation, any person who either (i) tenders payment by way of a cheque or banker's draft drawn on an account in the name of a person or persons other than the Applicant or (ii) appears to Downing to be acting on behalf of some other person. Pending the provision of evidence satisfactory to Downing as to the identity of the Applicant and/or any person on whose behalf the Applicant appears to be acting, Downing may, in its absolute discretion, retain an Application Form lodged by an Applicant and/or the cheque or other remittance relating thereto and/or the Registrar may not enter the Applicant on the register of members or issue any share certificates in respect of such application. If verification of identity is required, this may result in delay in dealing with an application and in rejection of the application. The Company reserves the right, in its absolute discretion, for it or Downing to reject any application in respect of which Downing considers that, having requested verification of identity, it has not received evidence of such identity satisfactory to it by such time as was specified in the request for verification of identity or in any event within a reasonable period. In the event of an application being rejected in any such circumstances, the Company reserves the right in its absolute discretion, but shall have no obligation, to terminate any contract of allotment relating to or constituted by such Application Form (in which event the money payable or paid in respect of the application will be returned (without interest) to the account of the drawee bank from which such sums were originally debited) and/or to endeavour to procure other subscribers for the Offer Shares in question (but in each case without prejudice to any rights the Company may have to take proceedings to recover in respect of loss or damage suffered or incurred by it as a result of the failure to produce satisfactory evidence as aforesaid). The submission of an Application Form will constitute an undertaking by the Applicant to provide promptly to Downing such information as may be specified by it as being required for the purpose of the ML Regulations.
14. The basis of allocation will be determined by the Company (after consultation with Downing) in its absolute discretion. It is intended that Applications will be accepted in the order in which they are received. The Offer will be closed on 30 April 2021 or as soon as full subscription is reached (unless closed earlier or extended at the Board's discretion). The right is reserved, notwithstanding the basis so determined, to reject in whole or in part and/or scale down any Application and to allot Offer Shares notwithstanding that the Offer is not fully subscribed. Application monies not accepted or if the Offer is withdrawn will be returned to the Applicant in full by means of a transfer back to the account from which it was received or by cheque, posted at the applicant's risk. The right is also reserved to treat as valid and binding any application not complying fully with these Terms and Conditions of Application or not in all respects complying with the notes on the Application Form. In particular, but without limitation, the Company may accept applications made otherwise than by completion of an Application Form where the Applicant has agreed in some other manner acceptable to the Company to apply in accordance with these Terms and Conditions of Application.
15. The Company and/or Downing may use the information you give for administration, research and/or statistical purposes. Your details may be used by the Company and/or Downing (but will not be sold to third parties) to send you information on other potential investment opportunities (maximum six communications per annum). If you would prefer not to receive such information, please write to Downing.
16. The minimum subscription is £5,000 subject to the Board's discretion.
17. The application of the subscription proceeds is subject to the absolute discretion of the Directors.

Part IX – Pricing of the Offer, Adviser Charges and Commission

Pricing of the Offer

The number of Shares to be issued to each Applicant will be calculated based on the following Pricing Formula (rounded down to the nearest whole Share):

$$\text{Number of Offer Shares} = \left[\begin{array}{l} \text{Amount subscribed, less:} \\ \text{(i) initial Promoter's Fee}^1 \text{ and} \\ \text{(ii) Initial Adviser Charge (if any)} \end{array} \right] \div \left[\begin{array}{l} \text{Latest published} \\ \text{NAV} \\ \text{per Offer Share}^2 \end{array} \right]$$

¹ less any reduction for early applications and/or commission waived by Intermediaries (where applicable)

² adjusted for any dividends declared and ex-dividend since the NAV date, as appropriate.

Illustrative examples based on a subscription under the Offer of £10,000 and a NAV per Share of 59.1p (being the unaudited NAV as at 30 June 2020)

Example	Promoter's Fee	Initial Adviser Charge	Number of Offer Shares**	Issue Price***
(i)	4.5% (not advised)	N/A	$(10,000 - 450 - 0) \div 0.591 = 16,159$	61.9p
(ii)	2.5% (advised)	2.25%	$(10,000 - 250 - 225) \div 0.591 = 16,116$	62.1p
(iii)	2.5% (advised)	4.0%	$(10,000 - 250 - 400) \div 0.591 = 15,820$	63.3p
(iv)	1.0% (advised and early bird discount*)	2.0%	$(10,000 - 100 - 200) \div 0.591 = 16,412$	61.0p

* Applications received and accepted by 11 December 2020 will benefit from a reduction in the Promoter's Fee of 1.5% for Existing Investors and 1.0% for New Investors, of the amount subscribed. Those received between 12 December 2020 and 26 February 2021 will benefit from a reduction in the Promoter's Fee of 1.0% for Existing Investors and 0.5% for New Investors, of the amount subscribed.

** Rounded down to the nearest whole share

*** Rounded up to the nearest 0.1p

Applications made directly (not through an Intermediary) will attract a Promoter's Fee of 2.5%. It should be noted that the example Adviser Charges set out above have been provided to illustrate the pricing of the Offer and should not be considered as a recommendation as to the appropriate levels of Adviser Charges.

Income tax relief should be available on the total amount subscribed, subject to VCT Rules and personal circumstances, which in each of the above examples would be £3,000 (£10,000 at 30%).

The number of Shares issued under the Offer will be affected by a "blended" issue cost, because Applicants will have a different issue costs attributable to their application for Offer Shares depending upon whether their Application is received directly, through an Intermediary providing advice or through a platform where no advice is given.

The Company's Net Asset Value shall be announced from time to time through a regulatory information service provider.

Adviser Charges

Commission is generally not permitted to be paid to Intermediaries save in circumstances where an "enhanced value" non-advisory service is provided or where restricted advice is provided to a professional client of the adviser. Instead of commission being paid by the Company, a fee will usually be agreed between the Intermediary and Investor for the advice and related services ("Adviser Charge"). This fee can either be paid directly by the Investor to the Intermediary or the payment of such fee may be facilitated by Downing ONE VCT plc.

If the payment of an Initial Adviser Charge is to be facilitated by the Company, then the Investor is required to specify the amount of the charge on the Application Form. The Investor will be issued fewer Shares (to the equivalent value of the Initial Adviser Charge) through the Pricing Formula set out above.

The Initial Adviser Charge is inclusive of VAT, if applicable.

The Company is unable to facilitate payment of any ongoing adviser charges.

Commission

Commission is only payable in limited circumstances noted above. Initial Commission is payable by Downing out of its Promoter's Fee. Those Intermediaries who are permitted to receive commission will usually receive an initial commission of 2.0% of the amount invested by their clients under the Offer.

Additionally, provided that the Intermediary continues to act for the Investor and the Investor continues to be the beneficial owner of the Shares, and subject to applicable laws and regulations, the Intermediary will usually be paid an annual trail commission of 0.25% of the Net Asset Value for a maximum of five years following investment. Trail commission will not usually be transferred to a new Intermediary after the original investment has been made.

Trail commission will be paid annually in August or September (commencing 2022) based on the audited Net Asset Value at the preceding 31 March. Trail commission will be paid by Downing out of the Trail Fee. At Downing's discretion, the trail commission may be waived in favour of additional initial commission of 0.75%.

Annex I – Terms and conditions of the Dividend Reinvestment Scheme (the “DRIS”)

INTRODUCTION

The Company is offering to its Shareholders the opportunity to participate in a Dividend Reinvestment Scheme (“the Scheme”) whereby they may elect to receive Shares, credited as fully paid, instead of receiving dividends in cash. This is a simple, cost effective method for Shareholders to increase the value of their investment in the Company and to benefit from additional VCT income tax relief.

To participate in the Dividend Reinvestment Scheme, Shareholders who hold their Shares in certificated form must complete the relevant part of the Application Form or download and complete the Mandate Form from www.downing.co.uk and return to:

Link Asset Services c/o Downing LLP, St. Magnus House, 3 Lower Thames Street, London EC3R 6HD
(or in a prepaid envelope)

Shareholders who hold their Shares in CREST must submit a CREST Dividend Election Input Message in order to participate. In each case, the relevant action must be taken, and the Application Form, Mandate Form or CREST Dividend Election Input Message received, by no later than 5.00 p.m. on the record date of the relevant dividend.

A Shareholder’s membership of the Scheme will continue until such a time as that Shareholder cancels their membership. Participation in the Scheme can be cancelled at any time subject to the cancellation request being received by Link Asset Services, the Scheme Administrator, before the record date for the relevant dividend.

The Company retains the right to suspend or terminate the Scheme at any time.

RISK FACTORS

- There is no guarantee that the Company will continue to meet its investment objectives nor that suitable investment opportunities will be available. Past performance of the Company is no guarantee of future performance and past returns may not be repeated. Your capital is at risk if you invest in the Company and you may lose some or all of your capital.
- If Shareholders dispose of their VCT shares before the expiry of five years from the date of their issue, any income tax relief received on subscription will have to be repaid.
- Though it is intended that the Company will be managed so as to continue qualifying as a VCT, there is no guarantee that such status will be maintained. Failure to maintain such status could result in adverse tax consequences for investors, including being required to repay the 30% income tax relief.
- The ability of the Company to obtain maximum value from its investments, such as through a sale or takeover, may be restricted due to the requirement that it satisfy certain conditions necessary for it to maintain its VCT status.
- The Company's investments will generally be in relatively small companies whose securities may not be liquid and may therefore be difficult to realise and there can be no assurance that appreciation in value will occur.
- Whilst the Company's shares are listed on the London Stock Exchange, there is a limited secondary market for VCT shares which usually trade at a discount to their net asset value, and Shareholders may have difficulty in selling their shares.
- The information in this document is based on existing legislation and the tax reliefs described are those that are currently available. The tax rules or their interpretation in relation to an investment in the Company and/or rates of tax may change during the life of the Company and may apply retrospectively.

TERMS AND CONDITIONS OF THE SCHEME

1. By electing to participate in the Scheme, Shareholders on the register of members of the Company at the close of business on a given Record Date may elect to receive New Shares, credited as fully paid, instead of the cash they would otherwise be due in respect of Dividends. The election may, subject to condition 3(d) and 3(e) overleaf, only be made in respect of all (and not some only) of each Dividend and if accepted by the Scheme Administrator shall, subject to conditions 7 and 14 below, operate as a mandate.
2. The Company shall apply the monies held within the Scheme (being the amount of each Dividend paid on Shares held by, or on behalf of, Participants) to invest in New Shares in the Company. The Company shall not have the discretion to vary such investments and Shareholders may not instruct the Company or the Scheme Administrator to make any other investments.
3.
 - (a) On or as soon as practicable after a Payment Date, the Participant's funds held by the Company shall be applied on behalf of that Participant in a subscription for the maximum number of New Shares that can be allotted for such investment.
 - (b) The number of New Shares issued to a Participant pursuant to clause 3(a) above shall be calculated by dividing the aggregate value of the Participant's funds by the net asset value per Share of the Company (as determined by the Board on or around the Record Date but which will normally be the most recently announced financial year end or half yearly net asset value, as adjusted for dividends).
 - (c) No fractions of Shares will be issued under the Scheme and no balance of any cash remaining with the Scheme Administrator after the calculation of each Participant's entitlement to New Shares shall be payable to Participants.
 - (d) The Directors may, at their discretion, allow a Shareholder to make a partial reinvestment of a Dividend, where that shareholder is acting on behalf of more than one beneficial holder, for example through a nominee shareholding made in CREST or other custodians, nominees or trustees. A CREST Dividend Election Input Message must contain the number of Shares for which the election is being made. A cash dividend will automatically be paid on any Shares which are not specified in a CREST Dividend Election Input Message.

- (e) Where Shares in certificated form are registered in the name of a nominee, the nominee should notify the beneficial shareholder of the amount of the dividend to which he or she is entitled. The nominee should then complete the first page of the Mandate Form together with the 'Nominee Shareholdings' section on the second page of the Mandate Form and confirm that the dividends attributable to such beneficial Shareholder(s) listed shall be applied towards participation in the Scheme and that the New Shares allotted under the Scheme are to be issued in the name of the nominee.
4. As soon as practicable after the issue of New Shares to a Participant in accordance with clause 3 above, the Scheme Administrator shall take all necessary steps to ensure that the Participant is entered onto the share register of the Company as the registered holder of those New Shares and that share certificates in respect of such Shares are issued and delivered to the Participant at his/her own risk. CREST members who have validly elected to receive New Shares will have their CREST accounts credited directly with the relevant New Shares.
 5. A statement shall be attached to each new share certificate issued to a Participant, or if Shares are held in CREST shall be sent separately to the Participant's nominee, setting out (a) the total dividend payable, (b) the number and class of New Shares allotted, (c) the price at which the New Shares have been allotted, and (d) the balance of any residual cash (notwithstanding that the same shall not be payable to the Participant in accordance with clause 3(c) together with any other such information as may be required by the Listing Rules.)
 6. All costs and expenses incurred by the Scheme Administrator in administering the Scheme will be borne by the Company.
 7. Shareholders who wish to hold their Shares in certificated form can apply by completing the Application Form or Mandate Form and returning it to:

Link Asset Services c/o Downing LLP, St. Magnus House, 3 Lower Thames Street, London EC3R 6HD

Shareholders who hold their shares in CREST can only apply to the Scheme by use of the CREST Dividend Election Input Message. In each case, the relevant action must be taken, and the Application Form, Mandate Form or CREST Dividend Election Input Message received, by no later than 5.00 p.m. on the record date for the relevant dividend.

8. If, prior to the day on which the Shares become ex-dividend, a Shareholder has sold or transferred all or some of his/her Shares in the Company, the Shareholder should consult his/her stockbroker or agent without delay as to how to proceed.
9. New Shares will be new ordinary shares issued by the Company and will, subject to the individual Shareholders' particular circumstances, attract VCT reliefs applicable for the current tax year. The tax reliefs currently available to investors in new VCT shares for the 2020/21 tax year in respect of investments of up to £200,000 per person are as follows:
 - i. Income tax relief of up to 30% provided the Shares are not disposed of (other than between spouses) within five years of issue. This relief is restricted to the amount that reduces the investor's income tax liability for the year to nil.
 - ii. No liability to income tax on dividends paid by the VCT.
 - iii. No capital gains tax on any gain or loss accruing to investors on a disposal of Shares in the VCT after five years of ownership.

Legislation introduced by the Government in its 2014 Budget restricts income tax relief on the subscription of new VCT shares where an investor has sold shares in the same VCT within the period of six months before to six months after the subscription. **Please note that this restriction does not apply to Shares subscribed for through dividend reinvestment schemes and so will not apply to New Shares subscribed for under the Scheme.**

10. Each Participant warrants to the Scheme Administrator that (a) save in the case of a shareholder holding its shares as a nominee, during the continuance of his/her participation in the Scheme he/she will remain the sole owner of the New Shares free from encumbrances or security interests; (b) all information set out in the Application Form, Mandate Form or CREST Dividend Election Input Message is correct and, to the extent any of the information changes he/she will notify the changes to the Scheme Administrator.
11. The right to participate in the Scheme will not be available to any person who has a registered address in any jurisdiction outside the UK. No such person receiving a copy of the Scheme documents may treat them as offering such a right unless an offer could properly be made to such person. It is the responsibility of any Shareholder wishing to participate in the Scheme to be satisfied as to the observance of the laws in the relevant jurisdiction(s) in connection therewith, including obtaining any governmental or other consents which may be required and observing any other formalities needing to be observed in any such jurisdiction(s).
12. Participants acknowledge that the Scheme Administrator is not providing a discretionary management service. Neither the Scheme Administrator nor the Company shall be responsible for any loss or damage to Participants as a

result of their participation in the Scheme unless due to the negligence or wilful default of the Scheme Administrator or the Company or their respective employees and agents.

13. Participants may:

- a) at any time by notice to the Scheme Administrator terminate their participation in the Scheme; and
- b) in respect of shares they hold as nominee, give notice to the Scheme Administrator that, in respect of a forthcoming Payment Date, their election to receive shares is only to apply to a specified amount due to the Participant as set out in such notice.

Such notices shall not be effective in respect of the next forthcoming Payment Date unless received by the Scheme Administrator on or before the record date of the relevant dividend. In respect of notices under (a) above, such notice will be deemed to have been served where the shareholding of the Participant reduces to nil.

14. If a nominee, prior to a Record Date, sells Shares on behalf of the beneficial owner of such Shares, the nominee agrees to notify the Scheme Administrator of the full details of the sale as soon as practicable. Neither the Company nor the Scheme Administrator shall be responsible for any loss or damage as a result directly or indirectly of a failure by a nominee to comply with such obligation.
15. The Company retains the absolute right to suspend or terminate the Scheme at any time without notice. In the event of termination, Dividends will be paid in full in cash in the usual way.
16. The Company is entitled to amend the Scheme and conditions on giving five business days' notice in writing to all Participants. If such amendments have arisen as a result of any change in statutory or other regulatory requirements, notice of such amendment will not be given to Participants unless, in the Company's opinion, the change materially affects the interests of Participants. Amendment to the terms and conditions of the Scheme which are of a minor/technical nature and which do not adversely affect the interests of Participants may be effected without notice.
17. By completing and returning the Application Form, Mandate Form to the Scheme Administrator or completing the CREST Dividend Election Input Message, the Participant (a) agrees to provide the Company with any information which it may request in connection with such application and to comply with legislation relating to VCTs or other relevant legislation (as may be amended from time to time); and (b) declares that a loan has not been made to the Participant on whose behalf the Shares are held or any associate of either of them, which would not have been made or not have been made on the same terms but for the Participant electing to receive New Shares and that the New Shares are being acquired for bona fide investment purposes and not as part of a scheme or arrangement the main purpose of which is the avoidance of tax.
18. An application will be made to the FCA for admission of New Shares to the Official List of the London Stock Exchange's main market for listed securities. The New Shares issued under the Scheme will rank *pari passu* in all respects with the Shares currently in issue.
19. Subscriptions by individuals for New Shares should attract applicable VCT tax reliefs (subject to the individuals' particular circumstances) for the current tax year provided that such subscriptions do not exceed £200,000. Where Shares are registered in the name of a nominee, the nominee shall notify the beneficial shareholder of the amount of any Dividend to which he/she is entitled and which is eligible for participation in the Scheme. The nominee should then complete the Mandate Form as appropriate and confirm that the Dividend attributable to the Shares held on behalf of such individual shall be applied towards participation in the Scheme and that New Shares are to be issued in the name of the nominee to be held on behalf of the relevant beneficial shareholder(s). Please note that Participants and beneficial shareholders are responsible for ascertaining their own tax status and liabilities and neither the Scheme Administrator nor the Company accepts any liability in the event that tax reliefs are not obtained. New Shares may not attract VCT reliefs and beneficial shareholders should obtain tax advice in relation to their own particular circumstances.
20. These Scheme terms and conditions shall be governed by, and construed in accordance with English law and each Participant submits to the jurisdiction of the English courts and agrees that nothing shall limit the right of the Company to bring any action, suit or proceeding arising out of or in connection with the Scheme in any other manner permitted by law or in any court of competent jurisdiction.

Shareholders in any doubt about their tax position should consult their independent professional adviser.
