

MI Downing UK Micro-Cap Growth Fund

August
2018

About the Fund

MI Downing UK Micro-Cap Growth Fund ("the Fund") aims to invest in a concentrated portfolio of between 25-30 UK companies within the Numis Smaller Companies Indices - typically those with market capitalisations between £20 million and £150 million.

The Fund seeks to generate capital growth, whilst retaining a strong focus on capital preservation. The Fund aims to outperform returns from other UK small-cap equity funds by selecting investments that the Manager believes are undervalued by the market.

Why Downing Micro-Cap?

- ▶ Experienced and qualified team headed by Judith MacKenzie.
- ▶ Private equity approach to micro-cap companies, drawing on Downing's private equity and venture capital heritage.
- ▶ Investment Committee oversight provides access to 100+ years of investment experience.
- ▶ Value strategy with rigorous bottom up approach.
- ▶ Exhaustive diligence process that can take up to 18 months.
- ▶ Concentrated portfolio of typically 25 to 30 investments which we believe provides diversification.
- ▶ Access to strategic investments.
- ▶ Only invests in profitable businesses with strong management teams and a sustainable competitive advantage.

Market commentary

In the month, the Fund was down 1.23%, underperforming the benchmark which was up by 0.25%. Positive contributors to performance included SysGroup plc (up 18.99%) and AdEPT Telecom plc (up 17.74%). Detractors included Redhall Group plc (down 13.55%) and Ramsdens Holdings plc (down 11.27%).

SysGroup reported a strong set of end of year results at the end of June, with financial highlights including record revenues, increased adjusted EBITDA and growth in adjusted profits before tax. It has been a transformational year for the group, with the acquisition of Rockford IT adding further capabilities and providing additional scale. AdEPT also posted a strong set of year-end results, reporting its 15th consecutive year of increased underlying EBITDA and increasing revenues and gross margins. AdEPT has an excellent quality of earnings and earnings growth and we believe that management has the right mix of organic and inorganic growth prospects to continue to deliver market-beating growth through the cycle.

Redhall reported in its interim results in June that its financial performance had been impacted by the timing of contract awards and programme delays and its turnover was down on the previous half of the year. However, the board anticipates that the full-year performance will be in line with expectations. Management reported it remains focussed on winning further contracts, with the objective of returning Redhall to meaningful levels of profitability. Ramsdens issued a positive set of results in June for the full year ended 31 March 2018. However, the share price fell as management reduced their holdings in the business. We believe the share sales were to allow the directors to take advantage of entrepreneur's relief and came post expiry of the lock-in provision put in place at IPO. Post sales, management still retain material shareholdings and we believe they are committed to the business for the long term.

Cumulative performance under Downing management

Risk warning: your capital is at risk. Investments & the income derived from them can fall as well as rise and investors may not get back the full amount invested. Investments in smaller companies will normally involve greater risk or volatility than investments in larger, more established companies. Performance figures above are taken from daily valuations provided by Maitland Institutional Services. Downing is responsible for Fund performance from 4 February 2011, the effective date of the investment mandate. Return is the total return (value of the investments plus cash including income after all expenses and charges), ignoring taxation. Please note that past performance is not a guide to future performance.
