

W. R. BERKLEY CORPORATION CELEBRATING 50 YEARS

In April 2017, W. R. Berkley Corporation will celebrate the 50th anniversary of its founding. Originally begun as an investment company in 1967 by William R. Berkley and Harvard Business School classmate, Paul Dean, W. R. Berkley Corporation is today a Fortune 500 insurance holding company operating worldwide in two segments of the property and casualty market: Insurance and Reinsurance.

1967

While at Harvard Business School, Bill Berkley and Paul Dean, with a \$2,500 investment, started Berkley Dean & Company, Inc., the precursor to W. R. Berkley Corporation.

It entered the property casualty insurance business in 1972 with the purchase of two regional Texas companies, Houston General Insurance Company and Traders & General Insurance Company and then went public in October 1973. Over the years, it expanded its operations strategically, entering markets and geographical regions where opportunities arose and when teams of experienced professionals with expertise could be found who shared our core values.

Today, the Company has 54 operating units spanning the U.S. and 15 countries worldwide that serve specialized markets defined by type of business, customer, distribution or territory.

OVER THE PAST 50 YEARS, W. R. BERKLEY CORPORATION HAS BEEN BUILT ON A FOUNDATION OF FIVE CORE PRINCIPLES:

Risk-Adjusted Returns:

We are focused company-wide on obtaining the best potential returns with a real understanding of the amount of risk being assumed.

People-Oriented Strategy:

We built our business around two things – people and capital. New businesses are started when opportunities are identified and the right talent is found to lead an enterprise.

Responsible Financial Practices:

We manage risk proactively. We have a strong balance sheet plus a high-quality investment portfolio.

Accountability:

We operate our business with an ownership perspective and a clear sense of responsibility to our shareholders and each other.

Transparency:

We believe in consistent and objective standards of measuring performance – and in using the same standards, regardless of the environment.

Most importantly, our business has been about people, and the expertise they bring to bear in all that we do.

We have succeeded over the years because of teamwork - and the individuals who make up those teams who every day, in every location, go the extra mile. We believe our strong, consistent results are a direct reflection of our culture of working together with shared values for a common goal and a common good. We live and work by our guiding principle: **“Everything counts, Everyone matters”**

Throughout each market cycle, our focus on meeting the needs of our customers with knowledge and expertise has enabled us to deliver superior value creation to our shareholders. Our unique long-term perspective, combined with a constant examination of risk, provides us with confidence in our ability to continue to excel over the next fifty years and beyond. While industry participants come and go, we have the expertise and resources to utilize our strengths in any environment to meet the demands of a rapidly changing world, and the flexibility to anticipate, innovate and respond to whatever opportunities and challenges the future may hold.
