Our purpose is to connect, educate, care and prepare students to become the leaders and global citizens of tomorrow. Together with our students and partners, we are creating a better world through the power of global education.

Why choose Study Group?

Study Group is a trusted global educator that works with more than 50 university partners globally. We deliver high quality pathway programs and degree solutions that empower students to succeed in their studies and future careers.

We educate

We offer academically rigorous programs that bridge the gap for students who need academic and English language support, all carefully aligned with your students' needs.

We prepare

We ensure students are ready for university by offering tailored academic and language programs so they can progress with confidence and success.

We connect

We connect students with broader and more diverse opportunities through our educational bridging and degree study solutions.

We care

We provide a supportive environment so that students quickly adapt, thrive and feel at home. Students settle well and progress seamlessly in a supportive learning environment.

Study in the USA

The USA is home to world-renowned institutions, with faculty-led research in state-of-the-art labs and facilities, internships, and practicums. Here, students gain hands-on learning from the start.

More than 1.1 million international students are currently studying in the USA.

Diverse programs

Our university partners are some of the first and most recognizable in the US for degrees in AI, computer science, data science, business analytics and more.

Career opportunities

Our university career and international support services help international students prepare for jobs, connect with alumni networks and identify Optional Practical Training (OPT) and STEM-extension OPT for work experience in the US beyond graduation.

Support

Our teams help international students from application to arrival, ensuring you're supported from day one, whether you are enrolling by direct entry or into an English language program.

Choosing to study in the USA is a bold step, one that's exciting, ambitious and full of possibilities.

Success takes more than just access to university. It takes confidence, preparation and a strong beginning.

That's why Study Group is the smartest choice for students who want to thrive at a US university. We guarantee the strongest beginning by helping students

- Apply for direct entry to our leading universities that welcome international students
- Prepare for degree studies and improve English skills through our pathway and English language programs

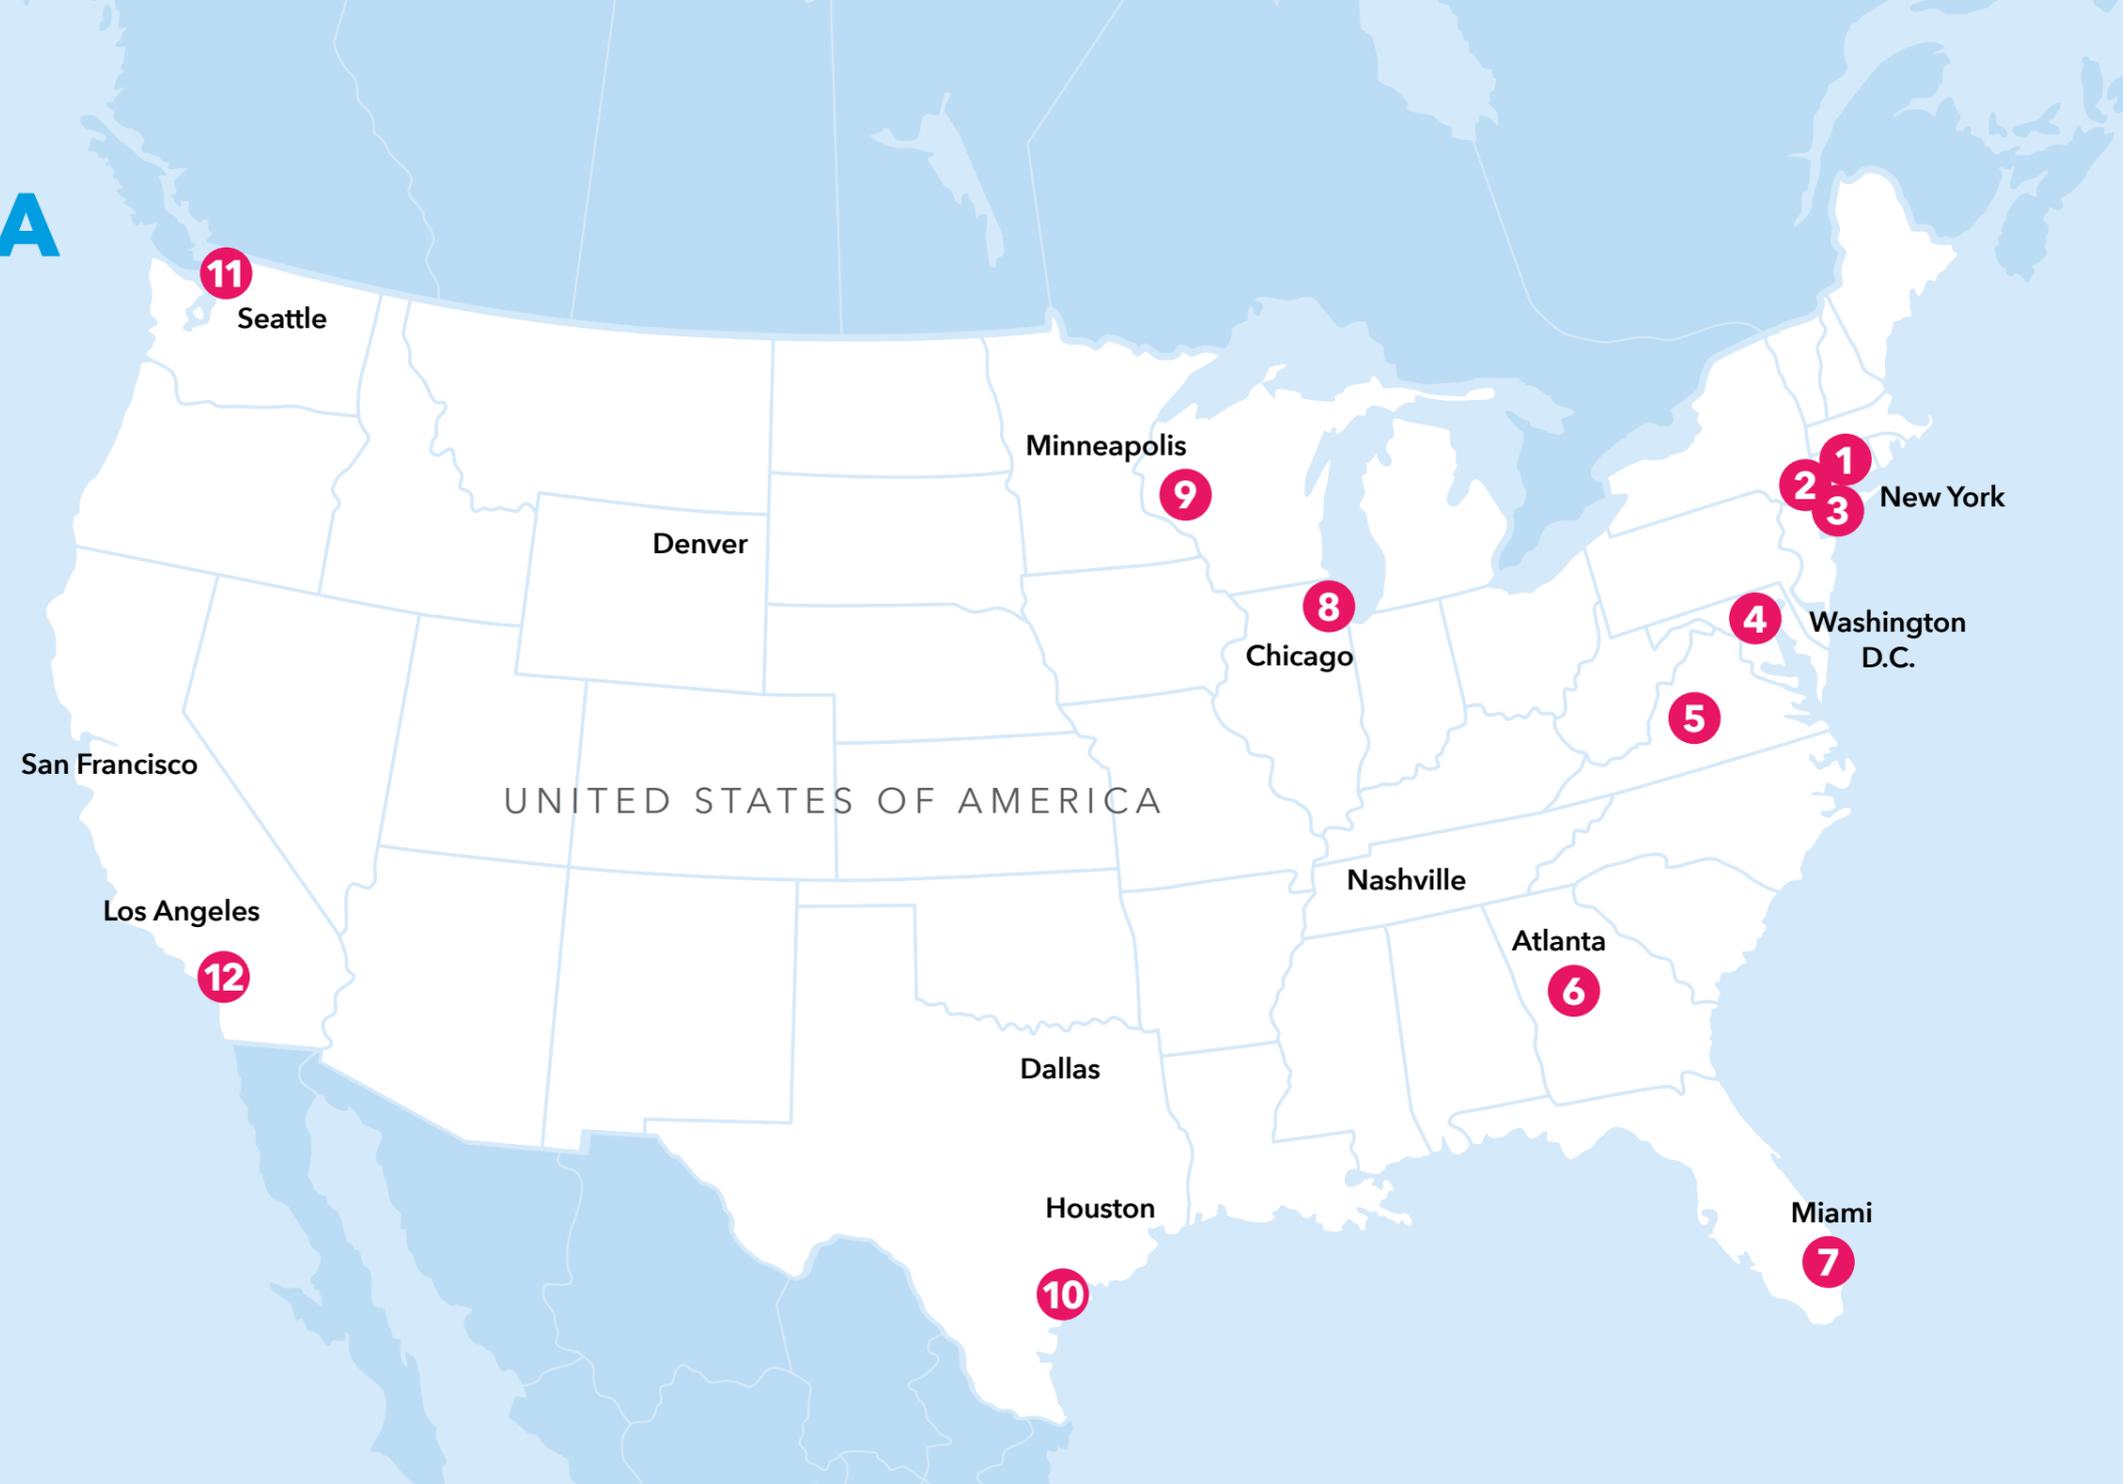

Choose the USA

- Improve chances of future success
- Guarantee the skills for the chosen career
- Be inspired by classmates and professors
- Build opportunities

From bustling New York City to sunny California, we offer universities of every size for every lifestyle.

Find us in the USA

- 1** University of Hartford
- 2** Long Island University
- 3** New Jersey Institute of Technology
- 4** Towson University

Choose your study option

We connect students with highly respected universities so they can reach their academic goals in globally recognized programs.

In the USA, students have a variety of options for studies

- Direct Entry: Enroll directly at one of our university partners and your studies on day one. Choose from wide range of university programs for your Bachelor's or Master's degree.
- Pathways: Build the academic, English language and social skills needed for university success while gaining the preparation and confidence to succeed.
- Intensive English programs: Improve your English language skills to succeed in a university degree program.

Our expert teams help students choose the best option for you, ensuring that you can access

- In-demand STEM degrees that international students prioritize in a global job market
- Career-focused education to develop employability skills and professional development
- Opportunities for internships and training, making students highly skilled and work-ready

“ I find that everyone is very friendly and they help a lot. Whoever you meet, they’re guiding us and they’re including us. And the professors, they’re a huge help.”

Sreelekha from India

The smartest choice to start university

From top-ranked universities to world-leading faculty and advanced research facilities, the USA isn't just about academic choice. Here, students begin the story they will tell for the rest of their lives. It's where they realize the world is bigger than they ever imagined.

Opportunities that take you further

“The reason I studied abroad in the US was because of its academic excellence and research opportunities. I'm much more interested in the research aspect of my major. So, I love the fact that the US provides good research opportunities for us to work over here and gain knowledge and expertise in this field.”

Mir from Bangladesh

Support at every step

“The Career Center is of great importance in the university. They're the main people you go to get you ready for the outer world after you graduate. And then comes the Advising Center. My advisor is great. She has supported me from the start of my education.”

Jaysingh from India

A hub for innovation

“The US has a high standard of academics and world-class facilities. Also, most top-notch and high technology companies gather in the United States. The US is a home where the future is born and will be born. And it also means that I can find a lot of internship programs to take advantage of practical experience and get set to get a better job in the future after I graduate.”

Mary from Vietnam

Find your perfect place

“There are people from all over the world, so if you're having difficulties, I'm sure you're going to find somebody here who's from the same culture or similar kind of style that a student's coming from. And if you've never been outside of that culture, that comfort zone, it's just very welcoming.”

Henrique from Brazil

NORTH COUNTY SAN DIEGO

Agents have access to Study Group's Agent Portal - a one-stop shop for everything you need in your partnership with Study Group.

Applications

Submit applications simply with our online application form then view the live status of applications or upload student documents using the 'Manage My Applications' feature.

Financial data

View your commission statements and remuneration details. Access is restricted to authorised contacts only.

News

Stay up-to-date with the latest industry insights and news from Study Group, the universities that we work with and the higher education sector.

Training

Gain specialist knowledge on our processes, programs, skills and the universities we work with on our self service e-learning platform.

Marketing materials

Access our marketing library to download flyers, student testimonials, social media graphics, brochures and more to promote our courses and counsel your students.

Events

Find out about upcoming webinars and events for Study Group Higher Education agents.

Find a course

Search, shortlist, compare, save and share information about the courses we offer with your students.

Help and support

Have a question about entry requirements, scholarships, programs, commission payments or something else? Check our help topics, try our live chat, raise a support request or speak to one of our admissions experts on the phone.

Agent Code of Conduct

Study Group expects all agent representatives to follow our Code of Conduct. As a signatory of the UK Agent Quality Framework, we uphold its standards and best practices, working closely with agents to maintain ethical standards and support student choice.

“The new functionalities are time savers! The automated feature for document upload helps us to complete the pending actions instantly.”

Fateh Education Consulting Pvt Ltd, India

“The new functionalities made the application process faster and easier, the chat feature is excellent as we can clear queries within no time.”

Eccho Immigration Consultants Pvt Ltd, India

Your success, our purpose – together we create a better world through education

We don't just prepare students for university – we prepare them for life. By fostering global perspectives, critical thinking, and cultural intelligence, we equip international students to thrive in a world shaped by technology and collaboration. Our support ensures they successfully progress to university studies, and graduate ready to lead, connect, and make a lasting impact - locally and globally.

The value of global education

In today's world, global education is transformational. As AI and technology evolve, the ability to think critically, adapt, and collaborate across borders sets students apart. International education builds cultural awareness, resilience, and confidence. Employers want more than qualifications – they want graduates who can lead, connect, and contribute. Study Group helps you start students on the right path.
