Boost your career prospects **in London**

Get a competitive edge in the global workplace by choosing to study a degree at the University of Huddersfield - London.

At the University of Huddersfield - London, you'll get the best of both worlds: career-focused teaching in the UK's capital, with degrees awarded by the University of Huddersfield – recognised with an outstanding Gold rating for undergraduate student experience and outcomes by the Teaching Excellence Framework 2023 and named 'Business School of the Year 2023' by the Times Higher Education Awards.

With career-focused academic programmes based in the UK's centre of business and industry, you'll be in the best position to get noticed by global employers.

5 QS Stars for employability

The University of Huddersfield has been awarded five stars by QS Stars University Ranking (2024), the maximum score within its international benchmarking system.

Why choose us?

Teaching at the University of Huddersfield - London is centred around preparing you for future career success, but that's not the only reason why you should choose to study with us.

When choosing a degree at the University of Huddersfield - London you will benefit from:

World-class education

The degrees at the University of Huddersfield - London are taught by Study Group, a leading international education provider with decades of expertise, and awarded by the University of Huddersfield.

As an extension of the University of Huddersfield, our courses match the same high academic standards as those taught at the University. Huddersfield Business School holds AACSB accreditation – an achievement earned by less than 6% of business schools worldwide. In London, we will be delivering these AACSB-accredited business management programmes.

A focus on your career

You'll be supported by our Director of Industry and Engagement, who has over a decade of experience, helping you build in-demand skills and connect with valuable industry opportunities.

Key initiatives to boost your employability include:

- **Live briefs:** Work on real-world challenges set by industry experts in consultation with our academics.
- **Guest speakers and visiting faculty:** Learn from leading academics and professionals in business management and computing.
- **Networking events:** Build connections with industry professionals and peers at regular events.
- **Career coaching:** Get personalised support to define and achieve your career goals.

In addition, you'll benefit from the following specialist support services:

- **Student Circus:** A dedicated job search portal tailored for international students in the UK, with 4,000+ employers and verified listings from 1,000+ companies that can sponsor international graduates.
- **CareerSet:** An AI-powered platform that helps you assess and optimise your CV, cover letters and LinkedIn profile.

Guidance from experts who are committed to your ambitions

All tutors will be research-active academics with a PhD / other advanced degree, and hold / or are working towards Fellowship status with the Higher Education Academy (HEA).

Interactive classes, bigger impact

Teaching will be delivered through lectures and seminars/workshops and will be interactive to help support your learning. You'll benefit from exceptional teaching and will also be part of a learning environment where lecturers know your name, understand your goals and can support you as an individual.

You'll also benefit from:

- **Tailored academic support** to help you reach your potential.
- **Engaging sessions** where your voice is heard.
- Stronger communication and presentation skills developed through **active participation**.
- Closer connections with peers and lecturers, building a **supportive academic community**.

A prime London location

You'll be right in the heart of the capital, surrounded by some of the world's biggest and most innovative companies. This proximity to major business, tech, and creative hubs puts endless career opportunities within easy reach.

Our tuition fees are same as the University of Huddersfield, making us a competitive choice compared to other London universities. From budget-friendly to premium accommodation choices, you can easily tailor your London experience to suit your lifestyle and needs.

Excellent resources

As a University of Huddersfield - London student, you'll have full online access to the University of Huddersfield's extensive library services. This includes academic journals, specialist databases, market research reports, company and financial information, and global news sources – giving you the tools to excel in your studies and research.

You'll also benefit from:

- 1:1 sessions with subject librarians.
- Library induction and regular "Library Live" skills workshops.
- Access to LinkedIn Learning for self-paced professional development.
- The SCONUL Access scheme, allowing you to use other participating university libraries across the UK.

"I have a decade of industry engagement experience within higher education focused on employability, entrepreneurship, and internationalisation. I look forward to connecting you with London's vibrant business and technology ecosystem from our cutting-edge campus, through professional networking, real world experiences, inspiring industry speakers, and dedicated careers support."

Matthew Jayes

Director of Industry and Engagement

A world's best student city

London offers an exceptional experience for international students, blending diverse cultures, rich history, and endless career opportunities.

Global careers start here

As a global business capital, London is home to thousands of companies, including major multinationals like HSBC, Citibank, Amazon, and Apple. This makes London an ideal place to launch your global career. The University of Huddersfield - London offers real-world industry experience into its curriculum, ensuring you graduate with the skills and connections needed to succeed.

The city offers plenty of opportunities for internships, placements, part-time jobs and graduate roles, which may be available to you depending on your visa.

Working in the UK

Your Student visa allows you to work up to 20 hours a week during term-time, so you can gain career skills alongside your studies. After graduating in the UK, you can access the Graduate Route visa that allows international students to remain in the UK for a limited time after completing their course.

Where everyone is welcome

London's diversity is one of its greatest strengths, creating an inclusive and welcoming environment for international students. With more than 300 languages spoken, London is truly a global city where you'll find a sense of belonging, no matter where you're from. The city celebrates its multiculturalism through numerous cultural events and places of worship, including St. Paul's Cathedral, central London mosques, temples, and more.

The city is famous for its festivals and events throughout the year, including the Notting Hill Carnival, the Thames Festival, and seasonal markets such as Greenwich market, just a short journey from the University of Huddersfield - London.

Experience London for yourself

There's a reason students and professionals from across the world enjoy the benefits of living in London. The city offers plenty of entertainment options including, countless live music and sports venues, theatres, cinemas, karaoke, cafés and comedy clubs. There are also opportunities to explore arts and culture, with many galleries and museums offering free admission or discounted prices for students.

From iconic landmarks like the Tower of London and Buckingham Palace to world-renowned shopping districts such as Oxford Street, Covent Garden, and Spitalfields Market, the UK's capital is full of things to do. Whether you're exploring museums like the British Museum, enjoying the latest in art and music, or shopping at one of the hundreds of international supermarkets, London's diverse culture never disappoints.

Life on campus

The University of Huddersfield - London is located close to some of London's most important financial and technological business hubs including Canary Wharf. You will study in a modern building with excellent teaching and learning facilities.

Sugar House Island organise a variety of free and paid events throughout the year, giving you a chance to make friends with locals living on the Island. Here are a few examples of some activities to give you a feel for what's on offer:

- Island Summer Social
- Spin classes at Island Bikes
- Flavours of the month
- Exhibitions
- Spaces to watch your favourite football matches.

On the move

London's extensive network of public transport and six international airports make it easy to explore job opportunities both in the UK and abroad.

Ranked world no.3 student city

(QS Best Student Cities Index 2026)

Docklands Light Railway (DLR)

London Underground

Undergraduate degrees that launch careers

Shape your future at the University of Huddersfield – London, where you'll gain valuable skills, industry experience, and the confidence to thrive in today's global job market.

Our undergraduate programmes give you the skills, experience, and professional edge employers value – all in a supportive, close-knit environment.

93% of the University of Huddersfield undergraduate students go on to work and/or further study within fifteen months of graduating.

(HESA Graduate Outcomes 2022/23, all domiciles. Graduates not reporting work or study but reporting other activities such as travelling, caring, or retired are excluded)

With tuition fees aligned with the University of Huddersfield, and a wide range of living options to suit all budgets, you can enjoy all the benefits of London student life without the premium price tag.

You will also benefit from:

Lectures and tutorials

Learn through a mix of lectures and tutorials, giving you the chance to share ideas, build confidence, and learn from your peers.

Expert teaching

Our teaching staff are highly qualified and bring up-to-date industry and research insights into the classroom.

Close-knit learning community

Focused, interactive classes where lecturers know your name, support your goals, and help you develop confidence and communication skills.

Personal Academic Tutor

Meet regularly with a dedicated academic for personalised guidance, progress checks, and tailored support throughout your studies.

Skills-based learning

Your degree is designed to equip you with practical skills you can apply from day one in the workplace. Through projects, presentations, group work, and real-world case studies, you'll develop problem-solving, communication, and teamwork skills, alongside the specialist knowledge of your subject area. This hands-on approach ensures you are graduate ready to meet the demands of today's employers.

ASPIRE modules

Integrated into our business undergraduate degrees, ASPIRE is designed to help you build the skills, knowledge, and professional qualities employers value, giving you an edge in the graduate job market.

Global Professional Award

Alongside your degree, you can complete the Global Professional Award, developing skills in:

- Employability and enterprise
- Global and social awareness
- Wellbeing.

On completion of the Award, you'll receive a GPA certificate from the University of Huddersfield, alongside the specialist subject skills and knowledge you gain as part of your degree, which will help set you apart from other graduates.

Giving students access to the Global Professional Award is one of the reasons the University of Huddersfield won 'Best University Employability Strategy' award at the National Graduate Recruitment Awards 2021.

Optional Placement Year

In your third year, you'll have the option to take a placement in the UK. This year in industry will help you build your CV, apply your knowledge in a real-world setting, and grow your professional network. Graduates with work experience are highly sought after by employers and we will support you to find the right opportunity to make you stand out.

Key facts

Programme start date: September

Duration: 3 years full-time or 4 years including Placement Year

English language entry requirement: IELTS 6.0 overall with no skill lower than 5.5, or equivalent*

Academic entry requirement: BBB-BBC at A Level or equivalent

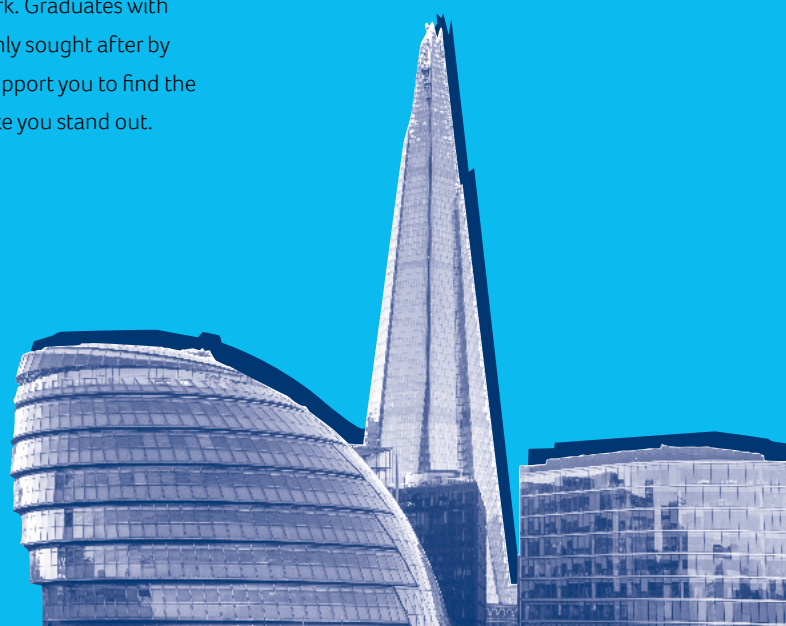

For information including the fees and country-specific entry requirements, visit london.hud.ac.uk/programmes/undergraduate

*We accept a wide range of English language tests and local equivalencies – no Secure English Language Test required.

Pre-Sessional English

If you don't meet the English language entry requirements for the undergraduate course, you can take our Online Pre-Sessional English course first. This flexible programme builds your language skills and academic confidence, preparing you for success at university.

Visit london.hud.ac.uk/programmes/pre-sessional-english for more information.

Undergraduate programmes

Your undergraduate degree is more than just a qualification, it's your launchpad into a successful career. You will gain the knowledge, skills, and confidence to achieve your ambitions, supported every step of the way by a team who believe in your potential.

Our three new undergraduate degrees: Business Management, International Business, and Computer Science, are available with an optional Placement Year. Whichever route you choose, you'll benefit from an education designed to prepare you for real-world success, with interactive classes and opportunities to put your learning into practice.

From CV and interview coaching to industry workshops, networking events and exploring London's business and innovation landscape, we ensure you're ready to seize every opportunity. Our career team works closely with academic staff and shares expertise with the University of Huddersfield's careers network to deliver excellent employability support.

Hear from a University of Huddersfield student

"I chose my course because it's an interesting, diverse subject that opens many different career paths. Another important reason I chose this degree was because of the placement year it offered, where I could gain valuable work experience that would help prepare me for the working world after graduation. My placement year at CrossCountry Trains exposed me to a working environment, giving me the opportunity to grow professionally and personally. A placement year really opens pathways, and there is nothing to lose but everything to gain, so I really recommend you consider one."

Sana Naz

Studied Business Management BA(Hons)
Secured a Placement Year at CrossCountry
as a Stations Team Placement student

Business Management BA(Hons)

Business Management with Placement BA(Hons)

Gain the industry knowledge and leadership ability to face challenges and devise creative solutions to problems faced by businesses across multiple industries. By the end of the course, you'll be prepared to step with confidence into the workforce as a business leader in a range of exciting fields in the industry.

Core modules

Year 1

- ASPIRE 1 – Personal and Professional Skills
- Business Analytics
- Global Business Management
- Organisational Behaviour
- Principles of Marketing

Year 2

- ASPIRE 2 – Live Business Project
- Creating a New Business
- Data Analysis for Business
- People Management

Year 3: Optional Placement Year

The course offers an optional one-year work placement after the second year to build vital experience, apply your knowledge to a real-world business environment, grow your professional network and learn new skills. The Placement Year is a valuable tool that can enhance your employability and help you to develop as an individual. It is acknowledged that graduates with industry experience are generally much more attractive to employers.

London offers unmatched access to global employers across established and emerging sectors. Many of these businesses recruit students to their formal placement programmes through competitive processes. Through our ASPIRE modules and personalised careers support, you'll learn how to showcase your skills and achievements effectively – from CVs and applications to assessment centres, interviews, and even emerging AI-driven processes. We partner with leading platforms such as CareerSet and Student Circus to provide you with access to digital tools and 24/7 guidance, as well as the latest placement opportunities in London and beyond.

Our specialist industry engagement team builds relationships with individual businesses and business networks to provide access to unique opportunities and a wider range of placement opportunities with start-ups, small and medium sized businesses, or other types of organisations in which you can apply and develop your skills.

Final year

- ASPIRE 3 – Professional Portfolio
- Responsible Business
- Strategic Management

Option modules (in the final year)

Choose two, which may include:

- Business and Climate Change
- Business and the Entrepreneur
- Creative Consultancy Project
- E-commerce
- Ethical Leadership
- Human Resource Development
- International Marketing
- Marketing for Small Business
- The Future of Work
- The Psychology of Work & Organisations

Or you may choose to do a Business and Management Dissertation.

Undergraduate Dissertation

This module is an opportunity for you to conduct a research project in an area of business and management that relates to your personal and professional interests. You'll work one-to-one with an experienced supervisor who will help you develop and implement your research ideas. This module will not only deepen your knowledge of a particular business and management topic, but also help you build your practical research and report writing skills.

Modules are indicative and are subject to change.
Please see london.hud.ac.uk for the latest information.

Master your career with a **postgraduate degree**

Take the next step towards your career ambitions with a postgraduate study at the University of Huddersfield – London.

94% of University of Huddersfield postgraduate students go on to work and/or further study within 15 months of graduating

(HESA Graduate Outcomes 2022/23, all domiciles. Graduates not reporting work or study but reporting other activities such as travelling, caring, or retired are excluded)

Why study a Master's with us?

We're committed to providing the highest quality education, that's why you'll be learning from industry leaders who are both accomplished and passionate about their fields. You'll benefit from:

Lectures and tutorials

Learn through a mix of lectures and tutorials, giving you the chance to share ideas, build confidence, and learn from your peers.

Expert teaching

Our teaching staff are highly qualified and bring up-to-date industry and research insights into the classroom.

Close-knit learning community

Focused, interactive classes where lecturers know your name and support your goals.

Personal Academic Tutor

Meet regularly with a dedicated academic for personalised guidance and support.

Block teaching

Master's students follow a three-day* timetable, giving structure and flexibility for study, work, and life in London.

*Subject to 2026/27 timetabling.

Hands on learning in a world-class city

Our postgraduate programmes are designed with a key focus on your career development. You'll not only gain a deep knowledge and critical understanding of concepts and strategies, but you'll be prepared with the practical skills needed for professional management and leadership roles. On some postgraduate taught degrees, you'll also be able to tailor your course to your own career interests by choosing from a number of module options.

How we support your career development

Students at the University of Huddersfield – London benefit from career-focused learning and specialist services designed to boost your employment prospects and help you find your dream job.

Our on-campus Director of Industry and Engagement supports you from day one, helping you build real-world skills and connect with industry opportunities.

We will also support you in identifying future career paths in line with your aims and ambitions, as well as help you understand and build the skills required to succeed in these sectors.

You'll have access to CareerSet's platform which provides instant, AI-driven feedback to refine your CV, cover letters, and LinkedIn profile. You'll also be set up on Student Circus's job search portal which offers international students access to visa-sponsored job listings, placement opportunities, and expert immigration advice.

Key facts

Programme start dates:

September or January[^]

Duration: 1 year full-time

English language entry requirement:

IELTS 6.0 (with no skill below 5.5) or equivalent^{*}

Academic entry requirement: A Bachelor's degree from a recognised institution (in a related subject for Computing MSc)

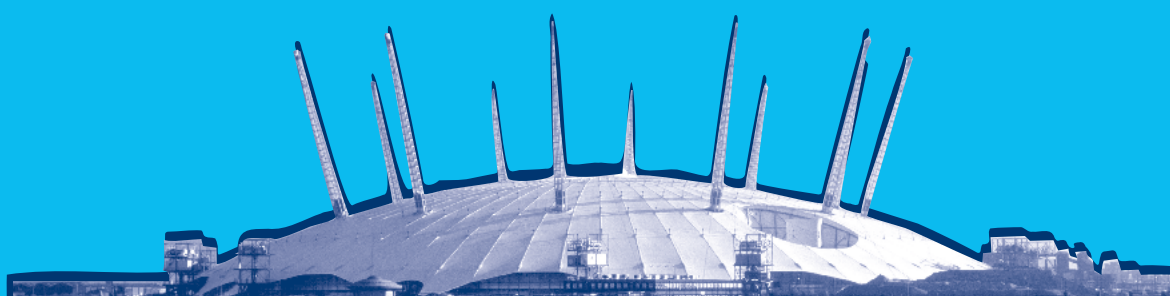

For information including the fees and country-specific entry requirements, visit london.hud.ac.uk/programmes/masters

[^]Please note that first teaching for Fintech MSc and Accounting and Finance MSc will commence from September 2026 onwards.

^{*}We accept a wide range of English language tests and local equivalencies – no Secure English Language Test required.

Pre-Sessional English

If you don't quite have the English language levels for the postgraduate course, you can take our online course first. Our Pre-Sessional English Programme Online is designed to help you build the English language and study skills needed to successfully begin your chosen Master's degree. Visit london.hud.ac.uk/programmes/pre-sessional-english

Postgraduate taught programmes

Study a Master's with the University of Huddersfield - London and tailor your qualification to your own personal and career interests. Available on selected courses, our interdisciplinary option modules allow you to broaden your learning and get the most out of your studies.

Through our business-related Master's you can pursue a number of careers, such as management consultant, sales manager, business development manager, human resource manager, business advisor, account manager, PR manager, recruitment consultant, director, project manager. Or choose a computing Master's and pursue careers in security, web development or information technology.

All students on a business-related Master's complete a **Project**. This project offers an opportunity to explore an area of personal interest or passion. You have a **choice of three routes**: Individual Research Route, Consultancy Route and Entrepreneurship Route.

As part of your computing studies, you'll complete an **Individual Project**, working independently on a problem of your choice. Wherever possible, you'll be encouraged to undertake this project in collaboration with an external client, gaining valuable industry experience. Throughout the programme, you'll receive dedicated support to help you build your professional network and explore your specialist interests.

Accounting and Finance MSc*

Deepen your understanding of accounting and develop your skills to thrive in today's financial world. Explore key aspects of corporate finance and gain a comprehensive understanding of regulatory and governance issues that affect financial management from an accounting perspective, developing your ability to make informed decisions in a highly regulated global landscape. To further enhance your learning experience, you will have access to industry-standard software and real-time financial data, offering hands-on experience that reflects the challenges faced by finance professionals today.

*Please note that first teaching for Accounting and Finance MSc will commence from September 2026 onwards.

Core modules

- Contemporary Issues in Accounting and CSR

- Leading Managing and Developing People
- Strategic Management
- The Curious Mindset

Hear from a University of Huddersfield student

"I studied the Master's in Management at the University of Huddersfield in Yorkshire. The engaging course content, excellent teaching quality, and diverse environment enriched my learning and boosted my career. The practical insights and confidence gained led to a promotion and several career highlights, including working for a dynamic start-up, and expanding my professional network globally."

Marija from Latvia

Studied Management with Entrepreneurship MSc
Now works at Tribal Impact as an Account Manager

Computing MSc

Develop advanced skills to make critical enquiries and implement analytical approaches to complex IT practices. Focus on the theory and practice of software development, with the opportunity to specialise in advanced areas of software development. Gain the skills to design and construct high-quality software systems. You'll finish the programme with a deeper understanding of systematic approaches, tools and techniques for systems development and the ability to embed them all within suitable frameworks.

Core modules

- Autonomous and Autonomic Intelligent Systems
- Data Mining
- Databases for Large Data-sets
- Effective Research and Professional Practice
- Individual Project
- Machine Learning
- Semantic Web
- Software Development
- Web and Network Services

Practical experience

In the final Individual Project module, you'll be able to put your experiences and skills to the test by working independently on a project related to a self-selected problem, either for an external or internal client.

Fintech MSc*

Demonstrate a conceptual and critical understanding of theories, principles and concepts that underpin the application of data technologies to the financial services sector. Master core subject knowledge and techniques in Fintech and apply them to real or theoretical issues to propose solutions to complex real-world business issues. Develop a professional self-development plan relevant to a career in Fintech, demonstrating self-direction, personal awareness of intercultural dimensions, sound judgement, ethical decision making and personal responsibility.

*Please note that first teaching for Fintech MSc will commence from September 2026 onwards.

Core modules

Support and accommodation

Support

At the University of Huddersfield – London, you'll find services and support networks to help you thrive in your studies and social life.

Health and wellbeing support

As soon as you arrive at the University of Huddersfield – London, our team of experienced, friendly lecturers and support staff will help you settle in and make friends through organised activities. You'll also be able to speak to our Welfare Officer who will help you with any problems.

Student support

Our Student Experience team can help you with practical matters such as managing your finances, and accommodation.

Student Assistance Programme

Provided by Health Assured and Endsleigh Insurance, the Student Assistance Programme is designed to help you manage your mental health and wellbeing. You'll have access to a counsellor-led service 24 hours a day, 7 days a week. You'll also be able to track your health and fitness such as water intake and sleep through a health hub.

Student insurance

We strongly recommend that international students have the protection of personal insurance whilst in the UK. You may wish to purchase our "StudyCare Insurance" cover or arrange your own.

Visit our website for more information studygroup.com/studycare.

Scholarships

We offer a variety of scholarships to provide extra financial assistance with the costs of study to eligible students. Speak to your representative to find out more.

"I am a transformative educational leader with almost 20 years of experience spanning higher education, international pathway programmes, and English language teaching. At the core of everything I do is a commitment to enhancing the student experience, upholding the highest standards of safeguarding, and driving operational excellence.

My career has taken me across the UK, Australia, Poland, Portugal, and Italy, giving me invaluable insight into the challenges and opportunities of adapting to new cultures and educational systems. This global perspective continues to inform my passion for supporting students from diverse backgrounds.

I am dedicated to supporting students on their academic and personal journeys - every step of the way."

Beverley Simon

Student Experience
& Operations Director

Accommodation

A wide range of student accommodation is available in Stratford and the surrounding areas to suit all budgets. You can choose from purpose-built student residences or private rental apartments – many within walking distance of campus.

We've partnered with Amber, a trusted student accommodation platform, to make booking your home simple and secure. Options include fully furnished standard, en-suite, and studio rooms to suit all budgets.

Once you confirm your place, we'll contact you to support you with arranging accommodation.

Alternatively, you can secure your own accommodation independently, but we advise that you live no further than a 60-minute commute from the campus.

How to apply

If you would like to apply to study at the University of Huddersfield - London, you will need to complete an application form and submit the relevant documentation. You can apply through your local education agent. Alternatively, you can apply directly via our website and one of our dedicated Student Enrolment Advisors will be happy to provide support through every step of the application process. For more information on how to apply, fees, entry requirements and more, please visit london.hud.ac.uk

Disclaimer

This guide is provided for general information purposes only for students considering entry to the University of Huddersfield - London from September 2026. The University of Huddersfield - London is operated, and its programmes are offered, by Study Group Limited ("Study Group"). This guide does not form part of any contract between you and Study Group, except as expressly stated below.

The information contained in this guide is prepared in advance of the relevant academic year, and Study Group takes reasonable steps to ensure its accuracy at the time of publication. However, Study Group cannot guarantee that any programme or service described in this guide will be available as described. Programmes and services may be subject to change or withdrawal due to circumstances beyond Study Group's reasonable control. Such circumstances may include, but are not limited to, industrial action, insufficient demand, key personnel changes, changes in government policy or funding, legal or regulatory changes, or disruptions caused by pandemics or other public health emergencies.

In the event of any such changes, Study Group will take reasonable steps to minimise the impact on students and, where possible, will provide notice of any alterations or withdrawals as soon as practicable. In such cases, Study Group may offer alternative programme options or permit withdrawal from the application process without liability for fees (including enrolment fees).

Please note that the University of Huddersfield - London website provides the most current source of information regarding available programmes and facilities. We strongly advise that you consult the website before making any final decisions or commitments.
