Why choose Durham University?

A globally outstanding centre of teaching and research excellence, a collegiate community of extraordinary people, a unique and historic setting – Durham is a university like no other.

Research-led education
As part of a diverse group of exceptional students and staff, you will be challenged and inspired in equal measure to push boundaries and look for new ways to answer the big questions.

Excellent study facilities
Continual investment means that you have access to excellent facilities, including high-quality lecture theatres, seminar rooms and subject-specific facilities such as science laboratories and libraries.

Inspiring you to achieve
When you study at Durham, you will graduate with so much more than a degree. You will have the chance to develop your skills, explore your career options, and ensure you have the best possible start to your future.

Unrivalled student experience
You will be warmly welcomed into our vibrant community. Whatever your interests, you can get involved in a huge range of activities, clubs, associations and volunteering.

Your journey starts at Queen's Campus

Durham University International Study Centre is located at Queen's Campus, Stockton-on-Tees. Modern and purpose-built, Queen's Campus offers high-quality facilities and study resources with riverside views.

International environment

Queen's Campus is home to international students preparing for study at Durham University. Welcoming students from all around the world, the campus provides a friendly and supportive environment for you to adjust to life in the UK.

Stockton and beyond

There are many places where you can relax, including the theatre, cinema and dance studio at the local arts centre. The Teesside shopping and leisure complex is a great place to meet friends for a game of bowling or pizza.

Popular with students, Middlesbrough is a larger town just 10 minutes away by train. Close to Durham is the city of Newcastle, offering great opportunities for shopping as well as a lively music and social scene.

Discounted bus travel makes it easy to explore the local area. From just £2.70 a day, you can enjoy unlimited bus travel between Middlesbrough, Durham and Newcastle.

If cities are not your scene, the English countryside around Stockton-on-Tees offers riverside walks, green spaces and the historic Preston Park. Nearby Yarm is a picturesque village with a charming high street, cafés and riverside views, perfect for when you want a break from city life.

Visit our Instagram (@durhamisc) to watch our student Q&As and discover more about the enrichment opportunities available at the International Study Centre.

Preparing you to progress

Durham Ready is about making your transition from the International Study Centre to Durham University as smooth as possible and ensuring you are ready to succeed. You will have talks from Durham University academics during your time at the International Study Centre, visits to the academic departments, as well as to the university as part of offer-holder visit days. All of this helps to ensure you will have the confidence to progress to Durham.

Enrichment opportunities during your pathway programme

Student life at Durham is about more than just your learning in the classroom. At the International Study Centre, you have a unique opportunity to develop and improve yourself.

Arts and Culture - Alongside the music room on Queen's Campus, which is ideal for practising your favourite instrument, we also work with the local community to create opportunities for you to play music in front of an audience.

Community and Leadership - Build up your network and key employability skills with volunteering opportunities, created in collaboration with Durham University. You can also take part in the Student Leadership Programme.

Sports and Wellbeing - Make use of Durham's sports provision and facilities. There is a sports park on campus, which has benefitted from £47 million of investment since 2012. There are competitive sports teams you can join including football, table tennis and basketball. We also have a dedicated Wellbeing Week to ensure you feel supported. Once you progress to Durham University, you will have full access to all the sporting offerings at both university and college level.

GRADUATE **SUCCESS STORY**

Name:
Dana

From:
United Arab Emirates

Studied:
International Foundation Year in Science and Engineering

Graduated with:
BSc (Hons) Psychology

"The International Study Centre essentially helps you prepare for the course that you're entering at Durham University. It taught me all of the basics, all of the foundations that I needed to know for my specific course in psychology. And that includes everything from writing skills, essays, speaking skills, presentation skills, all of the psychology foundation skills that I need. And it essentially turns you into a Durham student before you enter Durham University."

Settle into student accommodation

A place you can call home while you are studying at the International Study Centre on Queen's Campus. Wherever you live, we will be here to help you settle in, make friends and find your way around.

Endeavour Court and Rialto Court offer safe and modern accommodation, conveniently located in Stockton-on-Tees and a short walk from Queen's Campus, the location of the International Study Centre.

Alternatively, you can arrange private accommodation independently (over 18s only).

We recommend all students studying at the International Study Centre to arrange accommodation in Stockton-on-Tees. You should arrange to move to Durham once you progress from your pathway programme and may decide to live in your allocated college.

Everything you need

Facilities include:

- Fully-furnished bedroom, including desk & wardrobe
- En-suite bathroom
- Shared modern kitchen/communal area
- On-site launderette
- 24-hour on-site security
- High-speed broadband and Wi-Fi
- All bills are included

Accommodation may be subject to change. For the latest information, including costs and how to book your room, visit **durham.ac.uk/isc/accommodation**

Prepare for a world-class degree

The International Study Centre offers degree preparation and degree-level study pathway programmes that provide international students with the academic and English language skills required to study at Durham University.

Why study with us?

We want to ensure that you have the required skills and commitment to succeed when you start your degree at Durham University. We do this by giving you an opportunity to improve your English language skills and to **learn more about the academic subjects relevant to your university degree**. We will also introduce you to the style of teaching and independent learning you will experience when you start your undergraduate or postgraduate studies.

Our pathway programmes

- **International Foundation Year**
  A degree preparation programme that leads to the first year of an undergraduate degree. See pages 6-11.
- **Accelerated International Foundation Year**
  An intensive 2 term foundation programme which leads to the first year of an undergraduate degree. See pages 12-14.
- **International Year One**
  A first year degree-level study programme that leads to Year 2 of an undergraduate degree. See pages 16-18
- **Pre-Masters**
  Your pathway to a postgraduate degree. See pages 20-24.

A stepping-stone to Durham University

Completing your pathway programme at the International Study Centre and **achieving the required grades means that you can progress to your degree at Durham University**. Our tutors work with you throughout your studies to ensure you progress academically and develop the focus you need to succeed. You will be well prepared for the challenges of studying at a world-class university.

Supportive environment

You will be supported throughout your studies at the International Study Centre so that you can make the most of the learning and social opportunities. Our class sizes are small with no more than 25 students per class so that you can **receive individual attention from our experienced and highly qualified tutors**. You will also have individual support from an academic personal tutor who will track your progress and tailor your study plan to your needs.

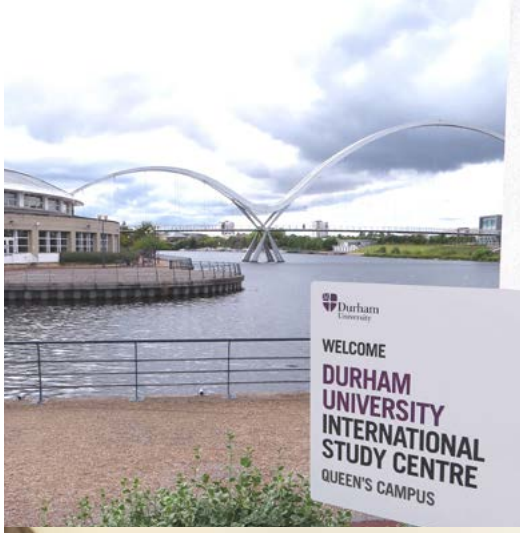

Modern facilities

The broad range of services at Queen's Campus ensure you can make the most of your studies. These include a library, free Wi-Fi, health and welfare services, and a multi-faith prayer and contemplation room.

Supporting your career ambitions

At the International Study Centre we offer a range of activities related to employability to help you build the skills for career success. Activities include identifying personal strengths and developing key skills such as problem solving and communication.

Find out more: **durham.ac.uk/isc**

ON-CAMPUS CAFE

94%
of Durham University International Study Centre students who completed their pathway programme in 2025 were offered a place at Durham University.

Take the first step towards a degree from Durham University:

INTERNATIONAL STUDY CENTRE PROGRAMME AT QUEEN'S CAMPUS → SUCCESSFUL COMPLETION OF PROGRAMME → UNDERGRADUATE OR POSTGRADUATE STUDY AT DURHAM CITY → GRADUATE

International Foundation Year

The International Foundation Year provides you with a pathway to undergraduate degree study at Durham University. Once you complete your programme at Queen's Campus and achieve the required grades, you can start the first year of your degree in Durham City.

Pathways

You can choose from three pathways:

- Business, Economics, Accounting and Finance
- Humanities, Law and Social Science
- Science and Engineering

Facts

Course length: Three terms
Start dates: September, November* or January

Entry requirements

Academic:
Good high school graduation grades or equivalent, with relevant subjects**

English language:
Academic IELTS for UKVI 5.5 (minimum of 5.0 in all other skills)
Students looking to progress to LLB Law need to have 5.5 in reading or writing, or equivalent

Age: 17+

PRE-COURSES
Online English Language Preparation

Need to improve your IELTS level?
Our online English course is designed to raise your IELTS to the required level to begin the International Foundation Year. After successful completion of the course, you can join the International Foundation Year.

Facts

6 weeks: June, July, September, October
10 weeks: January, May, August
16 weeks: July

Entry requirements

English language:
6 weeks: Academic IELTS 5.0 overall (5.0 in reading and writing, minimum 4.5 in all other skills), or equivalent
10 weeks: IELTS 5.0 overall (4.5 in all other skills)
16 weeks: Academic IELTS 4.5 overall (4.5 in reading and writing, minimum 4.0 in all other skills), or equivalent

Age: 17+

Prepare for Success

Join our online preparation course designed to give you a head start before joining your academic programme in September. The course covers three essential areas of life, language and learning through a mixture of self-study content and live sessions.

Enhanced Induction

If you want to settle into your new environment and become familiar with the International Study Centre prior to starting your academic programme in January, the Enhanced Induction starts in November and consists of three additional weeks of life, learning and language skills, at no additional tuition fee.

For further information, including grades required for progression, tuition fees, country-specific entry requirements and term dates, visit: **durham.ac.uk/isc**

GRADUATE **SUCCESS STORY**

Name:
Nutta-uea

From:
Thailand

Studied:
International Foundation Year in Science and Engineering

Graduated with:
BSc (Hons) Chemistry

What they said then:
"The International Study Centre helps you a lot because you can have a set of friends that come to university with you. The transition is going to be much easier than if you are from overseas and then just come straight to university.

After you adapt, you have your advisor, you have your mentor. They are always there to help you."

What they say now:
"[The International Study Centre] prepares you for all your academic writing. At the end of the year, you do a small project where you write an essay, you do research based on what you are studying. It's quite good in a sense that it helps you with all your lab reports later on, also the lab work, helps you prepare yourself for your first year labs.

Who wouldn't be proud when you come out with a bachelor's degree, especially from Durham University? It's quite difficult to get a degree from Durham, just to come out as a graduate, it's quite an awesome thing."

Scan here to hear more from Nutta-uea

International Year One

The International Year One (IY1) is designed to give you a strong, supported start to university life and a direct route into the second year of your degree. You'll study the same academic content as first year university students, but with personalised guidance, smaller classes and teachers who understand your goals. Because you progress to Year 2 without adding extra time or cost, you begin your degree feeling prepared, supported and already one step ahead. Once you complete your programme at Queen's Campus and achieve the required grades you are guaranteed progression to Year 2 of your degree at Durham University.

Academic Skills

Academic skills are the essential tools you need to successfully study at university. They include understanding academic texts, structuring ideas and arguments and communicating clearly with critical thinking, independent learning and effective study strategies. These skills are important for all students because university study is not only about language ability but also about knowing how to apply it in an academic context.

During the International Year One (IY1) programme, you will study Academic Skills at the level that's right for you. Instead of the same module for everyone, you are placed in a group that matches your current level determined by your IELTS score (or equivalent) at entry. Being in a class that matches your level helps you get the best results from your studies. For more information visit: **durhamisc.com/programmes/academic-english-skills**

Pathways

You can choose from:

- Business and Management
- Computer Science

Facts

Course length: 2 semesters

Start dates:

September, November* or January

International Year One

Business and Management

Core Modules

- Academic Skills
- Management: Theory and Evidence
- Business Environment, Marketing and Entrepreneurship
- Organisational Behaviour
- Principles of Marketing
- Introduction to Finance and Management Accounting
- Leadership in Organisations

Progression Degrees

Business and Management BA (Hons)
Business and Management with Placement Year BA (Hons)
Business and Management with Study Abroad BA (Hons

Computer Science

Core Modules

- Academic Skills
- Programming
- Algorithms and Data Structures
- Computer Systems
- Computational Thinking
- Mathematics for Computer Science

Progression Degrees

Computer Science BSc (Hons)
Computer Science MEng (Hons)

GRADUATE **SUCCESS STORY**

Name:
Rumaysa

From:
Pakistan

Studied:
International Foundation Year in Business, Economics, Accounting and Finance

Graduated with:
BA (Hons) Business Management

Scan here to hear more from Rumaysa

What they said then:

"When I arrived, the teachers and students were so welcoming and they helped me with anything I needed. If you need help, you can go to them and they'll sit down with you and they'll help you out.

The International Study Centre is open to opportunities, there are so many subjects you can choose from and fields you can major in. If you don't know what to do, they'll guide you to where you want to go. Since I've come here I've gone to London and Manchester and I'm going to Newcastle this weekend. I like travelling, but I think Stockton is a really good town to study in."

What they say now:

"I think my favourite memory is just being on campus. The teachers were always there, they were just talking to us - it was really nice. My second favourite memory would be roaming around Stockton because it was a very small town but there's just so many places you can go to and explore: like going out with my friends, cycling to McDonald's or going to Teesside retail park and catching a movie or taking the bus to Middlesbrough.

I made an insane amount of friends, I'm still friends with my friends from foundation. In every class I had so many friends with me and in my accommodation as well because everyone was mostly international so we all got along really well."

Pre-Masters Programme

The Pre-Masters programme provides you with a pathway to postgraduate degree study at Durham University. Once you complete your programme at Queen's Campus and achieve the required grades, you can start your chosen Master's degree at Durham City campus.

Pathways

You can choose from three pathways:

- Business, Economics, Accounting and Finance
- Humanities
- Law and Social Science
- Science and Engineering

Facts

Course length: Two or three terms
Start dates:
Three terms: September, November* or January
Two terms: November*, January or March

Entry requirements

Academic:
Good first degree (some subjects may require a relevant degree)

English language:
Three terms: Academic IELTS for UKVI 5.5 (minimum of 5.5 in all skills), or equivalent*
Two terms: Academic IELTS for UKVI 6.0 (minimum of 5.5 in all skills), or equivalent*

Age: 18+

*Our November start includes a 3-week Enhanced Induction before you start your academic pathway programme in January

PRE-COURSES
Online English Preparation

If you do not have the required level of English language to start the Pre-Masters, you can take an online English course before you start your academic programme.

Facts

Course length: 6 weeks: June, July, September, October
10 weeks: August
16 weeks: July

Entry requirements

English language:
6 weeks: Equivalent to Academic IELTS 5.0 overall (5.0 in all other skills)*
10 weeks: Equivalent to Academic IELTS 5.0 overall (4.5 in all other skills)*
16 weeks: Equivalent to Academic IELTS 4.5 overall (4.5 in all other skills)*

Age: 18+

Prepare for Success

Join our online preparation course designed to give you a head start before joining your academic programme in September. The course covers three essential areas of life, language and learning through a mixture of self-study content and live sessions.

Enhanced Induction

If you want to settle into your new environment and become familiar with the International Study Centre prior to starting your academic programme in January, the Enhanced Induction starts in November and consists of three additional weeks of life, learning and language skills, at no additional tuition fee.

For further information, including grades required for progression, tuition fees, country-specific entry requirements and term dates, visit **durham.ac.uk/isc**

Your degree at Durham University

You will study your degree in the City of Durham. World-leading academics, extensive learning facilities and a research-led education will support you to achieve a top degree ready for a bright future.

World-leading academics

Taught by academics with a reputation for groundbreaking research, you will develop your ability to problem-solve and work independently. This atmosphere of innovation and discovery places you at the forefront of developments in your field, challenging your mind and enhancing your career skills.

Learning facilities

As a student at Durham, you can use the University libraries, which are home to 1.6 million books and 300,000 online e-books and journals. The Bill Bryson Library is the largest and holds four major research collections. Palace Green Library houses an Archives and Special Collections section that attracts scholars from around the world, as well as the Museum of Archaeology which houses archaeological collections from the city dating back 10,000 years.

Develop Your Skills

Developing your academic and employability skills is key to being prepared for your study and work during and after your time at university. The **Careers & Enterprise Centre** can help you identify opportunities to help you understand and develop the skills you will need.

You will have the opportunity to attend sessions that provide practical advice about skills such as, performing well at assessment centres, handling video interviews, developing digital skills, writing applications. These sessions will enable you to improve your understanding of the graduate workplace and provide you with the opportunity to learn and develop these skills while at university.

You can also develop your employability skills using a wide range of resources, including a work readiness assessment, and the Durham Online Career Planning Programme, which includes pathways on Knowing Yourself and Employers' Expectations, Exploring Options, Goal Setting and Career Action Planning, and Successful Applications and Assessments. Current Durham students and graduates can access these resources in the Quick Links sections on the Current Students and Staff and After Graduation web pages.

Build Your Work Experience

A good degree, even from a world-class institution, is not enough to secure a job when you graduate - experience counts!

In addition to your academic achievements, graduate employers want to see evidence that you are commercially aware and have the practical skills needed to excel in the workplace. Work experience is an excellent way to develop these abilities and has the added advantage of allowing you to 'test out' the types of job you might want to do after graduation. Although this may be a long way off for some, gaining work experience during your time at University offers that vital opportunity.

The **Careers & Enterprise Centre** can help. A wide variety of work experience opportunities are advertised, including placement years, internships, local part-time jobs and voluntary work.

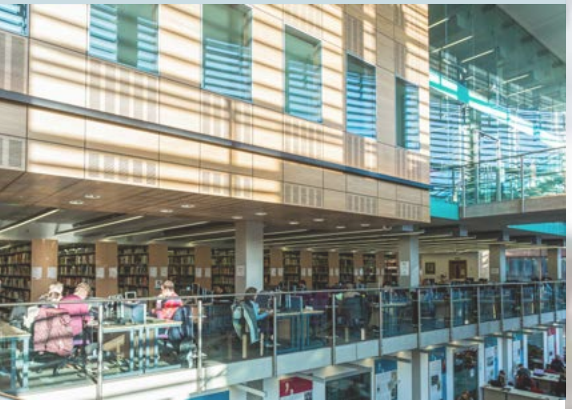

A dedicated **Work Experience Development** team create and run a number of work experience and internship programmes, specifically for Durham students. Taking into account the needs and interests of the student cohort, these programmes are intended to support students in gaining valuable work experience in highly sought after career areas. Current focus areas include social enterprises and SMEs.

The Work Experience Development team also run an innovative and successful widening participation and careers programme called Enabling Opportunities. The focus of this programme is to provide careers support to a small group of students from under-represented backgrounds who are seeking work experience. Encompassing a series of workshops, tailored one-to-one support and engagement with employers, the programme provides expert guidance and advice that aims to strengthen applications to work experience opportunities. The programme culminates in a period of work experience.

The **Student Employment Service** can help you to find and apply for part-time work both on-campus and in the local area.

Many employers value a broad range of skills that can be developed through part-time employment. On this service, you can find advertisements of a variety of part-time term-time and vacation opportunities, with high-quality employers, designed to offer you an important insight into your career area, whilst helping to develop your employability skills.

A number of events are hosted throughout the year, which are useful when searching for part-time jobs and work experience opportunities.

Complete a Placement Year

A Placement Year is an opportunity for you to gain valuable work experience during your time at University.

By undertaking a work placement you will be able to apply yourself fully within an organisation and trial a particular career or working environment that interests you. Extensive training is usually provided and the experience often mirrors the first year working in a graduate role. Placement Years typically occur in between the penultimate and final year of your degree and usually last between 9 to 12 months.

A Placement Year can help you:

- Gain sector-specific/industry experience
- Enhance your CV
- Understand the culture of an organisation
- Utilise your degree in the workplace
- Discover a new city or country

In an increasingly competitive graduate job market, employers want to see that you have developed a wide range of skills throughout your time at university, which will be beneficial in the workplace. **We are proud to be within the most targeted universities by top employers** who provide a variety of placement roles that may align with your degree or to your broader careers aspirations.

STUDENT **SUCCESS STORY**

Name:
William

From:
Ghana

Studied:
International Foundation Year in Science and Engineering

Progressed to:
BSc (Hons) Computer Science

"I did a one-year work placement in a company called Finbond. It's a FinTech company that seeks to reduce the cost of investments by providing a portfolio management system to different asset managers, hedge funds and different firms. It has helped me a lot because I was working as a software engineer intern there and it just exposed me to the different possibilities and opportunities available in the FinTech industry as well as introducing me to standard ways of coding. It has set a pathway for me that I intend to pursue the FinTech industry."

Make your student experience count

As a Durham student, you will be part of a college with its own facilities, sports, societies and community. You will also enjoy access to the shared University facilities and all the shops, amenities and historic attractions of Durham City.

Collegiate university

Durham University's historic collegiate system is a unique aspect of student life at Durham. Each of Durham's 17 colleges have their own distinct character and traditions, with a range of opportunities for participation and leadership. Upon progression to your Durham degree, you will join one of these colleges.

Colleges differ in terms of their architecture, history and traditions and provide different accommodation and catering options. **Our experienced staff will support you in choosing your college preference** while you are studying at the International Study Centre.

durham.ac.uk/isc/colleges

A historic city

Durham is a stunning city located beside the River Wear in North East England. It has beautiful architecture, cobbled streets and a variety of shops. A popular tourist destination, the city has a UNESCO-listed Castle and Cathedral, excellent museums, restaurants offering international cuisine and festivals. For those wanting a larger city experience, Newcastle is just 15 minutes away from Durham by train.

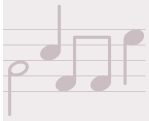

Sports, clubs and societies

As a Durham University student, you can get involved with a wide range of activities to create your own unique student experience. There are endless opportunities to join in with sport, music, theatre and volunteering projects, as well as over 200 clubs and societies to choose from.

Durham has one of Britain's largest student participation programmes in sport. 75% of Durham students take part in some physical activity. Whatever your sporting interests, you will be sure to make new friends to enjoy them with, all while being encouraged to achieve your best at an award-winning university.

GET INVOLVED:

The University has **700 different college sports teams**, playing 18 different sports, including football, volleyball, rugby, rowing and tennis.

Join one of **80+ music societies** including orchestras, choirs and bands.

Durham Student Theatre. Durham's 27 theatre companies produce 90 shows every year.

Student Community Action. Volunteer with one of the 80 outreach projects.

Durham Students' Union. **Find 200 clubs and societies** at Durham SU.

Palatinate. The University's student-run newspaper is published every fortnight.

Purple Radio. The University's student-run radio station broadcasts 24 hours a day, seven days a week during term.

Durham Union Society. The debating society is the University's oldest society.

StudyGroup

This guide is intended as a general guide for students considering entry to Durham University International Study Centre from 2027. Durham University International Study Centre is operated, and its programmes offered by Study Group Limited ('Study Group'). This guide forms no part of any contract between you and Study Group except as provided below. The guide is prepared in advance of the academic year to which it relates and Study Group makes every effort to ensure that the information contained here is accurate.

Although reasonable steps are taken by Study Group to provide the programmes and services described, Study Group cannot guarantee the provision of any programme. Any programme may be altered or withdrawn owing to circumstances beyond Study Group's reasonable control. Such circumstances include (but are not limited to) lack of demand, departure of key personnel, change in government policy, withdrawal or reduction of funding, change of law or changes necessitated by pandemic or epidemic. Study Group will take such steps as are available to it to minimise the effect of any alteration or withdrawal of a programme and we will notify you of such alteration or withdrawal as soon as possible.

Such steps may include the offer of a place on an alternative programme. Alternatively you may withdraw your application without any liability for fees (including the enrolment fee).

Please note that Durham University International Study Centre's website is the most up to date source of information regarding programmes and facilities and we strongly recommend that you always visit the website before making any commitments. Durham University and its logo are registered Trade Marks of Durham University. 'Study Group' and the Study Group logo are registered Trade Marks of Study Group.
