

## MAXIS® GRIPS PULLING HEADS

The MAXIS® grips pulling heads are a dual-lock pulling system that uses both a cam lock head and a double braided wire to quickly secure cable to rope without the fear of losing a conductor. These pulling heads provide increased efficiency with 2 minute head preparation.

- Rated at 4,000 lbs. per conductor.
- Holds securely to NO-LUBE® wire
- Disconnect wire from pulling heads in 2 minutes without cutting the wire
- No cutting, stripping or weaving of wire to make pulling head
- Easily moves through conduit and around 90° bends
- Staggered lengths for easier movement
- Keeps pulling head tight for easier movement through conduit
