

## **WIRE & CABLE FOR HEALTHCARE**

## Healthcare Projects

At Texcan, we know that effective healthcare solutions begin with the construction and management of the healing environment. We understand that your institution requires a broad selection of wire and cable products to keep everything running smoothly. Whether it's a large urban hospital or a community retirement home, we have you covered with our customized wire and cable solutions.

We work with you to meet the needs of your facility as it evolves to include new technologies and innovations for patient care and safety. From data cables that ensure communications to patients & equipment to fire-resistive cables that help with patient evacuation in emergencies, our project expertise and strong relationships with suppliers ensures project success.

## Project Management Experience

Texcan has experience in many large-scale wire and cable projects in various industries. Our team of specialists work with engineers, project owners, and contractors to support major projects in a start-to-finish service cycle.

We deliver quality products and services on time and on budget, while adapting to your project's evolving requirements. Our cost-effective solutions provide peace of mind and help you focus on other aspects of your project progress.

## Local Expertise with a Global Presence

Established in 1978, Texcan is one of Canada's largest wire and cable distributors and part of the Sonepar Group of companies. Founded in 1969, Sonepar is an independent family-owned company and global market leader in the B-to-B distribution of electrical products, solutions and related services. Together, we meet your wire and cable needs both locally and globally. We are passionate about our customers' projects and contracts. We are Sonepar, "Powered by Difference".

## Technical Resource & Support

Our experienced wire and cable specialists and product management group, including engineering support, can quickly and reliably create cabling solutions that match your specified technical requirements. We can help you adapt to changes quickly to meet tough deadlines.
