

TEXCAN

A Sonepar Company

**WIRE & CABLE
SPECIALISTS SINCE
1978**

WHY CHOOSE TEXCAN?

Our expertise lies in providing solutions tailored to each customer's individual needs.

Texcan has been a leader in the wire and cable industry since 1978, consistently going above and beyond to serve our customers. As one of the largest wire and cable suppliers in Canada, Texcan specializes in serving the electrical market and offers an extensive range of products and specialized services.

At Texcan, our mission is to simplify our customers' lives. We understand that each customer has unique needs, and we are dedicated to providing tailored solutions that meet those requirements. With 800,000 square feet of warehouse space, we maintain a vast inventory of thousands of North American-made items, ensuring prompt shipment and availability.

Our commitment to exceptional customer service is backed by our extensive project experience and in-depth product knowledge. We have a dedicated team of product experts ready to assist our customers, ensuring they receive the right solutions for their projects across diverse industries. At Texcan, we are here to support you every step of the way, providing unmatched service and expertise.

LOCAL INVENTORY WHAT YOU WANT, WHEN YOU NEED IT!!

Texcan takes pride in our extensive inventory, offering a diverse selection of wire and cable options to meet customers' specific requirements. We prioritize convenience, ensuring that our customers have easy access to the products they need, when they need them.

We understand that different industries have unique demands, which is why we carry a wide range of industry-specific products. Our local inventory is tailored to meet the needs of electrical contractors, industrial projects, and more, ensuring that we have the right solutions readily available.

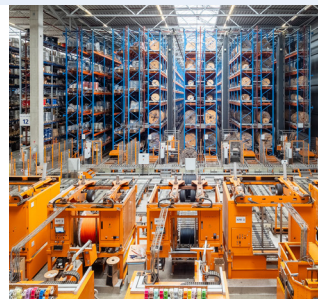

Through our commitment to maintaining extensive local inventory, we significantly reduce lead times for our customers. We recognize the importance of timely project completion, and our inventory management strategy allows us to promptly fulfill orders, ensuring seamless project execution and utmost customer satisfaction.

LOCAL EXPERTISE WITH A GLOBAL PRESENCE

2023 Key Figures

-  **World Leader**

ENGINEERING SUPPORT: STREAMLINING YOUR PROJECT SUCCESS

By choosing Texcan, you gain access to our dedicated in-house engineering and project management team, along with manufacturer support for your project. The sooner you engage us, the greater the value we can provide.

We can assist in reviewing your bill of materials, ensuring accuracy and efficiency. Our team specializes in streamlining cabling specifications, optimizing designs, and technical compliance throughout the project life-cycle. Our expertise allows us to streamline processes and enhance overall project efficiency.

MAJOR PROJECTS GROUP

At Texcan, we understand that large-scale projects demand special attention. That's why we take pride in being the first cable supplier in our market to establish a dedicated Major Projects Group (MPG). Our dedicated team of wire and cable specialist are committed to delivery customized solutions.

As your project partner, we strive to help you achieve results. Our MPG team is here to support you in reducing costs, saving time, mitigating risks, and optimizing design.

With our expertise and commitment, you can rest assured that your project is in capable hands.

*Your Vision, Our Expertise: Large-Scale
Projects Perfected.*

CABLE PRODUCTS AND CUSTOM SOLUTIONS

Texcan supplies a wide range of specialty products, including High Voltage Power Cable, Safety Cable, Connectors, and more. Our products are built to withstand environmental stress, water, and corrosion.

With our ability to custom-cut and ship orders on the same day, Texcan ensures you have what you need, precisely when you need it. Trust Texcan for all your specialty cable requirements.

LOGISTICS FOR EFFICIENT DELIVERIES

Texcan Logistics is dedicated to the success of your project, ensuring attention to detail with customized packaging to meet your specifications.

Count on our on-time delivery to keep your project on schedule, and benefit from our expertise in specialized services like custom tagging, cable reel lagging, and weatherproof protection.

Trust Texcan Logistics for seamless and reliable logistics that meets your project's requirements.

LIVE 24/7, 365 DAYS EMERGENCY SUPPORT

Texcan understands the importance of uninterrupted, year-round operations. We recognize that emergencies and disruptions can bring significant risks and expenses. That's why we are fully committed to providing assistance whenever it's needed. Our dedicated team is available 24/7 to provide live help, ensuring that your operations can swiftly resume without any unnecessary delays.

When a fire threatened to halt a customer's operations, Texcan swiftly assembled a dedicated project team to secure, package and deliver the required cable. This proactive approach not only helped restore the project's time-line but also resulted in significant cost savings for our valued customer.

Texcan knowledgeable experts are here to assist you even after regular business hours, on weekends, and even during holidays. We understand the importance of being there for you when you need us the most, and that's the Texcan advantage.

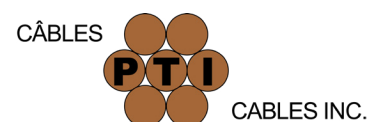

To access our live assistance, simply call your nearest Texcan branch. We are ready to provide the support you need, anytime, anywhere.

PRODUCT SOURCING

Texcan's preferred partners are selected based on their reputation for excellence, reliability, and expertise in their respective fields.

These partnerships are built on mutual trust, shared values, and a commitment to delivering exceptional customer experiences.

By collaborating with industry-leading manufacturers and suppliers, Texcan ensures that it consistently offers outstanding products and solutions to its diverse customer base.

INDIGENOUS RELATIONS MISSION STATEMENT

At Texcan, we are committed to fostering a trusted partnership with Indigenous communities across Canada. Our mission compels us to continuously examine our organization at every level to determine how to best improve our Indigenous relations as we work towards the goal of reconciliation.

Sonepar partners with the women-led, indigenously owned design team, Design De Plume to create a four-piece Land Acknowledgment art collection.

Texcan Head office is in Surrey, British Columbia. Texcan would like to take this opportunity to recognize and acknowledge that the land upon which we are gathering today has been inhabited and stewarded by the Kwantlen, Katzie, Semiahmoo, and Tsawwassen Nations, since time immemorial.

By acknowledging these Indigenous Nations, we also acknowledge the stories that these lands carry about their struggles for survival and identity, recognizing colonial histories and the harms perpetuated against Indigenous communities over the last two centuries.

We invite you to reflect with us upon the importance of reconciliation and collaboration with the First Nations, Métis, and Inuit communities now living in Surrey.

DIVERSITY, INCLUSION AND EQUITY

We value, respect and embrace all differences. We commit to building a fair and impartial business community. We foster a culture where all associates feel valued and have a sense of belonging.

PRIORITIES

Attract, retain and promote women within our workforce.

Promote Diversity at all levels, and encourage associates from diverse backgrounds to grow within the organization.

Enable an environment that fosters career progression of all associates from all generations.

OUR MISSION IN SUSTAINABILITY

Today, Sonepar is the world number one in sales of energy-efficient products. We are one of the leading pioneers of the energy transition, making sustainability a priority. How we take action in Canada:

LOW CARBON FLEET

Texcan has completed a four-year fleet transition project by replacing 94% of its propane forklift fleet with electrical, which has led to a reduction in propane consumption by 87%.

GHG EMISSIONS REDUCTION

Reducing absolute scope 1 and 2 by 46.2% & scope 3 by 13.5% by 2030.

WASTE MANAGEMENT

Texcan implemented a wood waste recycling program. Wooden reels & pallets that cannot be reused are sent to a Biofuel facility for recycling.

ENERGY SAVING

LED lighting has been installed at more than 96% of company facilities, including offices, branches, and warehouses. Warehouses have been equipped with advanced lighting control systems.

CIRCULARITY

Implementing Zero Waste to Landfill strategy by 2030; establishing end of life for majority of materials.

SUSTAINABILITY COMMITTEE

The goal of this committee is to engage employees, make a meaningful impact on workplace culture, systematically work on an emissions reduction action plan, promote circularity, and continuously improve environmental sustainability

ECOVADIS BRONZE RATING

Sonepar is in the top 15% of companies rated by EcoVadis in the wholesale of machinery and equipment industry.

EcoVadis' assessment focuses on four areas:

- Environment
- Labor and human rights
- Ethics
- Sustainable procurement

HEALTH & SAFETY

At Texcan, we are committed to safeguarding the health and safety of our employees and the environment. Our dedication is reflected in our "Journey to Zero" vision, which holds individuals accountable for adhering to internal rules, safe work practices, and standard operating procedures.

Texcan has developed a comprehensive health and safety program that complies with provincial regulations and aligns with industry best practices. To ensure transparency with our potential clients, we are registered with contractor registries such as ISN, ComplyWorks, and Avetta.

As part of our culture of continuous improvement, Texcan employs a dedicated Health, Safety, and Environment professional, as well as process Improvement Managers. We are committed to continuously enhancing our practices and maintaining a safe working environment for everyone involved.

QUALITY ASSURANCE

Texcan is recognized for its commitment to quality assurance, demonstrated by our ISO 9001:2015 and CSA certifications. These certifications affirm that our operations adhere to rigorous standards, ensuring the delivery of superior products and services to our customers.

Through our comprehensive Quality Management Program, we continuously strive for process improvement. We actively monitor performance metrics, seek customer feedback, and conduct internal & external audits to identify areas for enhancement. This commitment to continuous improvement enables us to exceed customer expectations consistently.

By upholding stringent quality standards and fostering a culture of excellence, Texcan ensures that our customers receive reliable and high-quality solutions for their projects. Our dedication to quality assurance is at the core of our operations, guaranteeing customer satisfaction and trust in our products and services.

ALL COMMITTED, ALL COMPLIANT

Complying with legal and regulatory requirements is a challenge we meet. However, we not only rise to this challenge but go beyond it, because we make compliance and integrity a core, daily priority for our associates.

Texcan, a part of the Sonepar group, is committed to the highest ethical, social, and environmental standards. We aim to be a responsible corporate citizen in Canada.
