

PTI FARM | ILLINOIS

INTERNSHIP OVERVIEW

The PTI Farm is a 400-acre research farm located in Pontiac, IL. This farm showcases Precision Planting and PTx Trimble technologies, core agronomic principles and planting fundamentals through 120+ agronomy trials. Throughout the summer, PTx invites growers from all over the world to see the agronomic research and experience technology firsthand. This internship will focus on cutting-edge agronomy and sound farming practices. We are aggressive and work hard, but you will challenge yourself while having fun.

Responsibilities:

- Operate agricultural equipment to conduct product testing.
- Perform daily field operations as needed such as tillage, planting, spraying, mowing, cultivating, and fertilizer application.
- Coordination, execution, and measurement of field-based product trials.
- Maintain plots in good visual condition during the growing season through mowing, weeding, and tilling.
- Assist with the installation of field trial equipment.

Desired Skills/Experience:

- Ability to speak to large groups
- Basic video and/or photography skills
- Ability to lift over 50 pounds
