

2026

UP TO **\$10,000**

REIMBURSEMENT

ACT NOW — LIMITED TIME ONLY

Get a Smart Start on 2027

**Precisely prescribed crop nutrition
and perfectly calibrated planters.**

Team up with AgroLiquid and Precision Planting to make every nutrient dollar work harder. Precision Planting's FurrowJet®, Conceal®, vApplyHD®, EMHD®, and Flowsense® technology, paired with AgroLiquid's liquid crop nutrition, humic, fulvic and sugar products, can help you better match fertility to your crop's needs and make more efficient fertility decisions.

For a limited time, AgroLiquid is offering up to \$10,000 in product reimbursement when you equip your planter with qualifying Precision Planting technology.

Purchase a minimum of 250 gallons per row of qualifying AgroLiquid non-nitrogen crop nutrition, humics, fulvics and/or sugar products and earn \$0.28 per gallon in reimbursement for up to two years. The maximum total reimbursement is \$10,000. Growers who earn the full \$10,000 reimbursement in the first year are not eligible for additional reimbursement in year two.

**Upgrade your planter. Optimize your fertility program.
Get a Smart Start on 2027.**

UP TO \$10,000 PRODUCT REIMBURSEMENT

Join the many other growers taking advantage of this program. ACT NOW!

Earn the Smart Start \$0.28 per gallon product reimbursement

To earn the Smart Start \$0.28 reimbursement per gallon of qualifying AgroLiquid non-nitrogen products, you simply need to agree to equip your planter with Precision Planting's FurrowJet, Conceal, vApplyHD, Flowsense, or EMHD technology, before **April 30, 2027**. You also commit to supplying your crops with the best crop nutrition possible with a minimum purchase of 250 gallons per planter row of any combination of AgroLiquid phosphorus, potassium, secondary, micronutrient humic, fulvic or sugar products for the 2027 cropping season, and you will earn \$0.28 per gallon for the next two years, up to \$10,000 total reimbursement.

ACT NOW TO TAKE ADVANTAGE OF THIS REBATE!

Contact your local AgroLiquid representative or Precision Planting dealer if you have any questions.

2026-2027 SMART START 10K PROGRAM

Effective September 1, 2026—April 30, 2027

Program Procedures:

- Place an order under any current published price list between September 1, 2026, and April 30, 2027. You also commit to supplying your crops with a minimum purchase of 250 gallons per row of any combination of AgroLiquid or Monty's phosphorous, potassium, secondary and/or micronutrient products.
 - All qualifying gallons are subject to program pricing of order. Any gallons not paid or delivered by the deadlines agreed to within order program are subject to re-pricing and/or cancellation.
 - Cannot be used in conjunction with KSA Gallons.
- Retail Partner's standard payment terms apply. Product deadline for fertilizer delivery is dependent upon sales program of qualifying orders.
- The Retail Partner submits the completed Reimbursement Information Packet, "Verification of Conversion" form and the proof of purchase invoice for the equipment and fertilizer.
 - Proof of Purchase invoice must contain: date of purchase, itemization of new components, verification of payment.
 - The cost of the conversion must be equal to or greater than the cost share amount.
- Participants AgroLiquid account must be current to receive reimbursement
- Signed Agreement must be on file on or before April 30, 2027
- A completed Reimbursement Information Packet must be on file or completed to receive reimbursement.
 - The rebate will be issued directly to the grower once AgroLiquid has received all required documentation with verification that all fertilizer has been delivered and the Retail Partner has been paid according to the guidelines of the qualifying orders.
- Participants will receive \$0.28/gal year one on planters converted to include one or more of Precision Planting's Furrow Jet, Conceal, vApplyHD, EMHD or Flowsense technology and commit to 250 gallons per row of AgroLiquid or Monty's products between September 1, 2026—April 30, 2027.
 - Maximum rebate total is \$10,000 – can be maxed out year one.
 - Year two purchase an additional 250 gallons per row and receive an additional \$0.28 per gal reimbursement. Reimbursement will be no greater than \$10,000 total between the two years.
- ALL invoices and corresponding backup documentation must be emailed to the following:
 - kayle.ryder@agroliquid.com
